THE CITY DADS TRANSACT IMPORTANT BUSINESS

Quite a Number of Petitions Presented, and Resolved to Fix Building for a City Jail.

From Tuesday's Daily.
All of the members of the city council with the exception of Mr. Straight of the first ward were present last evening at the city hall, when the mayor called the city legislators to order to take up the consideration of the matters of importance and Straight coming in later was registered as present.
There were quite a number of petitions offered to the council covering proposed street improvements that were read by the clerk. Will Oliver presented a request asking that the city grade on the street adjoining his prop-

erty on lot 7, block 8, located on Granite street. This petition was granted by the council.
Another communication presented to the council was from Geo. A. Kaffenberger and C. E. Wescott, owners of property on Main street between Ninth and Tenth, asking that the city take some steps to remedy the condition existing there in regard to their sidewalk, as it is now several feet above the grade established at the time the walk was put in. The owners desired that the city purchase the old walk. The matter was finally settled by the passage of a resolution allowing the city to take up the walk and put it down to grade.
The library board through the secretary, Miss Barbara Gering presented a communication to the council containing a list of names recommended as members of the library board for a term of three years. The list consisted of Miss Leonard, Miss Barbara Gering and James M. Robertson. The list as recommended by the library board was confirmed without opposition by the council.
A petition was also received from Earl Barger and Mrs. Duxbury requesting that the city grade and place in permanent

Your Cost of Fuel Cut to the Minimum

Cole's Radiant Hard Coal Heater (with magazine) is a radical departure from the stye heating stove made for years.

Cole's Radiant Heater

is more economical than other hard coal stoves—it is a quicker heater—it holds fire longer—it will radiate a greater degree of heat for a greater length of time with one charge of coal.

It takes up less room in the home than a base burner, it gives the same base heat and the same illumination as the high priced base burners, it is more easily moved and set up.

The features which make this stove a great success are: First, the tight construction giving perfect control over the fire and making it possible to maintain a slow, economical combustion at cherry red heat day and night, with one charge of coal, thus giving great economy in fuel; second, the large sensitive radiating surface which radiates all the heat from the large slow burning body of fuel; third, the use of our new successful gas burning and anti-puffing draft which saves the wasting gases, prevents puffing and the escape of deadly gases into the home.

Prices—\$22 to \$33. Made in 3 Sizes. **G. P. EASTWOOD** Heats Evenly—Top, Bottom and Sides.

walk adjoining the property of the petitioners and the same to be taxed against the property. This was carried and the work ordered done.
J. E. McDaniel also was granted permission to place a walk adjoining the residence property he has purchased on North Third street, which was referred to the streets, alleys and bridge committee with power to act.
As the contracts of the lighting company with the city in regard to the lighting of the city streets expires next month the subject when brought up was one filled with the greatest of interest to the city and its representatives and after a short discussion of the matter on motion of Harris, the lighting committee was ordered to confer with the Nebraska Lighting company in regard to the rates before a new contract was entered into.
The police committee that has had under consideration for some time the matter of a place for the city to keep their prisoners, reported that as the county had moved into the new jail the city was without a suitable place to keep the prisoners and thought first the basement of the city hall should be fixed up as a city jail. The report was referred back to the police committee and they were empowered to go ahead and fix up the building at a cost not to exceed \$150 and in which the city prisoners can be confined in the future.

