BANKING the BULWARK of BUSINESS

CONSIDER what business would be WITHOUT BANKS. No man should think of starting an enterprise before he arranged to OPEN AN ACCOUNT. HOW DOES HE STAND AT THE BANK? is a question asked at some time about every business man.

A good WORKABLE BANK BALANCE is essential to every successful business man.

They had enjoyed this visit very much with their daughter and family, and feel very much refreshed after their visit.

We felt sorry for "Scotty" Wednesday. He looked so downhearted since Powers and Foster have left him. With the amount of shipping done at the Murray station it is outrageous to ask any one man to do the work. The people of Murray propose to petition the superintendent to place at least one of them back again. And this should be done without further delay.

While attending the show of "Mutt and Jeff" at the Parmele theater Tuesday night, one of our well known citizens had the penants stolen from his car. The authorities of Plattsmouth must take some measure to protect the property of people from out of town if they expect patronage from this section. Why any dirty whelp should pilfer such things we are unable to fathom.

Talk about retrogression. The M. P. railroad has thrown her clutch in reverse and is going the other way. Both of our trick men, Powers and Foster, have been removed from service at the depot and our station stands in total darkness. Take a good lantern with you if you wish to stop a train on the M. P., as we are only a flag station now. If an interurban should touch this town, farewell to the old streak of rust.

BERT ROOT AND MISS AGNES KENNEDY MARRIED IN OMAHA

From Tuesday's Daily.

Among the marriage licenses appearing in the Omaha papers Tuesday is that of J. Albert Root and Miss W. Agnes Kennedy, both of Murray, who were married in that city Monday afternoon. The wedding of these two popular young people had been expected for some time and their friends have been awaiting the announcement of the approaching nuptials, but the young people evidently decided to take their friends by surprise, and hastening to the metropolis were wedded there. The bride is well known in Plattsmouth, having been a member of the teaching force of the school here, and is a young lady highly esteemed by a large circle of friends. The groom is a young man of sterling character, who is engaged in the carpenter business in Murray, where he has resided for years, and the newly weds will receive the best wishes of a large circle of friends on their decision to make life's journey together as man and wife.

Also bath room, toilet, closets, pantry, and all heated throughout with one of our latest approved heating plants. It is beautifully located, and when completed will be one of the nearest residence properties in Murray. Tom Isner, of Plattsmouth, is the contractor, and is assisted by J. E. Mason, also of Plattsmouth. They are both known as first-class workmen, and when Mrs. Young moves into her new home, it is with the full assurance that everything is right up-to-date.

Library Notes.

Within the last week the state has sent a collection of books for children, and if you neglect to have your children read them you will very likely let an opportunity pass that you may not have again, for a collection like this is only given every three years.

Mrs. Hungate of Weeping Water gave a very interesting talk to the Library association Tuesday afternoon. Her subject of our federation in connection with the state federation of women, which afternoon. Her subject was our future work. A motion was made to recommend that feature, and the matter will be placed before the association next Tuesday evening.

The regular meeting of the Library association will occur next Tuesday evening. Team Runs Away.

Miss Vera Yardley came very near meeting with a serious accident Thursday afternoon, when the team she was driving ran away. She was returning from a visit to her aunt, Mrs. Alex Rhoden, west of town, and in coming down the hill near town the neekyoke came down and the team became frightened and ran into town, when the tongue came down and by some means the horses were stopped, with but little damage to the buggy. Miss Vera showed considerable courage, and perhaps saved herself from injury by staying in the buggy.

Big Catch of Wolves.

William Patterson, living on the Rusterholtz place, north of Murray, went out Wednesday morning to set fire to an old straw stack, when he discovered in the straw seven young wolves, which he captured. The old one was nowhere near. Perhaps if she had been she would have put up a terrible fight in defense of her young. This was certainly a big haul for Mr. Patterson, and would have placed several dollars in his pocket if the bounty act on wolf scalps had not been repealed.

Falls Down Stairs.

Mrs. Frank Campbell had the misfortune to fall down stairs Sunday night, breaking her left arm and otherwise bruising the body. She was coming down the stairway, when she made a misstep and fell to the bottom of the steps, sixteen in number. It was a little dark when she started to descend. We are pleased to learn that, while the fall was very serious, she is getting along as nicely as could possibly be expected under the circumstances.

School Notes.

Friday morning, April 10, Rev. Hutchman of the United Presbyterian church conducted chapel.
