EASTER SUNDAY WELL OBSERVED IN PLATTSMOUTH

The Churches of the City Celebrate in a Most Supreme Manner the Easter Day.

With a cloudless sky and the atmosphere as balmy as a summer's day, Easter Sunday was one of the finest days so far this year in this city, and the citizens were out almost all day to take advantage of the day and to enjoy its beauty. The churches of the city all held special services in commemoration of the event that brought out a great crowd of the worshippers from the different churches.

At the Episcopal church the Rev. Charles C. Rollit of Duluth, Minnesota, had charge of the services and held a celebration of the Holy Communion at 8 o'clock, which was attended by a large number of the members of the parish, and was followed at 11 o'clock by a full choral celebration of the Holy Communion, and a most pleasing sermon by this eloquent and powerful speaker.

The usual impressive Easter services were held at the two Catholic churches by the Revs. Father M. A. Shine and John Vleck, who celebrated the beautiful mass of the church, being assisted by the choirs. At the St. John's church the choir, at the second mass, was assisted by W. R. Holly and E. H. Schulhof, on the violin and cornet, which added greatly to the beauty of the music of the mass.

The Methodist church, in addition to the usual very strong and pleasing sermon of the pastor at the morning worship hour on the great event they were celebrating, enjoyed some most pleasing music from the choir, and in the evening the hour of service was given over to the rendition of the "Seven Last Words of Christ" by the members of the choir and the Euterpean Glee club, and the members of the organization are certainly to be congratulated on the manner in which this masterpiece of music was handled, and those who had the pleasure of hearing the performance a year ago were much impressed with the improvement in the singers in the different parts of this sacred number, which is one of the most difficult and classic that has ever been undertaken by any of the musical organizations of the city. The choir was assisted last evening by Mr. Lucius Prior of Omaha, one of the most pleasing soloists in the state's metropolis, and his splendid work added greatly to the beauty of the number. The evening hour at the church was attended by a large number of worshippers that filled the church to its utmost seating capacity.

The services at the German St. Paul's church were in thorough keeping with the spirit of the day, the church being decorated very beautifully with flowers, and the choir rendered two very pleasing hymns of the Easter day, in addition to the bass solo of Mr. Adolph Wesh, which added greatly to the interest and impressiveness of the services. The congregation joined in the singing of two of the beautiful German Easter hymns during the service. The pastor, Rev. J. H. Steger, spoke from the text "Mein Osterglaube," and the sermon which was one of the best heard in the church for some time, was most thoroughly appreciated by the worshippers, who filled the church to its utmost capacity. At the morning service there were a very large number present to partake of the Lord's Supper, the confirmation class of the year making their first communion. The annual Easter collection at this church was \$143, which will be used to carry on the church work.

The morning and evening services at the First Presbyterian church yesterday were very largely attended. The Knights Templars attended the morning service in a body. Rev. H. G. McClusky delivered a splendid sermon on "The Realizing of the Resurrection," and he was given the closest attention by the large number present. The large choir, under the able direction of their leader, Miss Mathilde Vallery, rendered a beautiful an-

them, "Hosanna," by Jules Grainer, the solo part being very sweetly sung by Mrs. Glen Rawls, while Miss Vallery gave an excellent solo, "Open the Gates," by Crosby-Knapp, and Professor F. J. Kolbaba a beautiful violin solo at this service. In the evening the large auditorium of this church was again filled to listen to the Easter concert and cantata, "The Crucified," by George B. Nevin, rendered by the large chorus, and it was one of the most pleasing concerts which has been given at this church for some time. Each number on the program was rendered in a manner which showed much time, effort and practice on the part of both the members of the choir and their instructress, and was highly appreciated by the large audience. The choir was greatly assisted in making this evening's entertainment so edifying by Professor F. J. Kolbaba, who rendered a beautiful piece of music, "Reverie." Space and time will not permit us to mention each number separately, but taking the program as a whole it was a splendid concert and one of the best ever given in the city, and Miss Vallery deserves much credit. The pulpit had been very attractively decorated with Easter lilies, hydrangea, ferns, palms and the like.

THE RAINEY MAIL CATCHER ON EXHIBITION

Moving Pictures of the Rainey Mail Catcher Looks Good to All Who See It.

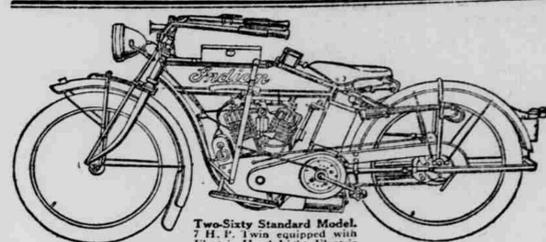

The moving pictures shown at the Gem theater on Saturday evening of the Rainey mail catcher were most interesting to the people of this city, not only because of the fact that the mail catcher is the invention of a former Plattsmouth young man, but also because this invention is one that bids fair to become one of the biggest things that has yet been placed on the market.

