**LINEN SHOWER AT THE LIVINGSTON HOME FOR MISS ELLEN POLLOCK**

Saturday afternoon the handsome home of Mr. and Mrs. T. P. Livingston on North Sixth street was the scene of a most charming linen shower given by Mrs. Livingston and Miss Mathilde Valley in honor of Miss Ellen Pollock, whose wedding to Mr. Lynn O. Minor occurs Saturday. The home was decorated most artistically with roses in profusion that lent a touch of more than ordinary beauty to the happy event. In the living room the American Beauties were used most effectively in the decorative scheme, while in the dining room Mrs. Ward roses were the features of the decoration and used in the table appointments. The guests on their arrival were entertained in a contest in hemming dust cloths for the bride-to-be, and Mrs. H. G. McClusky was successfully the most artistic, while Miss Lillian Cole received the second prize for her most artistic, while Miss Lillian Cole received the second prize for her skill with the needle. A most tempting luncheon served at a suitable hour proved one of the most delightful features of the pleasant event, and the delicious repast was one that was highly enjoyed by the ladies present. Following the luncheon a handsome basket was placed on the dining table and the bride-to-be requested to open the different packages containing the gifts of her friends, which were numerous and beautiful in the extreme and embraced the most artistic needlework.

The guests present at the delightful event were: Misses Ellen Pollock, Madeline Minor, Lucille Cass, Ellen Windham, Kathryn Windham, Doris Patterson, Hermia Windham, Janette Patterson, Catherine Dovey, Emma Falter, Elizabeth Falter, Verena Cole, Claire Dovey, Lillian Cole, Hazel Dovey, Gretchen Donnelly, Dorothy Britt, Marie Donnelly, May Murphy, Gussie Robb, Mathilde Valley, Anna Heibel; Mesdames P. **ELLWOOD FENCE**  
SIMPLE—SCIENTIFIC—STRONG

**The Reasons:**  
1—Each horizontal extension of the ELLWOOD is a steel cable, consisting of two heavy wires intertwined.  
2—Each of these cables is tied to each other cable by a continuous heavy wire lapped tightly about every cable—not tied in a crooked "knot" or twist to weaken the strength of the tie wire at the bending point. (Wrap a wire around your finger and the wire is not weakened; tie a wire up in a hard knot and you cannot untie it without breaking, it is so much weakened.)

**THAT IS ALL THERE IS TO ELLWOOD FENCE—**  
Heavy steel cables lapped about and held together by steel wire, forming uniform meshes. Simple, isn't it? No chance for weakness in any part; uniformly strong. The reasons for the superiority of ELLWOOD FENCE are not hard to find. This company owns and operates its own iron mines and furnaces; its own wire mills and six large fence factories—either one of the six being larger than any other fence factory in the world. These facts should be convincing.

**ALL PLATTSMOUTH MERCHANTS ENJOYED A BIG TRADE LAST SATURDAY**

Saturday was one of the best days for some weeks in this city in the number of farmers and persons from out of the city who were here for the purpose of attending to their trading in preference to going to other points. The splendid stores maintained here carry stocks of goods that will compare favorably with any of the larger cities, and the treatment of the customers is universally courteous and pleasing and results in bringing back the persons who once visit these stores to make their purchases each time they visit the city. The improved conditions of the roads leading into the city also contributes greatly to the increasing volume of trade brought here from outside points, and as the program of improvement is carried out more and more increase can be looked for.

**A GOOD GERMAN IDEA WORTHY OF IMITATION IN AMERICA**

The Germans have the right idea about buying at home. Chambers of commerce throughout the empire have issued the following injunction to the people:  
"1. In all expenses keep in mind the interests of your compatriots.  
"2. Never forget that when you buy foreign articles your own country is poorer.  
"3. Your money should profit no one but Germans.  
"4. Never profane German factories by using foreign machinery.  
"5. Never allow foreign eatables to be served at your table.  
"6. Write on German paper with a German pen, and use German blotting paper.  
"7. German flour, German fruit and German beer—these alone give your body the true German energy.  
"8. If you do not like German malt coffee, drink coffee from the German colonies.  
"9. Use only German cloth for your dress and German hats for your head.  
"10. Let no foreign flattery distract you from these precepts, and be firmly convinced whatever others say. German products are the only products worthy of the German fatherland."

It would be, indeed, well if in this respect Americans should imitate the Germans. America could, should she be put to it, support herself. Few great nations could do so. The fix we are now in should teach us to prepare to produce everything we need. That will be done if the Americans will do their buying from American producers whenever that is possible.
