A Dastardly Outrage.
There was only one act that occurred in Murray last Thursday evening at the Commercial Club gathering to mar the complete success of the occasion, and that was the purloining of a number of articles from the automobiles of some of the visitors. The auto of Mr. and Mrs. Otto Puls was left behind the store of Puls & Gansemer, and some one took therefrom an inner tube; a tool kit was taken from the car of Herman Beck, also one from the car of Nick Friedrich. There has been a great deal of suspicion on some Murray home talent in this matter, and there is going to be an effort made to locate the guilty parties. It is certainly a deplorable affair, and those guilty of the act should be apprehended, and placed within the hands of the law to be dealt with accordingly. A portion of the stolen property has been found near the town which goes to show that it was of no value to the parties that took it, and was simply done to injure someone that had use for the articles. This was a trick that was least expected by the members of the Commercial Club, and one that will long be remembered by them.
Mrs. Banker Receives Bad News.
Mrs. Banker, who has been making her home in Murray for the past winter, with her sister Mrs. Dull, received a message this week announcing the death of her nephew, Walter Hanna, which occurred at his home in Cleveland, Ohio. With this young man Mrs. Banker had made her home for a number of years, and she felt that it was her duty to attend the funeral if possible, even though she has been very ill for the past few months herself. She departed Tuesday morning from Murray to Plattsmouth, where she was to meet her brother, Mr. Rutherford, who would accompany her to Cleveland. Mrs. Banker has been gaining in health for the past few days, but the shock from the death of one whom she loved as she did her nephew, proved too much for her to battle with, and she has been compelled to remain at the home of her brother in Plattsmouth.

The Place to Buy Lumber.
There never was a season so favorable for building and making improvements around your farm home as this one has been, and the activity around the Murray lumber yard is an evidence of this fact. More of all grades of lumber is being sold this spring than for many seasons. The demand for good goods and the fact that it can always be found at this lumber yard at the right prices are the causes for the increased business. Mr. Kikendall is after the lumber business of this locality, not only from the fact that it is due him, but because he is ready and willing to meet all competition on the numerous grades of lumber.
Special School Meeting.
There will be a special meeting of the voters of this school district held in Murray in the very near future for the purpose of ascertaining whether or not the people want to add two more higher grades to the Murray Schools, the 11 and 12 grades. If this movement is lost by the voters saying no at this special election it will compel a number of pupils to go elsewhere for the higher grades next winter. It is your duty to take part in this election, no matter on which side of the proposition you may stand.

Weather Knocks Business.

The rainy weather that has visited the city today certainly is most depressing to the general business conditions, as there were very few who, unless they were absolutely forced to, came down to the business section of the city to do their shopping, and those who did soon retired to shelter from the chilly and wet weather.
