LETTER FROM A FORMER CASS COUNTY CITIZEN NOW IN CANADA

We are in receipt of a communication from John Schwartz, who formerly resided near Mynard, in this county, and who is now located near Meeting Creek, Alberta, Canada, in which he states:

"Everyone is enjoying good health and we have had a splendid winter here. It has only been 20 below once and hasn't snowed any since Christmas. So you know that is fine for Canada. I guess the Dutch and English have burnt so much powder they have warmed old Canada. Grain is good price—oats, 60c; wheat, \$1.27, and barley 65c. Hogs and cattle are fair price, but horses are not so good. Hope this finds everyone well in Plattsmouth. John Schwartz."

Will Meet With Omaha Indians.

A delegation of Redmen, of the tribe at this place, Missouri Tribe No. 63, will journey to Omaha, where they will meet with Fontanelle Tribe No. 78, and also mingle with the officers of the Great Council of the state of the Independent Order of Redmen, which are meeting there today. The delegation will consist of about twelve of the members of the tribe at this place, and among them will be J. C. York, the Great Junior, John Cory, William Gravitt, F. E. Hawkenberry, Emil Walters and T. J. Isner. To say these Indians will have a good time is superfluous, as all who know them are convinced of that without any words.

August Bach Down Town.

August Bach, who has been so seriously ill for the past three and one-half months, made another trip down to the Main street store today. This is the third trip that this excellent old gentleman has made down town since he was taken ill, over three months ago. He is still rather weak from the long sickness, but is gaining strength daily, and will soon be restored to his former health. This will be good news to his many friends in and around Plattsmouth.

Platte River Growing Bad.

The ice in the Platte river is beginning to give the bridge people some trouble at this point. Everything up to the present time is perfectly safe, and with the aid of several watchmen, breaking up the large cakes of ice that are coming down the river the bridges are all in good condition. At Louisville several piers of the wagon bridge have been damaged, but the bridge is still intact, and with hard work they expect to hold the structure in position.

Will Move to Kansas.

Mrs. William Seay and children arrived in this city today, where they will visit for about two weeks with the mother of Mrs. Seay, Mrs. Julia E. Thomas, while Mr. Seay goes with the car containing the goods, which they are shipping to southern Kansas, their future home. Mr. Seay has been farming in the northwest and has disposed of his interests there to go south, where he will continue in the same business, but he thinks in a climate which he will like better.

Farms for Sale. T. H. Pollock. Office in Telephone Building.

IN PLATTSMOUTH FORTY YEARS AGO.

J. V. Weckbach has gone east. On his return his counters and shelves will be filled with new and fresh goods.

Sam Barker bought four horses of Cal Parmele on Wednesday, for his big farm out west. Sam isn't afraid of grasshoppers evidently.

Connor says he has 49,000 bushels of corn in the ear, cribbed, between here and Ashland, and 29,000 bushels shelled corn ready to move when he can get a margin.

We understand that V. V. Leonard, Jno. W. Barnes and Capt. L. D. Bennett start for the Black Hills about the 20th. Numerous other parties are making preparations for the same trip.

G. W. Holdrege, assistant superintendent of the B. & M. R. R., left on Friday last for a visit "way down east." As Mr. H. has attended very closely to his duties for the last two years, this is a well earned trip, and we wish him a pleasant one.

Will Shryock, one of the employes of the Herald, was upset in a buggy last week, and injured his head severely. Mrs. Waybright, who was in the buggy, received serious hurts. Miss Louisa Shryock escaped very fortunately with scarcely a scratch. Both persons injured are doing as well as can be hoped for.

The flood broke up the Fair at Glenwood, water on the track was knee deep. The officers concluded to postpone the fair until the 12th, 13th and 14th of Oct. S. L. Thomas of our county took over eight head of thoroughbred cattle, and on postponing the Fair the officers called him in and paid his expenses. Mr. T. says they treated him first rate.

Julius Pepperberg had a late call the other night, about 3 a. m., from a man, who did not seem to be after cigars either, as he went directly to the bed on which the cigar man had been reposing. Julius having been disturbed presented his revolver and snapped it twice, but although it did not go off, the fear that it might, caused the tramp (if he was one), to make a bolt for safety. Julius followed and sent two balls after him as he disappeared down the street.

On the 11th inst., Miss Myrtle Parmele, eldest daughter of C. H. Parmele, Esq., was married to Samuel Atwood, late of the B. & M. R. R., now residing in Sheldon, Ill.

The wedding took place at the Presbyterian church at 2 p. m.; the ceremony was performed by Chaplain A. Wright, Rev. Mr. Baird, the rector, being absent. The service was very short and there were no bridesmaids nor ushers. The bride looked very charming in a myrtle-green cashmere suit trimmed with silver-gray fox fur, a hat with close-fitting brim of velvet, and crown of peacock's feathers and bronze green plumes, and gloves of a delicate flesh tint. We believe it is usual to describe in glowing terms the charms of the bride and treat the groom as a very unimportant part of the program, but we protest against this and declare that he was becomingly and suitably arrayed and behaved with all the dignity befitting so august an occasion.

At the close of the ceremony a few

of the relatives and friends repaired to the house to congratulate the happy couple and bid them good-bye, after which they left on the afternoon train for the east, expecting to make a short visit in Chicago and some other points, and then go to their home in Sheldon.

Having been for years past a resident of Plattsmouth, and a favorite among its young society, Miss Myrtle will be missed greatly. The many friends of the happy couple will unite, we are sure, with the Herald in wishing them a full share of happiness and prosperity through life.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
