

SERIOUS AUTO ACCIDENT ON CHICAGO AVENUE

Auto Driven by D. T. Tyson of Near Alvo Runs Over John Swanson.

Quite a serious accident occurred on Chicago avenue last evening shortly after 6 o'clock, when the automobile driven by D. T. Tyson of near Alvo ran into John Swanson, on the crossing at Chicago avenue and Rock street. The automobile had been going at a slow rate of speed following another car into the city and just as the leading car passed over the crossing on Chicago avenue the car of Mr. Tyson swung east to go up Rock street, and on the crossing collided with Mr. Swanson who was on his way home from his work in the north part of the city. The man was noticed by the occupants of the car as they came up from the avenue, and at that time he was standing in the center of the crossing going south and the driver of the car swung the machine to the north of the crossing out of the road, in order to allow Swanson to continue on his way, but the man apparently became rattled, as he jumped backwards just as the machine was passing in the rear of him, and was knocked down, one of the front wheels passing over him and inflicting serious injury. The occupants of the machine at once got out and hastened to the side of the injured man, who was lying in the road, and it was feared at first that he was fatally injured. Swanson was at once gathered up and hurried in a car to the office of a surgeon where an examination was made of his injuries and it was found that he was suffering from several broken ribs as well as being greatly shocked by the accident. Every possible attention was given him and he was conveyed to his home in the south part of the city, where he was reported this morning as resting easily. Mrs. Tyson suffered a severe cut on the lip from striking it against the side of the car when it struck the man, and was also greatly shocked by the accident as was Mr. Tyson, who deeply regrets the unfortunate accident. He is a careful driver and made every possible allowance for the man to escape getting struck, so the eye witnesses state, but Swanson becoming suddenly frightened, evidently got confused and stepped back into the way of the advancing car.

MR. AND MRS. JOHN BRADY VISIT SCENES OF EARLY CHILDHOOD

John Brady and wife left early this morning on No. 10 for the east, where they go to visit at Manchester, Ohio, their old home, and to renew their childhood days among the once familiar scenes. It has been some forty-six years since our worthy friends have visited in Manchester and the visit there has been one they have anticipated with pleasure for the past few weeks. Both Mr. and Mrs. Brady were born a few miles from this place and here some of the happiest days of their lives were spent along the old Ohio river. Before leaving Mr. Brady left with us a few verses that reflects the pleasure they expect in the visit: Back to the scenes of our youth, To take healthy regrowth On the grassy banks of romping brooks That babbled us to sleep in childhood.

TRIAL OF THREE NEGROES CHARGED WITH STEALING FROM A BOX CAR

The three negroes who were alleged to have been implicated in the breaking into of a bunk car near Murdock on last Wednesday morning were brought up before Justice M. Archer yesterday to stand their preliminary hearing on the charge preferred against them. Two of the men, Ed Wilson and George Lewis, were able to get themselves out of the charge of taking a pair of shoes which had been in the bunk car, and the evidence against Launey Bellamy, the third of the trio, was largely circumstantial, as he was seen with a pair of shoes during the chase after him from South Bend toward Louisville, but these he claimed to have purchased from a white man near Murdock and to have lost them while running from the men who were after him. The shoes, so Bellamy claimed in his testimony, had been lost by him while crossing a cornfield near South Bend, and he did not know what had become of them, while other witnesses testified that a thorough search of the locality had failed to reveal them. The justice, after hearing the evidence in the case, decided to bind the man over to the district court at its coming term for trial, while Wilson and Lewis will be held as witnesses in the case. The bunk car where the shoes were alleged to have been taken from belonged to the C. R. I. & P. and was occupied by an Italian named Charles Munzolo, who was engaged in work for the company. There was quite a large crowd present to hear the case and a great deal of interest was manifested in it. The two witnesses will be forced to remain here until the case is disposed of in the district court.

IMPORTANT TO AUTO DRIVERS AND OTHERS

Traffic Police Appointed to Look After Violation of the Road Laws in City.

The drivers of automobiles, wagons and buggies through the city streets in the future should be more careful in observing the rules of the road in driving through the city, as the police committee of the city council are determined to see that some reform is made in the reckless manner in which the people drive on the streets, some of them paying absolutely no attention to the safety or rights of others in this respect. There are very clearly defined rules laid down in the state law regulating traffic that compels vehicles to keep to the right hand side of the road and by a strict observation of this rule a great deal of trouble can be avoided and lessen the chances of anyone getting injured by being run down by a car or other vehicles. In turning the corners the drivers of automobiles should exercise a great deal more care in following out the rules and regulations in this respect, as it has been frequently commented upon that there is but little heed paid to them by the drivers in tearing around the corners at a breakneck rate of speed, and it was for the purpose of keeping a better check on the regulation of traffic that the council has decided to place a traffic policeman on the streets for the next three Saturday, and those who have a habit of ignoring the well established rules of the road will be called down by the police and with further infractions of the law be arrested and fined.

