

THE MISSOURI PACIFIC WRECK OF YESTERDAY

The Track Was Cleared Late Last Night and the Midnight Passenger Went South on Regular Time.

From Saturday's Daily.
The wreck on the Missouri Pacific north of this city has been cleared away sufficiently to allow the tracks to be used, and the train service over the road was resumed last night and the midnight passenger was able to make the trip south, although the trains were compelled to run at a low rate of speed through the scene of the wreck.

The wrecking crew from Falls City was on the job shortly after noon yesterday and the work of removing the wrecked cars was at once commenced and the freight cars that were not injured were brought back to this city, allowing the wrecker and derrick to get in and start in on getting the track cleared. The cars and the shattered locomotives were dumped on the sides of the track to allow the clearing up of the wreck, and after several hours' strenuous work the line was finally cleared. A number of the head officials from Falls City were on the job to supervise the work of removing the debris.

The wreck will be a very costly one and it is estimated that it will cost from \$40,000 to \$50,000 to replace the damage done to the rolling stock, merchandise and claims from the families of the dead men and the passengers, almost all of whom will have small claims against the company.

The bodies of the three dead men, Engineer Mike Sherlock and Fireman W. R. Goodman of the passenger train and Head Brakeman J. E. Wilson, were taken on into Omaha, where they were prepared for shipment to their homes. Sherlock and Goodman lived at Kansas City, while Wilson resided at Falls City.

The two injured men, E. L. Cotton of Auburn, the baggageman, and W. West, the mail clerk, who were the most seriously injured on the train, were taken to the hospital in Omaha as soon as possible, and it is now thought their injuries will not be serious, although it was thought at first that Cotton was injured internally and West had suffered a broken limb, but an examination at Omaha failed to reveal any dangerous injuries and the men will soon recover from their injuries.

There were many reports circulated as to the finding of the body of a tramp beneath the wreckage of the baggage car, but this proved without foundation, as there was only the bodies of the three members of the train crew taken from the wreck.

The failure of the passenger train to ascertain the fact of whether or not the train they passed at La Platte was 153 or not is clearly the cause of the smash-up, as shown by the evidence, as the Burlington operator at Oreapolis was not in a position to check either train, as he had no orders from this road.

LITTLE BOY BIT BY DOG THAT MAY HAVE BEEN EFFECTED WITH RABIES

From Saturday's Daily.
Yesterday a little son of Mr. and Mrs. Jacob Benschoter, residing north of this city at the Hamilton place, was engaged in playing with a small dog belonging to the family, when the animal turned on the child and bit it in the hand, inflicting quite a nasty wound, and this occasioned a great deal of worry to the parents of the little boy, who summoned medical assistance and the wound was dressed. The fear that the dog might perhaps be affected with the rabies caused the summoning of Chief Barclay, who shot the dog and the head of the animal was sent to Lincoln to be examined to determine whether or not it was a victim of the dread rabies. The dog, however, did not seem in the least to be sick or cross, and it is only to be on the safe side that they had the animal killed, as it had been a great pet and all were warmly attached to the little dog. The head of the animal was sent to Lincoln this morning by Dr. Sandin for examination.

John is looking fine and this has been his first visit to this city since his return from California, and his friends here were well pleased to meet the distinguished and genial senator from this district.

The pleasant event was arranged by Mrs. Tim Kahoutek and Miss Hermia Gradoville, and the jolly party of young ladies assembling at the Kahoutek home, proceeded to the residence of the bride-to-be and gave her a very pleasant surprise, and for several hours the Sedlock home rang with merriment as the ladies carried out their different "stunts" in the games that served to pass the evening, and in these contests Miss Anna Rys won the king prize, while Miss Alha Jirousek was awarded the booby prize for the least proficiency in the games. A mock wedding was one of the enjoyable features of the evening and provoked a great deal of amusement as the different members of the bridal party performed their roles. "SATAN SANDERSON" AT THE GEM THEATER WEDNESDAY NIGHT

From Saturday's Daily.
"Satan Sanderson," in which Orrin Johnson, the Broadway star, plays the leading role, and which is announced for appearance at the Gem theater on Wednesday night, September 29, is the third release of the B. A. Rolfe Photoplay company, and is another release of the newly formed Metro Pictures corporation, and in point of interest and continuity of story promises to exceed anything heretofore made into pictures from a novel. The story of "Satan Sanderson" is the story of a wayward son whose waywardness is inherited from a wayward father, who in the autumn of his life turned for the better. The taint is in the son and it takes true love and a faithful sweetheart to bring his manly traits to the surface. "Satan Sanderson" is in five parts and is composed of 300 scenes. In addition to Orrin Johnson, the cast includes one of the screen's most beautiful actresses, Irene Warfield, who plays the part of the blind sweetheart with a broad understanding of the role.

EMPRESS VAUDEVILLE AT THE PARMELE LAST NIGHT

Larger Audience Than Last Week and All Were Delighted With Each and Every Act.

From Saturday's Daily.
The appearance of the second company presenting the Empress vaudeville in this city last evening at the Parmele theater was in keeping with the former high-class attraction that visited here for this circuit. The acts presented were high-class in every way and the ladies and gentlemen composing the collection of artists giving the program were all first-class. This vaudeville circuit is one of the best in the west and the opportunity to have it shown in this city on each Friday evening is something that cannot be passed up by the lovers of high-class amusements, and the circuit deserves a most generous patronage in every way from the people of Plattsburgh, as it is not only good, but is shown at prices that puts it within the reach of everyone.

