The Children's day service was well attended. We enjoyed watching and hearing the children and recognizing our debt to those who contribute toward the success of the occasion. FORMER CASS COUNTY BOY ORDAINED MINISTER

Young Man Resided Several Years Near Murray, Where the Family Have Many Friends.

From Tuesday's Daily.

An item of more than passing interest to Cass county residents is taken from the New Bloomfield, Missouri News of June 4th, in which an account is given of the ordination service of Rev. E. F. McConaha, who was for several years a resident of the vicinity of Murray and a young man well known to many in that locality, who will be pleased to learn of his success in his chosen following of the ministry of the Baptist church:

Rev. E. F. McConaha, son of Dr. and Mrs. John McConaha, of this place, was ordained as a minister of the Baptist church in a special service at Hopewell, Sunday. The ceremony was a most impressive one and was conducted by a council, consisting of Revs. C. A. Mitchell of Mexico, as chairman; E. J. Sanderson of Fulton, G. W. Hatcher of Columbia, Charles Bullard of Ashland, W. M. Tipton of Fulton and the deacons of Providence, Mt. Zion, Union Hill, Dry Fork and Hopewell Baptist churches. The examination of Rev. McConaha took place at the morning service and was conducted by Rev. E. J. Sanderson, who propounded the customary questions to the candidate and the ordination sermon was preached by Rev. G. W. Hatcher in the afternoon. A basket dinner was served at noon, which consisted of all the good things for which the good housekeepers of this place are noted, and the amount of dinner which was carried back home was ample evidence that it was as abundant as it was well prepared.

Rev. McConaha is a graduate of William Jewell college of Liberty. He was licensed to preach about two years ago and this year has a regular charge at Grant City, Worth county. He is one of New Bloomfield's splendid young men and is ideally fitted for the religious calling he has undertaken. The large attendance at his ordination Sunday attested to his popularity among his home folks.

The Place to Buy Lumber.

There never was a season so favorable for building and making improvements around your farm home as this one has been, and the activity around the Murray lumber yard is an evidence of this fact. More of all grades of lumber is being sold this spring than for many seasons. The demand for good goods and the fact that it can always be found at this lumber yard at the right prices are the causes for the increased business. Mr. Kikendall is after the lumber business of this locality, not only from the fact that it is due him, but because he is ready and willing to meet all competition on the numerous grades of lumber.

Another Change of Firm.

There has been another change in the mercantile business in Murray the past week. The change strikes the hardware business once more, and George Nickles disposes of the Baker & Nickles stock to Messrs. Barrows, Puls & Gansmer, and will be known in the future as the Murray Hardware Company, which is composed of Ted Barrows, W. H. Puls and Alfred Gansmer. This will sure make a strong business combination, as they are all young men with excellent business ability, and have resided in this locality for a great many years, and have hosts of friends who'll be more than glad to give them their business for they know they will be treated right. The new firm will handle a general line of hardware and implements just as the old firm done in the past. Success to the new firm is the wish of the Journal.

FOR SALE.

I wish to dispose of my blacksmith shop, both the building and all tools. This is one of best openings in Cass county for a good man. If you are interested in a good business let me hear from you at once.

THE ALAMO

Electric Farm

Light
Plant!

Here's light for your home, farm buildings and yard. Here's power for your electric carpet sweeper, sewing machine, churn and fan; heat for your electric iron and toaster.

PRICE IS LOW!

You'll be surprised when we tell you how low is the price of the complete plant. If you have your own engine it is even less.

The cost of operation is moderate. The plant is easily installed. Ready for operation when taken out of the crate. The Alamo is the ideal farm light plant—simplest, safest and best—takes up but little space.

Since the perfection of the tungsten lamp, which requires only one-third the electricity to produce the same light as the old carbon lamp, large storage batteries are not necessary. Thereby the cost of a light plant is so reduced that it is within the means of the average farmer.

The ideal plant for the farm is the Alamo Electric Farm Light Plant. We were the first to introduce the small light plant into the country homes, and our present improved product is the result of eight years of successful manufacture. The plant is the simplest, safest and best, and it takes up but little space. Every farmer should have one, not only to light his building, but to furnish power for his wife's churning, sewing, etc.

The price of the standard plant is \$253.00, so you see it is an attractive proposition for the farmer. If you do not already have an engine of 2 H. P. or more, we can furnish it for you for \$40.00 additional.
