

## DEATH OF LITTLE FRANK O'NEILL, OF BASSETT

Dies From the Effects of Blood Poison, and Was a Lad of Twelve Years.

The many friends of Mr. and Mrs. Frank O'Neill in this city will learn with the deepest regret of the death of their little son, Frankie, which occurred at their home near Bassett, Neb., on Saturday, June 28th. The death of the little lad occurred as the result of a case of blood poison contracted from a slight scratch on his knee, which became infected and despite all that could be done to save him he gradually grew worse as the poison spread through his system, and died Saturday. Dr. Jeffries of Bassett was at his side day and night and Dr. Lawson of Long Pine was also called in consultation on the case, which baffled all medical aid.

Frankie was born in Plattsmouth on February 5, 1903, and at the time of his death was 12 years, 4 months and 23 days of age. Besides the father and mother three sisters and three brothers, Raymond, Roy and David O'Neill of Bassett; Mrs. J. R. Hunter of Omaha, Mrs. Arthur Evans of Glenwood, Iowa, and Mrs. Fred Jeffries of Bassett are left to mourn his loss.

The funeral was held at the late home on Sunday, being conducted by Rev. Harvey of Long Pine, and the interment made in the South Park cemetery near Bassett. All the members of the family, with the exception of Mrs. Hunter, who left for her home the day before his death, were present at the funeral.

To the sorrowing family the deepest sympathy of the many old friends in this city, where the family resided for years, will be extended in their loss of their beloved son and brother.

## THE C. I. S. CLUB DEPARTS ON THEIR CAMPING TRIP

From Wednesday's Daily. This morning the girls composing the C. I. S. club and numbering some twenty of the fairest of Plattsmouth's young ladies, arrived at the Burlington station, accompanied by several loads of camp equipment, which was loaded on No. 15 for La Platte, where the young ladies will enjoy a camping trip until over the Fourth. The site for the camp will be among the ponds and lakes that abound in that neighborhood, and here the girls propose to put in several days most enjoyably, as they go prepared with all kinds of good things to eat and with the expectation of having one of the times of their lives. There were a large number of their friends at the station to see that they were started on their journey safely and to assist in the packing of the equipment. The club is composed of the girls attending the high school and they will doubtless have one of the best times that it is possible to have on a trip of this kind. A party of the girls visited La Platte last week and picked out the site for the camp and made all the preliminary arrangements.

Henry H. Tartsch and wife, who have been here for a few days visiting with relatives, departed this morning for their home at Sioux City, Iowa.

## Move Your Goods by Motor Van.

We can move your household goods by motor van from one town to another (within 100 miles) cheaper and quicker than the railroads can do it.

Do you intend moving? Let us quote you prices and tell you how quickly it can be done.

Write or phone.

Gordon Fireproof Warehouse & Van Co., 219 North 11th St. OMAHA, NEB.

## Funeral Held This Afternoon.

From Wednesday's Daily. The body of the late George Rummel arrived here this afternoon on No. 24 and was taken direct from the Burlington station to the Presbyterian church, where the funeral services were held. The body had been expected to arrive last evening, but owing to delays on the railroads getting into Omaha did not arrive from that city until this afternoon. The widow and children accompanied the body to this city.

## REV. D. L. DUNKLEBERGER GOES TO GRAND RAPIDS, MICHIGAN

Rev. D. L. Dunkleberger, who for the past two years has made his home in this city, has decided to remove to other fields, having accepted a call to fill the pulpit at the Fifth Avenue Christian church at Grand Rapids, Michigan. Rev. Dunkleberger, during the time he filled the pulpit in the Christian church in this city, was one of the ablest ministers officiating in the city, and his resignation here was received with the greatest regret by the members of his church as well as the public of the city, who had often been delighted with the splendid sermons of this able gentleman. It is with the deepest regret that the citizens of Plattsmouth will bid farewell to Rev. Dunkleberger and his family, but they will trust that in his new pastorate he may meet with the success that his ability should command. He will leave Friday to take up the work in the Michigan city. Mr. Dunkleberger is very familiar with the section of country which he is about to locate in, as for a number of years he was a student at college there.