The bill last evening was composed of acts that were all thoroughly enjoyed and was opened by the Clark Sisters in their dainty and pleasurable song numbers, in which they made one great big hit with the audience and received repeated encores, and if they had listened to the approval of the audience would have stayed on the stage all evening. Lane & Harper in their original comedy sketch, "The Manicure and the Actor," were laugh-provoking and interspersed with their fun and jokes were a number of high-class musical numbers. One of the features of the evening that caused a great deal of interest was that of Gregoire & Elmira, "the furniture tusslers," and they were not misnamed, as they handled everything from a kitchen chair to a large and heavy couch in their balancing act, and when working the couch balancing act out in the audience there was considerable excitement occasioned for fear that the couch would slide from the head of the performers, where it was balanced. Jessie Hayward & Co., in their screaming farce comedy sketch, "The Quitter," were received with marked favor and their turn was very pleasing to everyone.

While the attendance was far better than on last Friday, the high standard of the show certainly deserved a packed house, as it was worth having every seat filled and encouraged in putting Plattsburgh on the good show map and get rid of the cheap and poor attractions that so often visit here, as the Empress is first-class and up-to-date in every way and their artists are the best that can possibly be procured.

JAMES W. HOLMES DOING NICELY AT THE HOSPITAL

From Friday's Daily.
Reports from the bedside of James W. Holmes at the Presbyterian hospital in Omaha this morning state that he is doing nicely and has come out of the operation, which was performed yesterday afternoon, in much better shape than was anticipated, as his case of appendicitis was quite acute and the gravest of fears were entertained as to his recovery, but with the apparent success of the operation it is now more than probable that with the best of care the patient will soon be on the highway to recovery, and this will be most devoutly wished for by his friends here and in his home at Murray.

DEATH OF JUDGE TIBBETS, ACTING POSTMASTER OF LINCOLN

The news dispatches from Lincoln this morning state that Judge Addison S. Tibbets, acting postmaster at Lincoln, had died at his home in that city at an early hour and very suddenly. Judge Tibbets, who for years has been one of the leading members of the Lancaster county bar, had been in failing health for several months, but recently there was a marked change for the better in his condition. He was suffering from a complication of liver and kidney troubles. Judge Tibbets was appointed postmaster at Lincoln to succeed the late Francis W. Brown, and had been holding the office only a short time. He was well known throughout the state as a prominent member of the democratic party and had been active in the interests of W. J. Bryan and his principals. His death will cause a profound regret among his many friends throughout Nebraska.

W. H. BUNCH SHOT TO FRIGHTEN APPLE PICKERS

W. H. Bunch, who has had trouble at his leased farm north of this city over the fact that the owner of the property had sold the apples on the place to other parties, in frightening the apple pickers off from his place Friday afternoon, states that he did not intend to injure any of the men, but only desired to protect his property rights in the matter, and if he had desired to shoot the men he could easily have done so, but his only desire was to stop them in taking the apples from the place, as they were his under his lease, so he states.

ONE WEAK SPOT

Many Plattsburgh People Have a Weak Part and Too Often It's the Back.

Many people have a weak spot. Too often it's a bad back. Twinges follow every sudden twist. Dull aching keeps up, day and night. Backache is often from weak kidneys.

Strawberries in September.

W. F. Davis, who resides near the Missouri river below the Burlington bridge, was in the city today with a box of very fine "Everbearing" strawberries, and they have been bearing since in June and keep a good supply on hand all the time, and for this time of year it is going some. Mr. Davis remembered his old friend, J. M. Roberts with a box of the fruit while in town.

Does your boy "hump" over his desk or sit erect?

It makes a deal of difference which, both now and in after years. Our *Right Posture* suits for boys have a little device hidden in the back that says to the boy who stoops "straighten up old chap." THE NEW HOME OF MR. AND MRS. W. J. STREIGHT

One of the Prettiest Homes in Plattsburgh, and One That Will Do to Pattern After.

One of the prettiest homes in the city is being erected by William J. Streight on his lots on Oak street, just opposite the St. John's church, and when it is completed it will be an object of beauty, as well as a most cozy home, and is complete in every detail. It is a most commodious structure and arranged with a view of the comfort of the family in every way and with all the modern conveniences.

The exterior of the house is prepared with the Kragstone marble finish stucco, which is something new and one of the most popular building materials in use in the east, and it is the first house to be erected in this city with this finish in use, and it certainly presents a very classy and attractive appearance. This new product is manufactured by the American Magnesium Products company of Chicago, and of which the Concrete Construction company of this city are the western agents, and it is undoubtedly one of the finest finishes for a building that can be devised, as it is not only very handsome, but also water and fire-proof and combines a flexibility that makes it very much better than other stucco products for finishing. It is manufactured in a number of colors, but the gray marble finish which Mr. Streight has for his new home is one of the most popular on the market. The work of placing the stucco is being done by Mr. Robert Williams of Chicago, a representative of the manufacturers, and is a fine job in every way and the work on the new house looks as though it had all been placed there with one sweep of the trowel, so even and well arranged is the marble effect.

The interior of the house, while it is not nearly finished, gives one the idea of how really comfortable and well arranged it is. On entering from the front one steps onto one of the most charming porches that could be imagined, both for comfort and artistic effect, and from here one enters the living room, which is one of the largest rooms in the house and which will be one of the most attractive, and a large cobblestone fireplace will be built here, and into which will be used stones from all parts of the Union, as the friends have sent stones to Mr. and Mrs. Streight from Maine to California. To the left of the living room a neat den is built, and on the south side of the house the dining room and kitchen are constructed, which will insure bright, attractive rooms. On the second floor four good-sized bed rooms with ample closets and a fine bath room have been placed, and in the basement the furnace room and laundry are located, with a clothes shoot leading from the bath room on the second floor.

It is certainly surprising that any woman will endure the miserable feeling caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N.
