This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails. Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely. Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee. A practical man is always ready for emergencies. Mr. Jos. M. Wokal belongs among them. When he got sick he did not lose his head. He says about it the following: "Triner's American Elixir of Bitter Wine has cured me. I was suffering from a stomach disease and decided to try that remedy. As soon as I started to use it I felt better. Many thanks for Triner's remedies. Jos. W. Wokal, Belfield, N. Dak." In diseases of the stomach and the bowels it is usually necessary first to clean out the body, in order to remove all waste matter. Triner's American Elixir of Bitter Wine is a very good laxative tonic which should be employed in constipation, nervousness, weakness and poor digestion. Price \$1.00. At drug stores. Jos. Triner, Manufacturer, 1333-1339 S. Ashland Ave., Chicago. Triner's Liniment will give new vigor to tired muscles. Very good in rheumatism and neuralgia. Price 25c and 50c, by mail 35c and 60c. Double Service AUTOMOBILE TIRES Guaranteed 7,000 Miles Service. ABSOLUTELY PUNCTUREPROOF. Double Service Tires are double the thickness of the best standard make tires. This 100 per cent greater wearing surface naturally gives that much more mileage and service. The average of 12 miles of tough fabric and one inch surface tread rubber makes these tires absolutely punctureproof. These tires excel all others for use in the country over rough and rugged roads, as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same. They are the most economical and "care free" tires made and are used where tires must be depended on and tire troubles cannot be tolerated. Many Double Service style tires are in use in the United States government and European War service. Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an Introductory Offer:

Charles Harrison, an employe of the B. & M. as carpenter, was seriously injured on the transfer boat, President; he was working in one of the engine rooms with his back to some machinery which struck him between the shoulders as the boat started; the injured man was brought up on the train and placed under the care of Dr. Livingston. We learn that the injuries sustained by Mr. Harrison are much more serious than was supposed at first. His back is broken, and only one chance in a hundred of his living. Dr. Livingston straightened and united the vertebrae and placed him in a plaste of paris form.
