**COUNTY COMMISSIONERS GRANT SALOON LICENSE TO ANDY THOMSEN**

From Friday's Daily.  
The board of county commissioners, at their session yesterday, took up the consideration of the matter of the issuance of a license to operate a saloon at Cedar Creek to Andrew Thomsen, whose petition was signed by a large number of the most wealthy and influential farmers of Eight Mile Grove precinct. There had been a protest presented a few days ago with quite a number of signers to it, and the matter was thoroughly discussed by the board before taking action in the matter, and the fact that Mr. Thomsen has run the most orderly place they have had for years there, decided the board to grant the license. The protest was largely over the fact that there was no police protection afforded the residents of the village from any person who might get too much liquor. The board also heard a report from Dr. J. B. Hungate, the county physician, on the smallpox situation in the county, both at the Wilkins home near Murdock, and at the Cross home in Liberty precinct, and urged that all residents of the county who knew of cases of contagious diseases should report them at once to the board in order that prompt action might be taken, and to this end a resolution was adopted by the commissioners.

**LITTLE GIRL DIES FROM EFFECTS OF A DOG BITE SEVERAL WEEKS SINCE**

From Saturday's Daily.  
This afternoon at 4:30 Henrietta, the 6-year-old daughter of Mr. and Mrs. Mike Pries, died at her home on Wintersteen Hill as the result of the bite of a dog inflicted several weeks ago, and from which the little girl developed an attack of the rabies. The first symptoms of the disease was noticed Thursday and medical attendance was at once summoned, but despite all that could be done for her relief she steadily grew worse and this morning was seized with convulsions and died this afternoon, despite all that her family and medical aid could do. This case clearly points that all dogs that are suffering with any symptoms of the rabies should be killed without any question, and the authorities should be upheld in the matter of the discharge of their duties.

**BOARD OF EDUCATION SELECT TEACHERS TO FILL VACANCIES**

From Friday's Daily.  
The Plattsouth board of education last evening held a short session to take up the matter of filling the two vacancies in the teaching force of the city schools in the West Second ward and Mercerville school. The names of Miss Elizabeth Oliver and Miss Marie Svoboda were selected to fill the vacancies, and these young ladies were elected unanimously to the positions. Miss Oliver has taught in the schools of the county for the past five years and has been very successful in her work and will look after the Mercerville school for the coming year. Miss Svoboda is at present one of the county teachers in the vicinity of Cedar Creek, and is one of the best qualified teachers in that section and her selection for a position in the city school will be the source of much pleasure to her friends in this city. These two selections will fill the list of the teachers for the ensuing year, and the school board feels well satisfied with the prospects for the work in the school, and unless the teaching force is invaded by Dan Cupid during the year there is every reason to feel gratified over the outlook in the teachers.

In the letter Charles states that 190 men had already left for the seacoast to be assigned for service, and that another detachment was to leave tomorrow, while the squad in which he was stationed expected to be called out some time next week and sent to assist in manning the vessels that will be put in commission to assist in taming Huerta. He is very much pleased at the prospect of service at the front, but desires very much to see his sister before they leave Chicago, and Miss Reynolds will, if possible, go there to visit him before the boys leave for the seacoast.

**Makes Life Worth Living**

This is the car that made the greatest record of all in the past season. The thousands of Detroiters, in hardest service, averaged, from January, 1913, to January, 1914, just \$3.81 apiece for repair parts. No other car, of any type, or at any price, can touch this record.

**Detroit**

With its long stroke, thirty-two horse-power, ball bearing motor, Detroit climbs a 15 per cent grade at 28 miles per hour "on high." On second and first speeds it climbs anywhere its wheels can find traction.

**\$925** Completely Equipped

The Detroit has the greatest proportion of braking surface of any car made—one square inch per 9 5-10 pounds. The long stroke motor and the sensible gear ratio (4 to 1), make for slow depreciation; the rear axle cannot give way—its margin of safety is 2,000 pounds overload; the ball bearings, of finest grade, do not wear out and never need adjustment as do other types, neither can they bind when the car is distorted by rough roads or accident; and ruinous road shock has no terrors for the platform spring. Such a car lasts.

Because of its ball bearings, correct power ratio and light weight, the Detroit uses at least 22 per cent less fuel than is demanded by over-powered cars of its class: 20 to 25 miles per gallon is its everyday record.

It has the smooth gait of the platform spring. The added amount of comfort is 33 per cent.
