

REMODELING THEIR PLACE OF BUSINESS

Building Occupied by the Simons Company Will Be Greatly Improved Right Away.

The business section of the city is to be improved greatly by the remodeling of the building occupied by the Simons company on Main street. The work will start today and a thorough remodeling of the entire store room is planned by the firm, that will give them, when it is finished, one of the best store rooms in the city. A new front will be placed in the building that will be in keeping with the latest designs in store fronts that can be found in any of the larger cities. Huge plate glass windows will replace the old style ones that have for years been used in the building and the interior of the store will be lighted by a large section of prism glass that will be placed at the top part of the windows, over the inclosed section used for the display of goods. There will be an entry way extending back some six feet from the present front of the store building, and this entrance will be finished in a very handsome manner. The work on the front of the store will be done by the firm of Peters & Richards, the contractors, who will also have charge of remodeling and finishing of the interior of the building. New fixtures will be placed in the store building and the whole interior receive a redecoration and cleaning. The firm of John Bauer has the contract for the placing of a new steel ceiling in the store room of the latest pattern, and which will add materially to the beauty of the store. A general harmonious plan of decorations will be used that will make the interior of the remodeled store a thing of beauty and one that will be a credit to the enterprising firm owning the store. The present arrangements in the store room is such that the firm is unable to display as they would like the large stock of goods carried and they find that it is necessary to enlarge and modernize their place of business and display the proper spirit in taking the matter in hand as they have.

NABBED FOR ROBBING REGISTER OF 85 CENTS AT WEeping WATER

Last night the meat market of John Swindell, at Weeping Water, was entered and the cash register burglarized of the sum of 85 cents and the person making the entrance in the store was nabbed by Marshal Noel and lodged in jail there. It proved to be a young boy named Wagner, aged 11 years, who was the burglar. For some time someone has been in the habit of entering the store and taking money from the cash register and ringing up on the machine a large sum, and the proprietor has been at a loss to discover who the party doing this was, and notified Marshal Noel of the matter and that officer laid for the burglar, with the result that he nabbed young Wagner last night after he had made his entrance into the store through a window in the rear of the store building. The boy will be brought here this afternoon by Mr. Noel and will be arraigned in the court of Justice M. Archer. Owing to his youth the boy will probably only be given a sentence in the reformatory for the offense, where he can receive training that will fit him for usefulness and cure him of his habit of making entrance into places where he has no business.

For County Superintendent.

Miss Mary E. Foster is a candidate for re-election to the office of county superintendent of schools, and her record as such official is before the people of Cass county, and she would respectfully solicit the votes of everyone, who can consistently commend her for another term.

The Journal does job work.

Shows Progressive Spirit.

Our old friend, "Uncle" Henry Boeck, who is getting well along in years, finds that he is not able to climb stairs with all the speed of former years and he finds it extremely difficult to reach the office of his attorney, J. E. Douglass, in the Dovey block. To overcome partially the work of climbing the stairs, Mr. Boeck has constructed, at his own expense, a hand rail along the side of the stairs that will aid those who are compelled to use the stairway. Whenever Mr. Boeck thinks that something is needed in the way of improvements he always gets busy and sees that it is fixed.

SOME NECESSARY IMPROVEMENTS TO BE MADE AT THE BALL PARK

Another improvement has been made in the base ball park east of the Burlington station that will fill a long-felt want, and that is the securing of a water supply for use of the grounds. The base ball association has had a well sunk on the grounds and a pump installed that will give them plenty of water for use of the players and for sprinkling the grounds and ridding them of the nuisance of the dust that at times gets quite disagreeable to the spectators and players alike. The well has been placed at the north side of the grounds near the gate and is some eighteen feet deep, with a plentiful supply of water for all purposes. It is hoped that in the future it will be possible to erect a small club house there where the players can dress and secure a bath after the practices and games, and this feature would be highly appreciated by every member of the team, who are at present compelled to come up town or go to their homes before being able to change clothes.

LINCOLN TELEGRAPH AND TELEPHONE HAS OFFICE HANDSOMELY DECORATED

The interior of the office of the Lincoln Telegraph & Telephone Co., on North Sixth street, is presenting a very neat appearance in the past few days having just been thoroughly cleaned and repainted in a most artistic manner by Louie Thomas, the painter. The walls of the office room have been decorated in tan color, while the handsome steel ceiling has been touched up in light green, which makes a very happy combination and adds greatly to the light in the office room and the comfort of the manager and bookkeepers. The whole office has also been cleaned thoroughly and everything is as clean as a pin throughout the building. Mr. Thomas also decorated the front of the building in a very handsome manner. These improvements have added greatly to the appearance of the building, both on the exterior and on the interior, and makes a very pleasant office for the employees of the telephone company.

Returns Home From Hospital.

