LOYAL SONS ENJOYS A PLEASANT TIME AT THE FOSTER HOME

From Friday's Daily.
The Loyal Sons of the Christian church last evening enjoyed a very pleasant time at the hospitable home of Mr. and Mrs. C. M. Foster, and the evening was one filled with much pleasure and profit to all the members and their friends who were present. The program was one very pleasing and included a number of musical selections by Mrs. Eugene Setz, who is gifted with an exceptionally fine voice, and her rendition of the several different vocal numbers was thoroughly enjoyed, as they gave her a splendid range for her powerful voice. The lecture of the evening, delivered by Homer McKay, was one filled with a great many good points and was on the subject of "Science and the Bible, or Man and the Universe," and the speaker pointed out the difference of the life on the planets which had died out and the life of the hereafter, where there was no end, and his points during his lecture were received with much pleasure by the large audience assembled at the Foster home.

Foley Cathartic Tablets are entirely effective, thoroughly cleansing and always pleasant in action. They contain blue flag, are a remedy for constipation and sluggish liver, and a tonic to the bowels, which are improved by their use. Try them. They do not fail to give relief and satisfaction. For sale by all druggists.

Arrival of New Granddaughter.
From Friday's Daily.
This morning a message was received in this city announcing the arrival at an early hour this morning of a fine new daughter at the home of Mr. and Mrs. William A. Swatek, in South Omaha, and that the mother and little one were getting along nicely. Mrs. Swatek was formerly Miss Josephine Jelinek of this city, and the news of the new arrival this morning was very pleasing to Mr. and Mrs. Joseph Jelinek, the proud grandparents, as well as the other relatives here. Mrs. Jelinek will leave this afternoon for South Omaha to visit the little granddaughter.

28 Cents for Butter Fat.
The undersigned manager of the Lincoln Pure Butter Co., at this station, is at this time paying 28c for butter fat, as determined by the government Babcock test. We are also paying the highest market price at all times for all kinds of produce and poultry. Call and see me before disposing of your produce.
Fred Dawson,
Lincoln Pure Butter Co.,
Plattsmouth, Neb.

Local News

From Friday's Daily.
Charles Lovell of the vicinity of Mynard was a visitor in this city yesterday and a pleasant caller at this office.

G. P. Meisinger, jr., was in the city today for a few hours to attend to some matters of business with the merchants.

C. M. Seybert of Louisville was here for a few hours today looking after some business matters at the court house.

William Rice of Murray was in the city today for a few hours looking after some trading with the merchants.

Mrs. Ed S. Tutt of Murray and Miss Florence Corry were passengers this morning for Omaha, where they expect to visit for the day with friends.

Miss Eleanor Todd came in this afternoon from Omaha, where she is attending school, and will visit over Sunday with her parents on the farm west of this city.

Mrs. Lawrie of Lincoln came down last evening on No. 2 to attend the meeting of the Degree of Honor, and while in the city was a guest of Mrs. William Hassler, Margaret Hiatt of Lincoln, who has been here visiting at the home of her sister, Mrs. F. R. Gobelman, for a few days, departed this morning on No. 15 for her home.

W. C. Tippens, William Baird and H. S. Barthold were passengers this afternoon for Omaha, where they will attend the meeting of the Shriners this evening.

Guy Eastman of Crawford, Neb., is in the city for a short visit at the home of his father-in-law, G. P. Eastwood and family, and in company with Arthur Eastwood, was a visitor in Pacific Junction this afternoon.

Ed Ripple, jr., arrived in the city last evening from Medicine county, Oklahoma, and will visit at the home of Claus Beutel and family for the summer. Mr. Ripple, with his father, has been engaged in farming on a homestead in that state for the past few years and now having proved up on their claim they will return to this city to reside.

From Saturday's Daily.
Henry Horn of Cedar Creek was in the city today for a few hours looking after business matters.

G. L. Meisinger of Cedar Creek was a visitor in this city today and a pleasant caller at this office.

Mrs. George Wall of La Platte was among the shoppers in the city today looking after matters of business.

C. M. Seybert of Cedar Creek was a business visitor in this city yesterday, and a pleasant caller at this office.

P. A. Meisinger drove in today from his farm home to spend the day looking after some trading with the merchants.

John Gorder was a business visitor in the metropolis today for a few hours, going to that city on the early Burlington train.

William Wohlfaeth of Mynard was attending to some business matters in this city today, and made this office a pleasant call.

J. C. Stroy of Murdock was in the city yesterday for a short time looking after some matters of business at the court house.

