#### THE COUNTY COMMISSIONERS SELECT A NEW COUNTY ATTORNEY

From Wednesday's Daily.

The board of county commissioners this morning at their session made a selection of a county attorney to take the place made vacant by the resignation of C. H. Taylor and for the position selected A. G. Cole, of this city, the only applicant for the position, and who will be a candidate for the office at the general election in November. Mr. Cole will at once assume the duties of the office as soon as the necessary bonds are arranged and approved.

The board also yesterday received a petition signed by some 150 residents of Salt Creek and Elmwood precincts asking that the question of submitting the matter of electing a county assessor be placed on the ballot at the coming election. The petition was refused by the board, as it did not comply with the provisions of the revised statutes of the state of Nebraska.

#### THE ST. MARY'S GUILD ENTERTAINED AT HOME OF MRS. HENRY HERALD

From Wednesday's Daily.

The ladies of St. Mary's Guild were entertained yesterday afternoon at the home of Mrs. Henry Herald on North Fifth street in a most charming manner. The ladies spent some time in the discussion of plans for the year's work of the Guild and also in the making of dainty articles that will be offered at bazaar to be given by the Guild later in the season. Delicious refreshments was served at a suitable hour by the hostess assisted by Mrs. T. B. Bates which proved one of the most delightful features of the afternoon. The ladies at a late hour departed for their homes delighted with the splendid hospitality offered them at the Herald home. There were quite a large number of the ladies of the Guild in attendance at the gathering.

#### WHEAT, AT THE COUNTY FARM, MADE SIXTY BUSHELS TO THE ACRE

The county farm west of this city has turned out some splendid results this season under the management of Superintendent Tams and the crops secured there are such that will insure a fine showing at the end of the year. The wheat was threshed out Saturday on the farm and the average will be sixty bushels to the acre while the oats will show fifty-four bushels per acre, which is a showing and is secured by the careful attention and the application of the most scientific methods of farming. The live stock on the farm has also flourished in splendid shape as some \$700 worth of hogs were raised and 8500 of cattle and stock. There are now seventy head of hogs on the farm all of whom are in the best of condition, and will add to the profits of the farm. The stock placed on the farm has been the very best there being only thoroughbred stock used and the advantages of this method can easily be seen in the results secured by Mr. Tams. The business like methods used on the farm has placed it in fine shape and it stands among the very best in the state both in the equipment and in the management. The new building has been found perfect in every detail and it is really worth the time of anyone to visit the farm and see how it is conducted.

#### HEAVIEST RAIN OF THE SEASON FELL IN PLATTSMOUTH LAST NIGHT

This section was visited last evening by one of the heaviest and steady rainfalls of the year which fell to the depth of an inch and seventenths. The storm came up about 7 o'clock and was almost continuous until morning and for several inches of water. The storm crossings were covered with several inches of water. The storm was accompanied by considerable lightning. The reports from out in the state indicates that the storm was even heavier there than in this part of the state. At Grand Island the rainfall is reported at four inches which caused a raise in all the creeks and water courses in that part of the state. The rain has proven of much benefit to the pastures throughout Nebraska and had it come a few weeks earlier would have added much to the value of the corn crop.
