The official statement of the condition of the Bank of Union will be seen in this issue, and makes a showing that reflects credit not only upon Cashier J. M. Patterson's management, but upon the town of Union and the people of the entire community who support it.

Union, for a town of its size, certainly has a fine school building, but one thing has always been missing—a school bell. Recently the school board purchased a large 40-inch bell which is now at the building. The bell itself weighs about 780 pounds, and when it is put upon the building, no doubt will be heard far and wide.

SEES END OF DOPE TRAFFIC

Officials Say New Federal Law Will Stop Illegal Sales.

Omaha, March 1.—A federal law, enacted last year, which went into effect today, will effectively stop the cocaine and opium traffic, it was declared at the office of the internal revenue department in the federal building.

So stringent is the new law that it practically prohibits the use in any manner whatever even by medical men. These may use drugs in small quantities, but only under closest government supervision. It practically covers every possible loophole through which drug fiends have been obtaining their coveted supplies for the last few years, and it duplicates nearly every strong point in the bill now being considered by the Nebraska legislature.