The pictures showed the test made of the mail catcher in receiving different number of sacks of mail ranging from one to four, and the ease with which the machine operates and the absolute accuracy that it has in both the delivery and receiving of the mail pouches makes its success undoubted. No matter at what high rate of speed the mail trains are traveling the automatic arrangement of the mail catcher makes it impossible for a failure to deliver the mail. As the train nears a town or mail station the mail clerk attaches the pouch to be delivered to the arm of the mail catcher, which extends from the side of the car and this is met in turn by the arm of the mail post that takes the pouch from the hanger on the coach and automatically delivers it to another pouch, thus saving a great deal of time and danger of the loss of mail.

The device has had several thorough tests at different points of the country, the one shown at the Gem having taken place near Omaha a short time ago. Quite a number of Plattsmouth people are interested in the stock company that is preparing to put this mail catcher on the market and they all feel very confident that it will be one of the biggest things yet placed before the railroads of the country. The success of the Rainey mail catcher is undoubtedly as it fills every requirement of a mail catcher and deliverer and will be the means of saving a great deal of time in the handling of the mail on the through trains.

YOUNG CHICKS
 die of bowel trouble more than any other cause. It is estimated that of every 1000 chicks hatched each year less than 400 reach marketable size. Germoxone saves more, usually 90% of chicks hatched. Germoxone keeps the bowels regular. It prevents diarrhoea from overdrinking of water; from eating musty or spoiled food, etc. It should be given in drinking water twice a week from the day they are hatched. It stops the loss. Every chick that dies early takes the profit from the rest. Every chick saved will pay the cost of a bottle of Germoxone.
 One also only, 25 cents, at dealer's or postpaid.
 For Sale by F. G. Fricke & Co.

Two-Sixty Standard Model. 7 H. P. Iwin equipped with Electric Head Light, Electric Tail Light, Electric Signal, Two Sets Storage Batteries and Corbin-Brown Rear-Drive Speedometer. Price \$260.00 F.O.B. Factory. See Catalog for detailed description.

The Electrically - Equipped INDIAN

Thirteen years of motorcycle manufacturing experience—of developing and perfecting noteworthy improvements in Indian models—are embodied in the new Indian machines for 1914.

The foresight and engineering skill which introduced such features as the twin motor, folding footboards and the famous cradle spring frame, have now presented to motorcycle riders a machine fitted with high class practical electric equipment.

Indian MOTORCYCLES FOR 1914

All standard Indian Models for 1914 are equipped with electric head light, electric tail light, electric signal, 2 sets storage batteries and rear-drive speedometer. Such a combination of motorcycle advancement with an equipment, the items of which are the products of manufacturers of highest integrity, has never before been offered to motorcycle purchasers. The electrically equipped Indian, with its many valuable comfort and mechanical features retained—with 38 betterments—is an achievement which for actual motorcycle value is unparalleled.

Ask us for the new Indian Catalog. It illustrates and describes fully Indian features and equipment which cannot fail to interest all prospective motorcycle purchasers.

IT DOESN'T PAY TO RESIST AN OFFICER IN MAKING AN ARREST

This morning in Justice M. Archer's court Ed Sheared, of near Weeping Water, was arraigned, charged with being drunk, assaulting Fred Spahnle, the constable, and resisting an officer. To all three of these counts the prisoner entered a plea of guilty and asked that the court be as easy as possible on him, as he desired a chance to do better. The story of the affair, as told by the prisoner and the sheriff, it seems that Ed had become well filled with intoxicating liquor and was quite loud and boisterous and the marshal warned him to keep still, and then attempted to arrest Ed, who resisted and tried to pull away from him, and on the attempt a man named Watson to assist the marshal, Sheared kicked him in the stomach, and he knocked Spahnle down and out, as he was being placed in the jail, and it was necessary to assist the marshal home. The father of the prisoner was present at the trial and asked that the court be as lenient as possible on the man, and the justice gave him a fine of \$10 on each of the three counts, which, with the costs, will run it close to \$42, and the father agreed to stand good for the amount.

Carl Crist and brother, Brody Crist, were passengers yesterday morning for Omaha, where they visited for the day with relatives in that city.

Harry Carle, who was one of the members of the Booster baseball team last season, arrived here yesterday from Twin Falls, Idaho, and will again be with the boys this season.

Accounts Must Be Settled.

There are still a great many accounts due the estate of August Gorder that we must insist upon being settled at once. This notice is final, and if same is not paid within a reasonable time, the accounts will be placed in other hands for collection.

Fred Gorder, Administrator.

