OIL IN CASS COUNTY IS PRETTY NEARLY SURE THING NOW

The investigation made in this county yesterday by C. H. Baker of Des Moines, Iowa, in regard to the possibilities of oil being found here seem to have given him a great deal of encouragement and a still further research will be made in the hopes of locating a "gusher" among the hills on the west and south of this city which might develop into a paying flow of oil. Mr. Baker was out with County Attorney Cole yesterday afternoon and visited in the vicinity of Mynard, going west from there several miles and coming in through the vicinity of Murray, and was well pleased with the appearance of the country, which greatly resembles that of the oil fields of the east. Today he is investigating the hills south of this city and securing specimens of the soil that might give a hint as to the possibilities of there being an oil field lying beneath the surface of the gently rolling hills of this section of Cass county. That there may be found an oil field here is to be hoped, as if it materializes it means a mighty big thing and would bring even greater wealth to the lands of the country. Mr. Baker is an expert in the line of locating an oil field and the fact that he is devoting so much time to the work indicates that he intends to thoroughly cover the field.

TWO STRANGERS GET INTO TROUBLE AND ONE GETS INTO JAIL

Two strangers, who claimed they hailed from Nebraska's metropolis, were the chief actors in a rather noisy disturbance this noon at the corner of Main and Fifth streets, or to be more exact, one of them was, as he was determined to do up his companion, although he was much smaller than his intended victim. The young man furnishing the main show was quite noisy and his verbal warfare was carried so far that Chief Barclay, who was eating dinner at home a block away heard the disturbance, and coming down town locked the warrior up in the village jail to rest until he could be given the "once over" by Judge Archer. His companion, who had no part in the fight only to defend himself, has promised to send down enough to pay the fine of the warrior, and until that comes he will languish in jail.

One of the Mexicans from Pacific Junction was over this morning and partook too freely of the flowing bowl and soon was in a state of intoxication that necessitated his being given quarters in the city jail until the 1:12 train this afternoon, when he hastened to his home across the river.
