NAMING FARM HOMES IS VERY POPULAR IDEA

Many Farmers Are Registering Their Farm Names, Which Proves Advantageous to All.

From Tuesday's Daily. There has always been a great wonderment why more of the rural residents had not availed themselves of the law that allows them to have a registered name given to their farm that will allow an individuality not otherwise to be secured.

Close students of farm problems suggest that a name is of great importance when it comes to advertising and selling the products of a rural establishment.

There are a few farms in Nebraska that bear distinctive names, and from them they have acquired a fame that would weigh in the scales when the per acre value is fixed.

And the man with a farm which is known afar by its name is more apt to bend his energies toward making that name mean something of profit and advantage to him than if he has simply "the northeast quarter of the southwest quarter."

Distinctive names for farm homes would fix the location of every owner in his community, would aid in the expedition of the mails, would inspire an additional pride in the owner and his family and would add greatly from year to year to the market prices of its products.

The guests were only the immediate relatives of the two young people and the occasion was simple yet impressive, as the bridal couple took their station before the minister, W. O. Jones of Omaha, and repeated the marriage vows that were to make their lives as one hereafter.

Following the wedding ceremony the happy couple were showered with the best wishes of their relatives and a very dainty and delicious two-course luncheon served prior to the departure of the bride and groom for Plattsmouth, from where they departed this afternoon at 1:58 for Lake Clitheral, Minnesota, where they will enjoy a honeymoon of some three weeks, and then return to Peru, where they will be at home after September 20th to their friends in the cozy home that has been prepared for their coming.

The bride is one of the charming and popular instructors at the Peru State Normal school and for the past three years has had charge of the domestic science department of the school, and is held in the highest esteem by all who have the pleasure of her acquaintance.

NON-SUPPORT AND DESERTION THE CAUSE OF DIVORCE

At the session of the district court yesterday afternoon the case of Lillie Henderson vs. George Henderson, a suit for divorce, was called for trial, and the evidence of plaintiff and witnesses was given. The charge preferred was desertion and non-support. The parties were married here three years ago, while the defendant was stationed with the Fourth infantry at Fort Crook, and later he left with the army for the Mexican frontier with a promise to return as soon as his time was out, but instead re-enlisted and informed his wife he was not coming back home.

In the matter of the estate of Henry Stull, deceased, the court affirmed the decree of the county court, with the exception of raising the allowance of C. Lawrence Stull to \$250.

A SENSATION IN THE LION THAT LOOPS THE LOOP

Sensation Act Carried and Featured by Yankee Robinson Circus—Here Next Monday.

Beyond any question the greatest animal feat ever accomplished was when Vincent Deguerra, the animal king, broke the lion "prince" to loop-the-loop. It must be remembered that Deguerra and his famous fighting lions, which are the feature of the Hoffenback trained animal group, were brought to this country this year on account of the European war, bookings for all German acts having been canceled in that country.

The Yankee Robinson Shows were particularly fortunate in securing this world-wide famous feature and when you witness the circus performance you will always remember the most sensational act you have ever even imagined. The famous loop-the-loop takes place at the conclusion of the fighting lion act. Remember the date—Monday, August 9.

DINING CAR SERVICE IN DAY COACHES AND CHAIR CARS

From Wednesday's Daily. The Missouri Pacific is the first railroad in the west to install a branch of the dining car service in the day coaches and chair cars. The Pennsylvania railroad started the custom in the east. On all Missouri Pacific trains that carry a diner a uniformed waiter goes through the coaches with a silver service daintly arranged with sandwiches, pie and coffee. The luncheon is offered at nominal prices. It is an indication on the part of the management of the railroad to look after the greater number of persons who ride on their trains. Their custom for years has been to cater to the comparatively few who ride in the Pullmans. Those passengers have a porter to each car and lots of attention, while the crowds in the coaches are left to shift for themselves.—Nebraska City News.

JUDGE NEWELL RETURNS FROM TRIP TO QUARRIES

From Tuesday's Daily. Judge W. H. Newell came in this afternoon from his stone quarries at Amazonia, Missouri, and reports that that section yesterday received a heavy rain and that farming conditions are in very bad shape, due to the extreme wet weather. For miles along the fertile valley of the Nishna in Iowa there are hundreds of acres of fertile farming lands under water as the result of the breaking of the levees along that turbulent little stream, and the loss will be heavy in that section, the judge states. In only a few places has the wheat been stacked, and where it stands in shocks in the field it has suffered very much from the rain and high water.
