### FAILS TO GET HIS WHEAT THRESHED LAST FALL; FOR- TUNATE IN NOT DOING SO

A farmer residing near Union was at the Missouri Pacific passenger station a few days since telling two farmer friends what a streak of ill luck (?) he had with his wheat crop last season; he could not get a threshing outfit to handle it, so he was forced to shock the same and had nine or ten big stacks when he got it all in shape. Then when they could come it was too wet and muddy and the threshers could not be taken into the field where the grain was. Then his wife was ill and he could not have them there while she was sick. He deferred threshing until Christmas time and then the weather became bad, so he still has the wheat in the stacks and they are covered with snow so there is nothing doing now. He told this with a sigh and said those nine or ten big stacks still stand in the field. The other two men heard his story, but they did not sympathize with him in the least, because one of them said: "I sold my wheat when I threshed it at 65 cents per bushel," and the other one said: "I did better because I sold my wheat at 48 cents per bushel and now wheat is \$1.40 per bushel." The reporter who heard the woe-filled complaint of the first farmer said nothing, but thought how often ill happenings bring luck and force good fortune on some men. Wheat today in those nine stacks is worth \$1.50 per bushel and still that farmer is not satisfied, because the grain is out in the stacks where it is safe and the market is soaring every day. Some men would not be contented if someone would pour his lap full of gold dollars.—Nebraska City News.

### Snow Knocks Out Corn Shelling.

From Wednesday's Daily.

Henry Thierolf, one of the enterprising young farmers from near Cedar Creek, was here Monday for a few hours looking after some general matters with the merchants, and while here stated that he was mightily put out with the snowy weather, which has laid up two of his corn shelling outfits and compelled him to abandon shelling any corn, as the shellers were at some of his neighbors and the deep snow would not allow him to move them.

### WHAT ABOUT THE COM- MERCIAL CLUB BANQUET

What is doing in regard to the holding of the annual banquet of the Plattsmouth Commercial club? is a question that is often asked by the residents of the city, who in the past have gathered at these festive occasions, which have always proven so successful in every way possible. There is nothing that draws together so many representatives from every walk of life as does this banquet, and the good that it accomplishes is without measure in that it brings into closer touch all of the varied interests that go to make up the life of the city and gives an opportunity to enjoy an evening of profit to everyone in the discussion of problems that will prove of the greatest of benefit to the city in the coming year. The speakers on these occasions are selected from among the best in the city and the neighboring cities and many talented gentlemen have very graciously contributed their efforts toward making the banquet a success.

The banquet should be arranged for as soon as possible and made as great a success as the ones in the past have been. There is a great need of a closer alignment of the business interests of the city for the good of the community and a bond of sympathy among the business men and citizens formed in order that they all may join this coming year in making a mighty boosting effort for a greater Plattsmouth in every way possible, and in all getting into the harness to make the old town a winner in anything that is taken up, whether it be public improvements, the securing of new industries or any other movement that may tend to help the growth and development of the city and prove of lasting benefit to the citizens. Now is the time to get busy on the banquet idea, as these long winter nights can be spent in no more pleasant way than when the representatives of every class and line of business and trade in the city gather together to get more thoroughly acquainted and all get the booster spirit that means so much in the development of the city.

### BILL INTRODUCTION IS OVER

Only Thirty Employees Are Attending to Work of House—Indication: Are Appropriations Will Be Reduced \$1,500,000 Compared With 1913.

Lincoln, Feb. 2.—Taxpayers can see much in the present legislature's activity to think about during the week.

For instance, only \$1,500 has been spent by the house of representatives so far, out of the \$12,000 provided in the legislative salary bill for employees of that branch of the lawmaking assembly. With twenty days of the session gone, being one-third of the sixty day period, the house has spent only 11 per cent of its fund for employees' wages.