The committee that had under consideration the opening of the alley adjoining property on Granite and Third street reported back that they could not recommend the opening of the alley and in support of their report cited the opinion of the city attorney in regard to the matter. The heavy rains of the past week having greatly damaged a number of the streets by washing and undermining the dirt, the councilmen decided to have the big grader used on these streets to put them in first class shape before the cold weather starts in this fall.
Councilman Bajec pointed out to the members of the council that in making the fill in the new culvert at Locust and Fourteenth street the city could secure the dirt from the vicinity of the K. S. hall, a half block from the culvert, and if the city say that there could be a saving made here he thought it well that they take up the proposition. This was referred to the streets, alleys and bridges committee who will look it up and if found satisfactory, see that the work was done at once, as the street there has been closed for the past year.
The report of the police judge which was presented to the council was referred back to him in order that the statement as to the suspension of fines might be made more clear.
The finance committee of the council after thoroughly investigating the following claims against the city, recommended their payment and warrants were ordered drawn for their settlement: Peters & Richards, crossings and sidewalks, \$103.49; Sandy Andrews, street work, \$8.40; G. Tompkin, same, \$43.20; Fred Clugy, same, \$30; S. G. Stone, same, \$7.60; Geo. Ludlow, same, \$18.80; J. Swanson, same \$2; Albert Jones, same \$34; Alvin Jones, same, \$34; Charles McBride, same, \$25.40; William Gobelman, same, \$66.80; Mike Lutz, street commissioner, \$30; J. H. McMaken, cinders, \$2; Lincoln Telephone and Telegraph Co., \$2.50; M. Archer, salary, \$39; Frank Neumann, salary, \$65; Bruce & Standeven, plans and specifications curbing and guttering, district No. 7, \$18.00; Bruce & Standeven, estimate grading at Wintersteen Hill bridge, \$5.00; G. P. Eastwood, supplies, \$3.75; Nebraska Lighting Co., four loads of cinders, \$1; Ben Ramey, salary, \$75; Mural Parmele, street sprinkling, \$60; John Fitzpatrick, salary, \$20; Nebraska Lighting Co., street lighting and light at city hall, \$110.50; Edward Svoboda, work at cemetery, \$17.20; L. N. Cummings, hauling hose, 50 cents.

These are signs of kidney and bladder trouble. You'll have headaches too, backaches and be tired all over. Don't wait longer, but take Foley's Kidney Pills at once. Your miserable sick feeling will be gone. You will sleep well, eat well and grow strong and active again. Try them. Far sale by all druggists.

ANTI-SUFFRAGISTS AT COURT ROOM LAST NIGHT

Quite an Attendance of Both Ladies and Gentlemen Hear Mrs. Crumpacker and Miss Dorman.

The cause of the opponents of woman suffrage was presented last evening at the district court room in the court house by Mrs. J. W. Crumpacker and Miss Marjorie Dorman, of New York, in a clear and able manner by these ladies and all who attended, whether for or against the question, presented by these ladies, found much food for thought in the statements of the speakers. Hon. R. B. Windham acted as chairman of the meeting, and introduced the speakers of the evening in a very pleasing manner. Mrs. Crumpacker gave an outline of the work of the society that is opposing woman suffrage, and of which she is one of the organizers. She made a very glowing plea for the work of the mother's in the homes of the country as the bulwark that had made the nation strong and would continue to if the mothers were not forced out to mingle in the political life of the country, and spend their time campaigning and working at the polls. Mrs. Crumpacker closed her address with a plea for the continuance of the mother in the home, and its effect upon checking many of the evils of the modern life that has cursed the land.
Miss Dorman proved to be a most interesting speaker and covered the subject from the viewpoint of those that labor as her experience in the position of secretary of the wage worker's league has brought her in touch with the problems that many claim would be settled by the securing of the ballot, but the securing of the out weakness of the arguments advanced in this direction by the advocates of suffrage and strongly urged her auditors to oppose the movement. After the close of the meeting the two ladies were given a hearty reception by the audience who expressed their appreciation of the splendid speeches given by the ladies.

Keeps Your Liver Healthily Active

A man in Kentucky just told a friend that Foley's Cathartic Tablets were the most wonderful medicine that had ever entered his system. Said he would not be without them. Neither would you, if you had ever tried them. A thoroughly cleansing cathartic for chronic constipation or for an occasional purge. For sale by all druggists.

Birth of a New Daughter.

From Tuesday's Daily.
The news was received here yesterday afternoon from Omaha of the birth of a fine new daughter at the home of Mr. and Mrs. H. O. Ehlers in that city at an early hour Monday. The news was most pleasing to Mr. and Mrs. William Tney, the parents of Mrs. Ehlers, and the grandparents of the little girl, and as this is the first grandchild in the family it is certainly an object of the greatest admiration to the proud parents and other proud relatives.

Don't Be Bothered with Coughing

Stop it with Foley's Honey and Tar Compound. It spreads a soothing, healing coating as it glides down the throat, and tickling, hoarseness, and nervous hacking, are quickly healed. Children love it—tastes good and no opiates. A man in Texas walked 15 miles to a drug store to get a bottle. Best you can buy for croup and bronchial coughs. Try it. For sale by all druggists.

Beware of Ointments for Catarrh That Contain Mercury

Mercury will smother the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cramer & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Ohio. Sold by F. J. Cramer & Co., Terminal Building, Toledo, O.
Sold by Druggists. Price, 50c per bottle.
Take Hall's Family Pills for constipation.