## MURRAY SCHOOL DISTRICT ELECTS W. G. BOEDEKER DIRECTOR

From Wednesday's Daily. The voters of the Murray school district, which embraces the village of Murray, yesterday held their school election for the purpose of electing a member of the school board of the district, and as a result of the contest W. G. Boedeker was re-elected to the position that he has filled so acceptably for the past two years. This district has just issued bonds for the purpose of erecting a new school house and the voters certainly showed good judgment in re-electing Mr. Boedeker to the position he has filled so well, and as he has been untiring in his work for the success of the new school building his election is a great satisfaction to those interested in seeing that the new building is erected and placed in readiness for the fall term of school.

## MACHINERY AT THE ARTIFICIAL ICE PLANT UNDERGOES TEST

From Wednesday's Daily. The machinery at the ice plant will be given a thorough try-out this afternoon, and in a few days it is expected that the plant will be in shape to begin turning out the ice that will be used in this city in the future. The plant has been equipped with the best and most modern machinery and should be amply able to supply the needs of the city in the way of artificial ice. It will fill a need that has been felt here for a long time and the citizens in general should see that it is encouraged and boosted in every way possible. The cold storage department of the plant is a feature that will be found most acceptable to the merchants, who have in the past been compelled to send eggs and other perishable articles to Omaha because of the fact that they cannot be handled here, and the new company proposes to see that this difficulty is overcome in the future by the use of the cold storage department of the plant. Plattsmouth has been a long time securing a plant of this kind and now that it is here its benefits should be taken advantage of by the merchants and residents of the city.

## ANOTHER CASE OF RABIES DEVELOPED

In This Instance G. E. Dovey Loses a Fine Cow That Had to Be Killed.

Another case of the rabies developed in the city yesterday when the fine cow belonging to George E. Dovey showed unmistakable symptoms of the disease that compelled Veterinary Surgeon Sandin to shoot the animal. The first signs of the disease appeared on Saturday, when it was noticed that the animal was acting strangely and refused to eat or drink water when it was offered to her. The veterinary was summoned and after seeing the cow expressed his opinion that she was probably developing a case of the rabies and ordered her tied up in a small shed until the case could be more fully determined. The cow grew worse and constantly moaned and began to show all signs of the dread disease and yesterday it was decided to have the cow killed, and the animal was accordingly put out of her suffering.

Mr. Dovey, to be on the safe side, decided to have the barn in which the cow had been kept burned, as she had chewed up the wooden partitions and slobbered over the interior of the barn or shed in which she had been kept. The fire department detailed some ten or twelve men to look after the work of destroying the shed and last evening about 8 o'clock the structure was burned, together with the remains of the cow. This is the most effective way of disposing of the matter, as it does away with the chances of other animals being affected with the malady.

## GOOD BASE BALL GAME IN PROSPECT FOR THE FOURTH

The base ball fans will be given plenty of opportunity of getting their money's worth this week, as the management of the Red Sox has made arrangements to stage two ball games here the Fourth, one being in the morning at 10 o'clock and one in the afternoon at 3 o'clock. Both of these games of their game was disputed so extensively over the decision of the umpire that allowed Plattsmouth will be with the team representing the Dundee Woolen mills of Omaha, which team was here several weeks ago, and the result to win. The locals are in the best of shape and will be ready to be up and doing when the umpire says "play ball." It is thought that Mason will probably be used in the contest on the morning of the Fourth, while Pike will pitch in the afternoon, as well as on Sunday afternoon, when the Dundees will again be the opponents of the Red Sox. The Dundees are a good, fast team and these games should prove very interesting all the way through.

## BROTHER OF O. K. REED KILLED IN AUTO ACCIDENT YESTERDAY

From Wednesday's Daily. The sad news was received here this morning of the death, near Ogallah, Neb., of Bruce Reed, a brother of O. K. Reed, foreman of the bridge gang of the Monarch Engineering Co., that is engaged in the work of putting in the bridges in this county. The death occurred as the result of an automobile accident. The wind shield on the machine was broken and the glass struck young Reed, severing the jugular vein, and death resulted a few minutes later. Carl Simson, Tom Cooney, B. C. Young and Bruce Stafford were also injured in the accident, but not fatally. The full particulars of the accident were not learned in this city at the time of going to press. Mr. Reed leaves a widow and two small children.