This movement is no more than right and really should have been taken up long ago, as there has been a great deal of complaint from all quarters on this subject and by an effort on the part of all drivers of vehicles the condition of the streets of the city can be made much safer for the pedestrians who pass along them.

PLATTSMOUTH ATHLETICS VS. M'PAUL, IOWA, TEAM AT BALL PARK NEXT SUNDAY

On next Sunday the Plattsmouth Athletics will give an exhibition at the Red Sox park in this city having as their opponents the McPaul, Iowa team. The Iowa boys are a pretty fast organization, and while they were able to cop the game last Sunday at McPaul from the Athletics, the boys here are determined to win the game Sunday, and will bend every effort to do so. This is the first opportunity that has been given for this team to play ball here as the Red Sox use the park each Sunday, but they being absent on this occasion at Manley the Athletics will furnish the amusement for the base ball fans. There should be a large crowd out to encourage the boys in their playing and to win the contest from the Iowa lads. The game will be called at 2:30, promptly.

THE RED SOX WILL GO TO MANLEY NEXT SUNDAY TO PLAY BALL

The management of the Plattsmouth base ball team has finally closed an engagement for next Sunday with the Manley base ball team for a game in that place and will take on the Cass County leaguers. The question of securing a means of transportation to Manley was at first a very vexing one for the management of the base ball team, but arrangements have finally been made with the different garages of the city whereby the persons desiring to go out to the game may do so by paying \$1.50 for the round trip, which will make the rate 75 cents for one way. This is not excessive and the owners of cars feel that it is easily worth that much for the trouble and wear on the car, as Manley is some twenty miles away and it will be quite a trip. All who are contemplating going to the game would do well to see the local garages and close their arrangements now for securing transportation before Sunday in order that it will be possible for the managers of the garages to figure on the size of the crowd they will have to haul. The Manley team will strive hard to win the game and it will prove one of the most interesting contests of the season and the Red Sox are determined to make the leaguers take the losers' end of the game if they can. The Manley team, when in this city, were a very clever and gentlemanly appearing bunch of ball players and have promised to show the Plattsmouth visitors a royal welcome to that city when they visit there.

LATEST FROM THE WAR ZONE

Germans Capture Two Important French Cities and 3,000,000 Russians Marching on Berlin.

The late reports received from the seats of the war in Europe this afternoon point to a great and decisive gain for the German army, now advancing at a rapid rate into France, where the scene of the hardest fighting must now occur. The important cities of Lillie and Valenciennes, both of large population, have succumbed to the invaders. Lillie was abandoned by the French troops without resistance and on the arrival of the Germans there they found the town peacefully awaiting their arrival.

On the border the Germans have also made great inroads into the country, defeating the French in several engagements.

On the Prussian frontier the huge Russian army is pouring into Germany, carrying all before it by sheer force of numbers; 3,000,000 are now on German soil and dispatches state that 5,000,000 more reserves will be pushed into the campaign. The cry of the Russians, aroused to a frenzy of patriotism, is "On to Berlin," where many of the wealthy are making preparations to retire to Sweden and Denmark to escape the vast army of the czar.

MOVEMENTS ON BURLINGTON STOPPED TODAY ---TRIBUTE TO DEAD PRES'T

This afternoon at 2 o'clock there was for five minutes a suspension of all work over the entire Burlington system, when trainmen, shopmen, telegraph operators and every other employe of the road stopped for that period of time from their duties to pay honor to the memory of Darius Miller, the beloved president of the Burlington system, whose funeral services were held at 2 o'clock in Chicago. The valuable services of Mr. Miller will be greatly missed in the conduct of the affairs of the Burlington, as he was one of the foremost railroad men of the past few years and his administration of the affairs of the Burlington has placed that road among the best in the country.

EMMET C. HIGGINS, OF OMAHA, FEDERAL GAME INSPECTOR, VISITS CITY

The hunters of this vicinity will rejoice over the news that at last the long-standing ban over the hunting of ducks on the Missouri river is about to be lifted by the federal government, and once more the familiar sound of the duck hunter's gun will be heard on the streams where it has been silent for the past year. Mr. Emmet C. Higgins, of Omaha, district inspector of the United States federal migratory bird law, was in the city today and announced that on October first the new law recently passed by congress would go into effect.

One of the features of the new law that appeals to the residents of this section is that which extends the bounds of the open zone from near the Kansas state line to the upper Missouri river near Sioux City, and which will allow the shooting of ducks on the river here until December 16th. Heretofore the hunters from Nebraska City and south have been able to get into the hunting, while from a point a few miles south of that city north there has been a continuous closed season all year. The new law will cause a great increase in the number of hunters on the river.

ALBERT LENTZ MEETS WITH PAINFUL ACCIDENT ON BLOTZER FARM

Last evening Albert Lentz, who is employed on the farm of Frank Blotzer, near Cedar Creek, met with a very painful accident that will lay him up for some time. He was engaged in driving up some cattle when the horse on which he was riding shied and became frightened at some object and ran into a barbed wire fence, with the result that the young man received several very severe gashes on his left leg that required the services of a surgeon to close, and it will be some time before he is able to be around again with his usual activity.