From Wednesday's Daily. Last evening Mrs. H. Simons was able to return home from Omaha, where she has been for the past few weeks recovering from the effects of an operation which she underwent at the Wise Memorial hospital. She is feeling greatly improved, though still very weak, and it is thought that a short rest at home will prove most beneficial to her. Miss Linsky, a trained nurse, accompanied her home to look after her care.

Compelled to Undergo Operation.

From Wednesday's Daily. The many friends of A. S. Will will be very sorry to learn that this genial gentleman was compelled yesterday to undergo a surgical operation in Omaha to cure him of an affliction from which he has been suffering for the past few years. The operation was quite successful and it is thought that the patient will recover in nice shape, as the attending physicians holds out the brightest of hopes as to the successful outcome of the operation.

THE FALLS CITY GOOD ROADS MEETING

Most Enthusiastic Gathering and Thorough Organization Effect for Good Roads.

One of the most enthusiastic, as well as largely attended good roads meetings that has been held in the state of Nebraska was held yesterday at Falls City, where an organization was perfected that will take up the task of securing improvement of the route between Omaha and Kansas City, and on which route Plattsmouth will be one of the principal cities. There was a great number of automobile loads of the boosters in attendance at the meeting from northeastern Kansas, Sarpy, Cass, Otoe, Nemaha and Richardson counties, in Nebraska, and all of the persons in attendance felt that the result of the gathering will certainly be felt in improved conditions along the great highway between the two principal cities of the middle west.

G. J. Hinshaw of Kansas City, secretary of the Missouri Good Roads association, was present at the meeting and outlined the object of the formation of the Highway association to make the Kansas City-Omaha Scenic Route a permanent thing. He told of the placing of markers along the old "Santa Fe trail" from Kansas City to Los Angeles, of markers that served as a guide to drivers on their journey over this route. The markers were of enamel iron mounted on concrete posts and the cost of installing them had been \$5,000, but the advantage secured for the tourists had more than repaid the cost of placing them in position.

The meeting decided in forming their organization to select a directory in each county through which the route passed, who will look after the care of the road and see that every means possible is taken to keep it in good shape for travel at all times. As was pointed out by the speakers, the government was becoming interested in the movement to promote the good roads and highways and it would be only a question of a short time until a concrete road was placed between Omaha and Kansas City to connect with the Lincoln highway. The movement for the extension of the concrete highways through the country points clearly to the fact that the government will sooner or later take up this matter.

The association, after a short session devoted to hearing the remarks of several good roads promoters, formed an organization by the election of the following gentlemen as officers:

President—C. B. Brenner, Atchison, Kansas.

Vice President—R. A. Duff, Nebraska City, Nebraska.

Secretary-Treasurer—Harry A. Sharpe, Atchison, Kansas.

Those who were in attendance at the meeting from this city were: Messrs. John Bauer, C. C. Wescott, T. H. Pollock, R. F. Patterson, M. Hild, J. H. McMaken, E. J. Richey, C. W. Baylor, Mr. Kidder of Omaha. The party greatly enjoyed the trip, although in spots the roads were quite dusty, but as a whole the roads were in very good shape, particularly from Nebraska City to Falls City.

W. E. Scott Dies.

In our last week's Pacific Junction news we mentioned the affliction and illness of Winnie Scott. Mention was also made of his going to a hospital in Council Bluffs. He was taken to Jennie Edmundson hospital and an operation was decided upon for the removal of an injured bone in the leg that had bothered him for the past fifteen years. The shock of the operation resulted in his death this (Monday) morning at the hospital. Mr. Scott was the owner of considerable property in Pacific Junction and has now in the course of construction in Pacific Junction, probably, the largest cement block building in the county. His parents are Mr. and Mrs. Lufe Scott who, last spring, moved to near Plattsmouth. Mr. Scott was a director in the Pacific Junction bank and was unmarried.—Glenwood Tribune.

Depart for Minnesota Lakes.

Yesterday a jolly party of young men departed for Loreta, Minnesota, where they will spend a ten days' vacation along the shores of Lake Independence and pass the time in fishing and resting up from their labors. Those comprising the party were: Paul Wohlfarth, Clifford Forbes, George Tartsch, George Weideman and H. F. Goos. Messrs. Weideman and Goos left last evening for Omaha, from where they go over the Northwestern to the lake, while the rest of the party departed yesterday morning over the Burlington and will go via Galesburg, Illinois, to the scene of the camp.