WILBER W. ANNESS.

Wilber W. Anness, republican candidate for congress in the First district. He is the well known druggist of Dunbar, Otoe county, where he lives and is prominent in the public spirit of his town and county, being a member of the town council, chairman lecture course board, and served his county with credit in the 1911 session of the Nebraska legislature. He was first on roll-call to vote on all matters of the legislation, and the record shows he never once flinched, passed or changed his vote or failed to take a progressive and helpful legislation of that session, and voted first, last and all the time for the Initiative and Referendum, recall and presidential primary. He is against machine rule, the Secret Caucus System, and is especially outspoken in his stand for the common people, because he comes from their ranks, and is a real private citizen candidate. There are over 150 lawyers, some 28 bankers in congress now. Why not nominate and elect an ordinary common private citizen once? Mr. Anness has the ability to perform the duties of the office, is a public speaker of merit, 40 years old, married, six feet, two inches tall, weighs 250 and is big enough, both physically and intellectually for this high position. He says his campaign managers are the people themselves; he has no paid committees behind him; and he is working hard, personally, depending absolutely on the interests the people themselves take in his candidacy to land the nomination at the primaries, August 18.

Remember the name of WILBER W. ANNESS on Primary Day. Cut this out so you will have it for reference, and DO IT NOW.

Tell your neighbors and friends as you meet one another to vote for WILBER W. ANNESS, the people's candidate for congress in this district. The man that deserves to win.

## DISTRICT JUDGE J. T. BEGLEY HAS FILED FOR AN ELECTION

District Judge James T. Begley yesterday filed his name with the secretary of state as a candidate for the office of district judge for the Second judicial district, composed of Otoe, Cass and Sarpy counties. The judge was appointed to this office to fill the vacancy caused by the death of the late Judge Travis, and since his appointment has given the greatest of satisfaction to everyone in his fair and impartial rulings on the bench and his re-election to the office will probably be without opposition. Under the new election law the candidates for judicial offices appear on a separate ballot at the primary election without any party designation, and the voters of each party have an opportunity to register their votes for the candidates, regardless of politics. The ballot at the general election will also have the non-partisan judicial ballot to protect the judiciary from the influences of partisanship.

Laying a Nice New Walk.

The residence property of C. L. Martin, at the corner of Ninth and Pearl streets, is being improved by the placing of a fine new concrete walk along the Ninth street side of the property that fills a long-felt want, as the improvement has been badly needed for years and Mr. Martin proposes to put his residence property in first-class shape.

## JUDGE ARCHER BECOMES QUITE DIPLOMATIC IN HIS BUSINESS

This morning Judge M. Archer was called upon to settle a controversy that had arisen among some neighbors on South Third street over the fact that a hen and some small chickens belonging to one of the parties had been allowed to run at large, greatly to the discomfort of the other party in the case, so they claimed. The judge, who during his many years as arbitrator of the peace of the city, has had many cases of this kind brought before him, handled the matter with a diplomacy that it would be well for the A. B. C. mediators to follow out. The judge finally, on the statement of the defendants that they were to move in a short time, decided to pass the case over until after the date of the removal and then if they carry out their promise the case will be dismissed.

Picnic in Rummel's Grove. There will be a picnic for the Sunday schools of the Liberty and Mynard churches in Rummel's grove, one and one-half mile west of Mynard, July 4th, 1914. Plenty of refreshments and everybody cordially invited to come and enjoy the entire day.

To Visit California. Rev. A. A. Randall leaves on Monday for Long Beach, Cal., to visit his wife, daughter and son, who have been there for several weeks. Miss Randall has improved greatly in health since her stay on the coast. Mr. Randall expects to be gone from five to six weeks.—Nebraska City Press.

Evening Journal, 10c per week.

