HARRY NEWMAN BE- COMES SOLE OWNER OF THE BOTTLING WORKS
From Friday's Daily.
Yesterday afternoon the deal was closed whereby Harry Newman becomes the sole owner of the Plattsmouth Bottling Works, buying out the interest of his partner, Henry Jess, who will retire from the firm and the business will be conducted by Mr. Newman in the future. The Plattsmouth bottling works has a well established reputation for the manufacture of the very best of soft drinks on the market and have always had a very large trade throughout the entire county and their customers have always found a ready sale for the output of the factory. The opening of the hot summer weather will create a great demand for the pop and other drinks manufactured by the bottling works, and Mr. Newman will exert himself to the utmost to see that the trade is satisfied. The experience that the new owner has had in the business is a guarantee that he will be able to deliver the goods in the lines handled by the company in the same able manner as has been the policy of the concern in the past. The works are located in the Boeck building on South Sixth street, which was purchased a short time ago by Messrs. Newman and Jess.

A FIERCE RUNAWAY CAUSED FROM THE PASSING OF A MOTORCYCLE
From Friday's Daily.
Yesterday afternoon shortly after 5 o'clock, as Frank Boukalek was driving down North Fourth street on his way to the Burlington shops to meet his father, the motorcycle ridden by Fred Dawson passed the horse and buggy and the animal, which is usually very docile, broke into a run, and when they reached the corner of Fourth and Main streets the horse was running at break-neck speed, although the driver was doing his utmost to hold it back, and he managed to hold the horse straight in the street, but as the buggy turned into Pearl street toward the old jail it was completely turned over and the driver hurled out onto the ground, while the animal, tearing himself loose from the buggy, started on down Pearl street, but was stopped by some of the men returning from the shops, and a number of them ran to the rescue of Frank, fighting the buggy and helping him up from the ground where he had been thrown. The driver was not injured greatly, except for a scratch on his face, although he was quite badly shaken up, and having only been out of the hospital a week or so, received quite a shock from the runaway. The buggy was not damaged to any extent and the only loss sustained was to the harness, which were torn in several places.

Don't Get In Debt ON A RENTED FARM
Get into the dairy business on your own farm. I can put you in touch with the owners of fine prairie lands of rich soil, from 300 to 400 miles west of Omaha, which can be bought on very easy terms at from \$15 to \$40 per acre. You are sure to make money by modern dairy practice, because the silo is the solution of the dairy problem and feed crops are heavy on these lands. If you haven't money at first to build a silo, dig one. Good farmers with proper equipment and feed can secure cows on time.
These owners make these special terms to dairy farmers, because they know that a good dairy farmer will make money by corn-dairy farming and will soon clean up his obligations. Then hogs and poultry fit right in and round out the profits. These 160-acre tracts are located among improved farms in established communities.
Give me your name; let me help you become the owner of a dairy farm, no matter whether you want to buy one on easy terms in Nebraska or Eastern Colorado, or whether you want to homestead a 320-acre tract in Wyoming.