G. P. Meisinger of Cedar Creek was in the city today for a few hours looking after some business matters with the merchants.

Philip Albert, one of the young farmers of the county, was in town today for a short time attending to some business matters.

Mrs. W. T. Adams and daughter departed this morning for the metropolis, where they will visit for the day looking after some matters of business.

Miss Ellen Pollock returned last evening on No. 2 from Fairbury, where she has been attending the state chapter of the Daughters of the American Revolution.

Miss Margaret Mills, matron of the Masonic Orphans' Home, was a passenger this morning for Omaha, where she will visit for the day attending to some matters in connection with that institution.

Martha Steppat and wife of Blair, Neb., came in this afternoon on No. 21 and will visit for a few days at the home of their son, Frank Steppat, and with other relatives.

Oscar Allen, one of the former Cass county boys, came down this morning from Omaha, where he is now located, and spent the day here looking after business matters, as well as visiting his many friends.

Misses Margaret and Tillie Rabb and their brother, Andrew, were passengers this morning for Lincoln, where they will visit with

TELEPHONE ACHIEVEMENTS

TELEPHONE SERVICE OF TODAY THE CREATION OF THE BELL CO.

In no line of human endeavor has the inventive brain of the scientist contributed more to the world's progress than by the creation of the art of telephony, of which the Bell system is the embodiment.

When the telephone was born, nothing analogous to telephone service as we now know it existed. There was no tradition to guide, no experience to follow.

The system, the apparatus, the methods—an entire new art had to be created. The art of electrical engineering did not exist. The Bell pioneers recognizing that success depended upon the highest engineering and technical skill, at once organized an experimental and research department which is now directed by a staff of over 550 engineers and scientists, including former professors, post-graduate students, scientific investigators—the graduates of over 70 universities.

From its foundation the company has continuously developed the art. New improvements in telephones, switchboards, lines, cables have followed one another with remarkable rapidity. While each successive type of apparatus to the superficial observer suggested similarity, each step in the evolution marked a decided improvement. These changes, this evolution, has not only been continuous, but is continuing. Substantially all of the plant now in use, including telephones, switchboards, cables and wires, has been constructed, renewed or reconstructed in the past 10 years.

Particularly in switchboards have the changes been so radical that installations costing in the aggregate millions have frequently been discarded after only a few years of use.

Since 1877 there have been introduced 53 types and styles of receivers and 73 types and styles of transmitters. Of the 12,000,000 telephone receivers and transmitters owned by the Bell Company January 1, 1914, none were in use prior to 1902, while the average age is less than five years.

Within 10 years we have expended for construction and reconstruction an amount more than equal to the present book value of our entire plant.

Long-distance and underground transmission was the most formidable scientific problem confronting the telephone experts.

The retarding effect of the earth on the telephone current often impaired conversation through one mile underground as much as through 100 overhead. Overhead conversation had its distinct limitations.

No possible improvement in the telephone transmitter could of itself solve these difficulties.

The solution was only found in the cumulative effect of improvements, great and small, in telephone, transmitter, line, cable, switchboard and every other piece of apparatus or plant required in the transmission of speech.

While the limit of commercial overhead talking had increased from strictly local to over

1000 miles as early as 1893, it was not until 1905 that conversation could be had over long-distance circuits of which as much as 20 miles was in underground cables. By 1908 underground talking distance had increased to 90 miles. By 1912 it was possible to talk underground from New York to Washington.

It was then that the construction of underground conduits from Boston to Washington was determined upon—not that it was expected to get a through underground talk between those places, but in case of storm or blizzard, to utilize intermediate sections in connection with the overhead.

Our persistent study and incessant experimentation have produced results more remarkable still.

We have perfected cables, apparatus and methods that have overcome obstacles heretofore regarded as insuperable both to long-distance overhead and underground conversation.

Underground conversation is now possible between Boston and Washington, four times the length of the longest European underground line. This enabled the Bell system in the recent great storm, so destructive on land and sea, to maintain communication for the public between all the principal points on the Atlantic seaboard.

Telephone communication is established between New York and Denver, is potentially possible between all points in the United States and by 1915 will be an accomplished fact between New York and San Francisco.

In our use of methods or apparatus, we are committed to no one system. We own, control or have the right to use inventions necessary to our operating system recognized or accepted as the most efficient. The Bell System must always recognize, and in its selection must always be governed by the necessities of a national service, with its complex requirements, which is infinitely more exacting than local or limited service.

These achievements represent vast expenditures of money and immense concentration of effort which have been justified by results of immeasurable benefit to the public. No local company unaided could bear the financial or scientific burden of this work. Such results are possible only through a centralized general staff, avoiding wasteful duplication of effort, working out problems common to all, for the benefit of all.

