The Place to Buy Lumber.

There never was a season so favorable for building and making improvements around your farm home as this one has been, and the activity around the Murray lumber yard is an evidence of this fact. More of all grades of lumber is being sold this spring than for many seasons. The demand for good goods and the fact that it can always be found at this lumber yard at the right prices are the causes for the increased business. Mr. Kikendall is after the lumber business of this locality, not only from the fact that it is due him, but because he is ready and willing to meet all competition on the numerous grades of lumber.

DEATHS AND INJURIES TO TRESPASSERS ON RAILROADS INCREASING.

The Union Pacific has just issued figures showing that during the year 1914 there was an alarming increase in deaths and injuries resulting from trespassing upon their right-of-way.

During 1913, there were 37 deaths and 48 injuries; while in 1914 these figures have been raised to 48 killed and 99 injured.

A small proportion of these accidents occurred to the class known as "hoboes," the balance to careless users of the right-of-way. This proves that "the short cut along railroad tracks" is dangerous in the extreme, not only to school children but to working men who walk to work.

Any amount of caution exerted by railroad employees will not materially decrease the number of accidents occurring to trespassers, and it would seem that the only procedure that will shorten the list of fatalities is for the state legislatures to pass laws that will absolutely prohibit persons other than railroad employees from using the railroads' right-of-way.

The readers of this paper would be astounded upon hearing of a single accident resulting in the death of 48 persons and the injury of double that number, and the accident would immediately be investigated and, if possible, the cause removed.

While these accidents to trespassers are scattered through a number of states and occur at separated periods, the total result is just as appalling. The responsibility rests upon the general public and the State Legislatures and no effort should be spared in taking the necessary procedure to have this unnecessary loss of life and limb entirely wiped out.

GEO. M. PORTER, FORMER PLATTSMOUTH BOY, HONORED IN LINCOLN ELECTION

The mystery of the election of George M. Porter as trustee of Wyuka cemetery has been inquired into by a number of people in the last week, and has been only partially solved. Mr. Porter was not a candidate, and did not know that his name was on the ballot until about three days before the election. Moreover, Mr. Wiggins, the member of the board whose term was expiring, has a good record and everybody supposed that he would be re-elected as a matter of course. A few friends of Mr. Porter wrote his name on their ballots at the primary, and this gave him a place on the regular election ballot. The only possible explanation for his success is that during many years of service as circulation man for the Omaha Bee in Lincoln and surrounding territory he made a good many friends who quietly did enough boosting for him to put him over. Some of the friends of Mr. Porter who voted for Mr. Porter thinking that it was only a complimentary vote were sghast when they saw what they had done, for although they know he will make a good member of the board they did not think of throwing out so good a man as Mr. Wiggins. Mr. Porter is a young man who has a high reputation for personal integrity and general business competency.—Lincoln Journal.

WE NEED MORE RESIDENCES IN PLATTSMOUTH

Great Demand for Up-to-Date Residence Property, and People Come and Go Because it Cannot Be Had.

In the many things that are needed in the development of the city and one that is constantly becoming more and more pronounced, is the need of more dwelling houses in this city that can be had for rental purposes. This fact of the scarcity of suitable houses has been impressed upon our people more and more as strangers coming in here are placed right up against it in finding a place to live, and it would seem that some of the capitalists of the city could find a good investment for their money in the erection of cottages or a large flat where suitable modern apartments could be rented at a good figure. There is always a demand far greater than the supply for residences.

If the city is to develop and increase in population it is certain that there has got to be some place in which the newcomers can reside, and a great many of these desire to rent property, while a few at once erect homes of their own, and it is to provide residences for the renters that the demand is constantly growing.

There has been quite a number of new houses erected here in the past year, but these have in most cases been rented even before the property was finished, and the places could easily be rented twice over, so great has been the demand for the modern residence property. The real estate agents, as well as the business men of the city, have been besieged with inquiries for houses for the past year or two that has opened their eyes to this one great need of the city, and several of them have responded to the general demand by erecting one or two residences, and in each case the investment has proven most profitable. The rentals in this city have increased greatly in value over that of years gone by, and where formerly \$6, \$8 or \$10 was the price generally paid for an ordinary sized house it is easy now to command \$15, \$20 and \$25 for them, and in a great many cases these residences are far from being considered modern. This would seem to indicate that the erecting of houses for rental would be a good investment and those who have tried the experiment report that they are well repaid for their outlay.

Many of the buildings in the business part of the city have had the second floors remodeled into flats or apartments and these are always occupied at a good figure. This is one of the chief needs of the hour and one that demands serious consideration.

Plants for Sale.

I now have a good supply of all kind of plants for sale, such as tomato, sweet potato and cabbage. Place your orders now, and have them at the time of planting.
