### Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

## FANGER'S DEPARTMENT STORE

V. ZUCKER, Manager. The Home of Guaranteed Values.

### JUST A TRY-OUT FOR THE FIRE COMPANY AND NOTHING MORE

From Friday's Daily. The residents on Main street were considerably alarmed yesterday afternoon shortly after 5 o'clock by the sounding of the fire alarm from the shop whistle, which gave Main street as the scene of the fire, and many ran to the hose cart building to learn where the fire was located, to find that the department was just indulging in a little fire practice in stringing and running hose. The carts were brought to Fifth and Main street and in a very few seconds the fire boys had the hose hooked up and water flowing through them. The Plattsmouth volunteer fire department has always proven to be on the job when needed, and they are never lacking in fighting the flames, and to this is due the fact that there are seldom any very destructive fires started here, although on several occasions there has been chances for some very serious conflagrations had it not been for the fast work of the fire boys.

### WIFE AND MONEY BOTH MYSTERIOUSLY DISAPPEAR

From Friday's Daily. Yesterday afternoon one of the ladies of the city residing in the west part of town, apparently grew weary of the monotony of her married life and decided to enjoy a short vacation from the usual routine of the home, and taking the savings of her hard-earned money, amounting, it is claimed, to some \$150, decided to get out and enjoy herself for a few minutes of freedom which she had been denied while at home. The chapters leading to this, which is apparently the decision of the woman to break loose from the shackles that has rendered her practically a slave, is such as to cause almost everyone to wonder why she had not taken the step before. The woman was first adapted into the family of her present husband and was quite young, being in her early teens. Later the wife of the man died and the present wife stepped into her place as caretaker of the household, and the conduct of the parties were such that finally the attention of the authorities was called to the condition of affairs, and as a compromise of the affair the man and woman were married, and since that time the life of the woman has been far from being a peaceful one, as the husband is, if all reports are true, inclined to the more animal passions, and he is also a great deal older than the wife, which also has the effect of making their life anything but pleasant.

### EPISCOPAL LADIES SERVE ICE CREAM AT SCHIAPPACASSE'S

The ladies of the organization greatly appreciate the kindness of Mr. Schiappacasse, who has made the practice of donating a certain amount of cream each year to the auxiliary in order that they can realize a neat sum for the church work and this year he was right on hand with his offering of the dainty ice cream.

### LIGHTNING'S QUEER TANTRAMS IN PLATTS-MOUTH LAST NIGHT

From Saturday's Daily. The storm that burst on the city last evening about 6 o'clock was most intense in its fierceness for a few minutes, and was accompanied by a very sharp display of lightning that had a decided scary effect upon the more timid, and resulted in a number of places being struck, although in most cases the damage was largely to trees and outbuildings. The residence of C. C. Westcott, at the corner of Main and Seventh streets, was one of the first places to receive a blow from the storm, as the first flash of lightning lodged in the roof of the house and tore a large section of the shingles off and burned out the electrical fixtures in the building. The family were gathered for the evening meal, and as the electric current passed through the house they were greatly frightened at the damage done and it was several minutes before they recovered from the shock.

The home of Col. M. A. Bates, a near neighbor of the Westcotts, also had a call from the lightning, which struck the front porch of the house and was carried by the light wires and these were put out of commission in short order, and the force passed into the electric meter, which was destroyed, but in both of these instances, fortunately, no very serious damage was done. There were many telephones placed out of commission throughout the city, and today the linemen were kept busy repairing them.
