Sunday morning about 11 o'clock, while driving to town, Noel and Charley Foreman had a runaway, the team running into a telephone pole, breaking it in two places, thus throwing the

The deceased was attending school in Alvo and was in school Thursday, remaining over night with his grandparents, Mr. and Mrs. Paul Johnson, sr., and became sick during the night. His father took him home Friday morning. His sickness proved to be a severe case of the mumps and after suffering greatly from 6 p. m. Saturday, passed away Sunday morning with convulsions. His death came as a great shock to the community. Funeral services were held at the Catholic church at Elmwood at 10 o'clock Wednesday morning, conducted by Rev. Edward Hagan. Burial at the Alvo cemetery. The pall-bearers were his school-mates, Orville, Elmer and Willie Ingwerson, Charles Foreman, Johnnie Parsell and Meger DeJarnett. The children of the Alvo school and teachers, Miss M. Carr and Mr. Orison Sharp, gave a pillow of beautiful flowers with the name, "Paul," in the center, and there were many other beautiful floral offerings. Little Paul will be greatly missed by all and the sorrowing parents have the deepest sympathy of their many friends.

### MEMBERS OF WOMAN'S RELIEF CORPS MEET WITH MRS. INEZ STENNER

The members of the Woman's Relief Corps held their social meeting at the home of Mrs. Inez Stenner Tuesday afternoon, and the members and friends in attendance had a lovely time. There was a large number present and plenty of amusement was derived from social conversation and stitching on beautiful fancy work. For the occasion the parlors and sitting room had been attractively decorated with lovely house plants. During the afternoon the ladies took a walk through the conservatory, which was greatly enjoyed. About 5 o'clock a delightful lunch was served by the hostess, she being assisted by her mother and Mrs. Cowles. After bidding the hostess good-bye and thanking her

for her kind hospitality, the guests dispersed, declaring the hostess an excellent entertainer.

### RETAINING WALL IS PLACED AT SOUTH END OF POSTOFFICE BUILDING

The lot around the government building on Fifth street is having a concrete retaining wall placed at the south end of the lot next to the alley that will aid in retaining the dirt from shifting from around the building. This will greatly strengthen the work that has been done around the building, and following this the work of finishing up the sodding of the government lot will be completed. When the sodding is finished up it will make the surroundings of the government building as nice as can possibly be found and worthy of the handsome structure that Uncle Sam has placed here for the benefit of the citizens of Plattsmouth.

THERE'S more to being well dressed than having style and fit. The quality is more than either, style and fit depend on quality, good fabrics good tailoring. Any clothes that fit and have good style look well when you buy them; "well dressed" means clothes that look well after a season's wear. Come in any day, we'll show you clothes that you'll be well dressed in.

### VALUATION EXPERT ON WITNESS STAND

York Phone Hearing Has Second Inning Before Rail Board.

Lincoln, April 9.—The York telephone hearing had its second inning before the state railway commission. Some time ago the Lincoln Telephone company made application to the commission for a raise in rates at the York plant and a hearing was had, in which objection was made to the valuation placed on the plant by the commission's engineers and a request made that an independent engineer be sent to York to make a valuation on the plant. The imported engineer, Mr. Stone, placed the reproduction value of the York plant at \$155,981 and the present value at \$99,231. The engineers of the commission found the reproduction value at \$164,148 and the present value to be \$119,559.50. Mr. Stone was on the stand and was questioned as to what an ideal plant, such as would be needed at York, would cost and the best service to be received for the least money. In his opinion such a plant would cost \$75,000 and the cost of maintenance should be 1 per cent.