The Journal ads pay.

## CASS COUNTY CATTLE HEAVIEST ON MARKET FOR SOME TIME

G. M. Minford and A. Gansmer of Murray were on the market with cattle today, the former having two loads and the latter one load. Both men received the top price of the day for their cattle. Mr. Minford bought his on the market about six months ago and fed them in his feed lots at Murray. He fed them corn and alfalfa hay and some Tarkio Champion Molasses on the finish and believes this is fine stuff to feed. They were Wyoming branded cattle and weighed 941 pounds when he bought them, paying \$6.60. Today they averaged 1,461 pounds and sold at \$8.95. It can be seen they made a nice gain in both weight and price.

Mr. Gansmer fed his cattle about six months, feeding corn, clover hay and some alfalfa meal. At the time he bought them they weighed 1,497 pounds. Today they weighed 1,746 pounds, the heaviest cattle seen here for some time. They, too, sold for the top price of the day, \$8.95.

Both men say that everything is in fine condition in their vicinity. Farmers are about half through harvesting now.—Stock Yard's Journal.

## COUNTY TREASURER RECEIVES INTEREST MONEY FROM COUNTY BANKS

From Wednesday's Daily. The county treasurer's office yesterday was busily engaged in sending out receipts to the different banks in the county for the interest money that they have turned in to the county for the quarter of April, May and June, and which amounts to some \$600. The money belonging to the county is placed in the different banks that desire to pay the rate of interest asked and a bond given to the county that the banks will fulfill all the requirements of the law in caring for the county funds, and they are then given the sum asked for, on which the county secures interest. In days gone by the county funds were not productive of any money for the treasury, but under the plan adopted of placing it out where it will draw interest there has been quite a neat amount turned over to the county to add to its credit. Such business-like methods are rapidly displacing the old, careless methods that were in vogue in the public offices years ago.

## MRS. MILES MORGAN IN CRITICAL CONDITION FROM HEART TROUBLE

Yesterday afternoon Mrs. Miles Morgan, one of the pioneer ladies of the county, was taken very ill at her home on Pearl street and her condition is most serious. The attack seemed to be from her heart and was very unexpected. Her condition remained about the same during the afternoon and evening and there were grave doubts entertained as to the final outcome of her illness, but the relatives and friends are hopeful that she will rally from the attack and be able to remain with them. Mrs. Morgan has not been in the best of health for years and her condition makes it hard for her to sustain the attack of heart trouble.

## An Old Familiar Sight.

Yesterday there arrived in the city a scissor grinder with his grindstone and the old familiar bell that announced his coming to the busy housewives who might desire to have their scissors and cutlery sharpened. This is the first of these characters that have visited the city for a number of years, although several years back they were quite a common sight, but the advance of time is rapidly making them a thing of the past.

L. G. Larson, a business visitor in the metropolis today, going to that city on the early Burlington train.

## FACTS DISCOVERED BY TAKING ENUMERATION OF SCHOOL CHILDREN

The census-takers who have been engaged here in the work of taking the enumeration of the school children of the city are finishing up their work and find, as a result, that there has been quite an appreciable increase in the number of school children between the ages of 5 and 18 years in the city, which shows that the city is surely gaining in population. One fact discovered by the census-takers was that there was not a house that possibly could be lived in that was not occupied, and that the oldest and most tumbled-down places in the city have been occupied by families who were unable to find better homes in which to live; all of which shows the need of more residences being erected in the city to accommodate the increasing population, which is constantly being augmented by the arrival of strangers here seeking homes for themselves and families.

## YOUR APPEARANCE on July Fourth will be in harmony with the 'spirit' of the day, if you are dressed properly.

Get into one of our new hot weather Suits, finish it off with a silk shirt, soft collar to match, zephyr weight silk four-in-hand tie, new straw or silk hat, extra thin Interwoven sox, and under it all a B. V. D. Union Suit.

Result—you'll be comfortable, and you'll 'celebrate your independence' with genuine pleasure.

Our store will be open Friday evening, July 3d, CLOSED at NOON on July 4th.