The pioneers of the Bell System recognized that telephone service as they saw it, was in the broadest sense a public utility that upon them rested a public obligation to give the best possible service at the most reasonable rates consistent with risk, investment and the continued improvement and maintenance of its property.

Without this expenditure of millions and concentration of effort, the telephone art as it exists could not have been developed.

What we have done in working out these great problems in the past should be accepted as a guarantee of what we will do in the future.

THEO. N. VAIL, President.

DELIGHTFUL TIME AT THE MANNERS HOME

From Friday's Daily.
Last Saturday evening Mrs. Jennie Tvey Ehlers, H. O. Ehlers, Mr. and Mrs. William Tvey and Mrs. Ehlers' music pupils were entertained in a most delightful manner at the home of Mr. and Mrs. C. M. Manners on Chicago avenue by Mesdames Manners, R. F. Crook, George Winscott, F. Geis and Joseph Wampler, and the occasion proved one of the most pleasing entertainments of the season. A very pleasant program had been arranged, embracing a number of vocal and instrumental selections given by Mrs. Ehlers' music pupils, each one being forced to respond to an encore, which they did in a very pleasing manner. A beautiful cut glass dish was presented to Mrs. Ehlers by her music pupils as an appreciation of her splendid work. At an appropriate hour a delicious two-course luncheon was served, which added greatly to the pleasures of the evening, and the tempting and dainty refreshments were thoroughly enjoyed by the crowd, numbering some thirty persons.

ONE OF THE LARGEST MORTGAGES EVER FILED IN CASS COUNTY

From Friday's Daily.
One of the largest mortgages ever filed in the county was filed today in the office of Register of Deeds Snyder, it being from the Omaha and Lincoln Railway and Lighting company to the General Trust company of Illinois, and was for the sum of \$2,250,000, to cover the bonds of the company, which consist of 2,250 bonds of the denomination of \$1,000 each. This is the company that is known as the McKinley syndicate, and is to build a line of interurban railroad from Omaha to Lincoln and pass through this county at Louisville. The mortgages were also recorded at Omaha and Papillion, in which counties the company has holdings.

Disordered Kidneys Cause Much Misery.

With pain and misery by day, sleep-disturbing bladder weakness at night, tired, nervous, run-down men and women everywhere are glad to know that Foley Kidney Pills restore health and strength, and the regular action of kidneys and bladder. For sale by all druggists.

Union Defeats Plattsmouth.

(Union Ledger.)
The Union basketball enthusiasts certainly copied enough glory in their contests against the Plattsmouth teams, winning both games in a double-header last Friday evening in the Union High school gymnasium. But it was no soft snip, even though our fellows won by a safe margin. The first game was Union High school vs. Plattsmouth second team, in which Union won by a score of 22 to 8. The second game was between the Plattsmouth and Union town teams, and our own town had the long end of a 24 to 8 score. The attendance was very good and the crowd enjoyed the contests to the limit. The Plattsmouth teams are composed of very nice and gentlemanly young men, and even though they lost the games they have the satisfaction of knowing Union people appreciate the kind of material that forms the make-up of the Plattsmouth teams, and they apparently enjoyed their visit to this village.

Plain Truth That's Worth Money.

Using Foley's Honey and Tar for a cough or cold may save you both sickness and money. F. F. Monahan, Menomonee, Wis., says: "I am exposed to all kinds of weather and I find Foley's Honey and Tar Compound always fixes me up in good shape when I catch cold or have a bad cough. I recommend it gladly." Refuse substitutes. For sale by all druggists.

The Journal advertisers are doing the business.

O. Sandin, D. V. M., graduate of the Kansas City Veterinary College, is permanently located in Plattsmouth, Neb. Calls answered day or night. Phone 233. Office 606 Main.

Horses for Sale.

25 head of horses and mares for sale. Mostly broke and ready to go to work. Prices and terms are right. Frank Vallery, Plattsmouth, Neb. Phone 393-J.

The Want Ads get results.

DROP in on us today and insist on seeing the new Spring models of Society Brand clothes.

Mark the smart style—the unapproachable cut, the superb tailoring. You might as well be absolutely correct as in doubt about this matter of style. It's worth taking a little trouble about.

In Society Brand Clothes you know the minute you see them, they're right! There isn't a question of compromise—not a shadow of indecision. True style permeates the very textures of the garments. That's why they're the most popular young men's clothes made. If you can get such clothes, surely it's worth while investigating today.