"CLEAN-UP" DAYS NEXT FRIDAY AND SATURDAY

Mayor Sattler Proclaims Friday and Saturday as "Clean-Up" Days in This City.

The governor of the state of Nebraska, Hon. John H. Morehead, has proclaimed that on next Friday and Saturday, April 17 and 18, will be devoted in Nebraska to "clean-up" days, and he has called upon all the citizens of the state to see that all rubbish, dirt and trash around their homes and places of business is removed without delay. This is a movement that should have the hearty co-operation of every person in the state, as there is nothing that can add to a city or a farm or home more than to see it spick and span and without any rubbish scattered around to detract from the appearance of things, and to see the citizens or residents busy at cleaning up and making things look as if they were the property of wide-awake citizens. Another feature of the movement is the one that is destined to see that all dangerous fire traps are removed and no accumulation of paper or dirt is allowed to add to the danger of creating a big conflagration by having a match dropped in them. To further the interest in the movement Mayor Sattler has issued the following proclamation: To the Citizens of Plattsmouth: Friday and Saturday, April 17 and 18, having been proclaimed as "clean-up" days by Governor Morehead, I earnestly request all the citizens of Plattsmouth to see that they do their utmost to make the occasion a success by removing all dirt and rubbish from their property and cut down the danger from fires through this accumulation of trash. The business part of the city in particular should be thoroughly riden of all rubbish. JOHN P. SATTLER, Mayor.

Eggs for Hatching.

ARTIFICIAL ICE PLANT A SURE THING NOW

Ground Selected and Plant to Be Erected as Soon as Possible.

The long sought after artificial ice plant, which some of the leading business men and capitalists of the city have been working on for the past few months, has at last been made a sure thing and it is now only a question of a short time until the plant is gotten under way. Saturday afternoon the gentlemen having the project in charge met with the Burlington officials in regard to a location for the plant and were able to secure a most desirable location for the plant on the right-of-way of the railroad, just south of the Baylor coal sheds on Richey street, and here the new factory will be erected as soon as possible.

The promoters of the company expect to put up a brick building sufficiently large to accommodate the fifteen-ton plant that it is figured on putting in here. It is figured that as soon as the plant can be gotten under way in good shape that more space will be added to accommodate those who desire to use the building for a cold storage plant, as well as the artificial ice plant. Messrs. Carl Kunsman, C. W. Baylor and J. H. McMaken, said to be the promoters of the proposition, departed this morning for Omaha, where they will look over the securing of machinery for the new plant, and the plans for the erec-

tion of the building will be rushed at once in order that it may be gotten in operation as soon as possible. The supply of ice on hand secured by the different dealers will not near supply the demand made by the consumers, and it will be necessary to push the new plant to rapid completion in order to have it in shape to care for the task of supplying the different consumers of ice throughout the city. The new ice plant has long been needed here and each year has made that need more apparent to the business men and the enterprise of the gentlemen behind the movement is to be commended and they will find that they will have the united support of the citizens here in their new business enterprise.

Marshall, Dentist, Coates block.

J. H. M'MAKEN BUYS THE ICE BUSINESS OF H. C. M'MAKEN & SON

The ice business of the firm of H. C. McMaken & Son, in this city, has been purchased by J. H. McMaken, one of the firm, and he will in the future look after the interests of the patrons of the firm in the city. The fact that this gentleman has purchased the ice business will be the matter of a great deal of pleasure to the patrons, as he is a most obliging gentleman and will see that the best possible treatment is accorded his friends and patrons who trade with him. The firm has on hand a large quantity of the finest Missouri river ice, which will be used to supply the trade until the new artificial ice plant is placed in operation, and Mr. McMaken, who is one of the promoters of the plant, will then supply the trade from this source. Mr. McMaken is a live wire for the best interests of the city and has labored long and hard to give those who do business with him the best that it is possible to secure and has carried this idea into the ice business and during the coming season the patrons can rely on the fact that they are securing the best ice that it was possible to secure this winter off of the river. A few more days like the past two and the ice dealers will be in full blast filling orders from their customers.

MISS VIOLET DODGE SPENDS EASTER AT HOME

This morning Miss Violet Dodge and Miss Marie Geiger of Missouri Valley, Iowa, who were here over Easter visiting at the home of Mr. and Mrs. George Dodge, the parents of Miss Dodge, departed for the Iowa city. Miss Dodge, who is one of the most accomplished trimmers in this part of the state, has enjoyed a most successful season at Missouri Valley, and M. Fanger, in whose millinery department she is employed, has had a very large sale of the artistic creations of the ladies, and those here who have had the pleasure of seeing the work of Miss Dodge will appreciate the good fortune of the people of Missouri Valley in having this lady with them to look after their millinery trade.

John S. Hall departed this morning over the Burlington for his duties on the road, representing the Torrid Zone furnaces, and will make a trip into Wyoming before returning home.
