Have you noticed how warm that line of hip robes and winter coats look in at Wolf & Ault's? Look farther at the samples of corn and bring in yours. Traveling men are good advertisers of place and people, but they can't hustle out to see what "King Corn," etc., speaks for Cedar Creek.

Giants are made by the strong seed of necessity. The strong, vigorous, forceful, solvent men who have pushed civilization upward are the products of self-help. They are giants because they have been great masters of difficult situations.

I believe the business colleges are among the greatest blessings in American civilization today because through their teachings they have been the means of saving thousands of homes, and have made happy and comfortable tens of thousands of people who might otherwise be living in poverty and wretchedness. When one comes in touch with men like Singer, Watson, Robbins, of the Lincoln Business college, one is made to feel what a business education means.

We regret having missed hearing Rev. Mr. Schwartz Sunday morning and evening and inquiring what he had to say. I was told "He told us plain facts in a plain way; he spoke plain, though." At evening service, especially, was the crowd large. At that time the boys sang, and if you know the song that goes: "Oh, there's power, power, everlasting power in the blood," let us change it and say: "There's everlasting power in such boys." Perhaps some of the Juniors may be heard in the song soon.

The ladies of Union church and all who assisted in making the Thanksgiving dinner so much enjoyed by all participants deserve much credit. Long tables were arranged and I have it that one had to watch their chance to find table room and be served. Everybody enjoyed the dinner. It meant lots of planning, but anything worth doing takes an effort. And when the ladies had finished the work, by and with the advice, consent and help of their husbands and friends, they had reason to be thankful that they found in their possession quite a sum of money.