PLATTSMOUTH ARTIFICIAL ICE COMPANY SURPRISES PICNICKERS

The members of the congregation of the Lewiston church, near Murray, are feeling very grateful to the gentlemen who own the Plattsmouth Artificial Ice Co. for the very generous manner in which they acted with the members of the church on the occasion of the recent church picnic given at the home of Frank Moore on Sunday, July 11. The fact that there would be a picnic came to the ears of the promoters to give the picnickers a pleasant surprise. On the day of the picnic three of the gentlemen connected with the ice company drove to the scene of the picnic in an automobile and took with them several large chunks of fine clear ice manufactured here in Plattsmouth, but arriving there several hours before the picnic, and they unloaded the ice and returned to this city. The members of the picnic party were delighted when they arrived to find the ice and were informed by William Gilmore that it was a gift from the Plattsmouth gentlemen. The ice was used to furnish lemonade and ice water all day and there was plenty left when the picnic broke up.

Will Give Entertainment.

The ladies of St. Mary's Guild of the Episcopal church are preparing to give an entertainment at the Air Dome on next Wednesday evening, July 29th. The ladies will have full charge of the theater and an excellent program of moving pictures, as well as an entertainment of vaudeville will be given that is certain to please all who attend the performance. The members of the Guild are noted for the splendid character of their entertainments, and this one will prove no exception to the rule.

Depart on Short Visit.

This morning County Judge Allen J. Beeson, wife and children and Mr. Morgan Waybright departed in the automobile of the judge for Edison, Neb., where they will spend ten days or two weeks in visiting at the home of Louis Hanson and family near that place, and rest up on the ranch which Mr. Hanson has charge of there. In the absence of Judge Beeson, Miss Gertrude will continue to handle the marriage license department and provide the matrimonial inclined with all the necessary credentials.

To Spend Day Fishing.

This morning bright and early a jolly fishing party, composed of Major A. Hall and family, Ward Clark and wife, W. H. Newell and W. D. Jones, motored out to Cedar Creek in the automobile of Mr. Hall, to spend the day there endeavoring to land a few of the fish that are reported as being quite plentiful there this year. The party will spend the day there in fishing and having a genuine good time.

A Good Investment.

W. D. Magli, a well known merchant of Whitewater, Wis., bought a stock of Chamberlain's medicine so as to be able to supply them to his customers. After receiving them he was himself taken sick and says that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the cost of his entire stock of these medicines. For sale by all dealers.

MANLEY DEFEATS THE CEDAR CREEK TEAM SUNDAY

It Was a Pitchers' Game of the Very Rarest Type From Beginning to End.

Manley defeated Cedar Creek on the Manley diamond Sunday by a score of 4 to 1. The game, which was a pitchers' battle of the rarest type, was given to Manley in the first inning on a very poorly judged batted ball which landed ten feet foul on the left field foul line and resulted in the three scores which won the game and made an uphill drag for the visitors.

Conner for Cedar Creek simply showered himself with glory by his superb work on the mound, while his very able opponent, Mr. Miller, held the visitors at his mercy in all but two innings.

The first man to face Conner hit a tap to shortstop, who threw to first base and the ball was muffed; the next was issued a pass, the only one of the entire game, and at this stage of the fray the umpire's judgment of the foul was the whole game.

The locals were not backward expressing their opinion of this decision being a rank one whether intentional or not it cost Cedar Creek the game, as after this inning but three men saw first base and two singles were all the hard-hitting league leaders could get off Lefty Conner's delivery. There were but thirteen men saw first base in the whole game, which was by far the keenest pitchers' battle ever pulled off on the league circuit this season.

The same teams meet at Cedar Creek next Sunday and another good exhibition may be expected of these two leaders of Cass county's pitching staff.

Cedar Creek has been defeated more games because of unusual breaks of luck than any team on the circuit, and their inability to hit the ball, but now since the heaviest work has been done, every man on the team has made a resolution to adjust their batting eye and gain all the lost laurels by the close of the season. They have played in five extra inning games and have been defeated by one run in three others and the most runs that have been scored against them this season was 7, and this in but one game. They should have an excellent turnout on their home lot Sunday with the league leaders to do battle with. The score: R H E C. Creek...000100000-3 1 2 Manley...300001000-3 4 1

CONVINCING TESTIMONY

Given by Many Plattsmouth People.

Experiences told by Plattsmouth people— Those who have had weak kidneys— Who used Doan's Kidney Pills— Who found the remedy effective—

Such statements prove merit. You might doubt an utter stranger.

You must believe Plattsmouth people.

Here's Plattsmouth proof. Verify it.

Read, Investigate, Be convinced. You'll find why Plattsmouth folks believe in Doan's.

J. L. McKinney, Lincoln, Ave., Plattsmouth, says: "Doan's Kidney Pills are the best remedy I ever used for disordered kidneys. Whenever I have had occasion to take them they have given the best of results. Some years ago I endorsed Doan's Kidney Pills, and I now gladly confirm what I then said."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McKinney had. Foster-Milburn Co., Props., Buffalo, N. Y.

C. C. Wescott and wife were among the passengers this afternoon for Omaha, where they will visit for a few hours taking in the points of interest in that city.
