

DRIVE OF ALLIES IS STILL ON

Strike Teuton Front Terrific
Blows Without Cessation.

WORKING ACCORDING TO PLAN

Paris and Berlin Official Bulletins Fail
to Tell Same Story of Fighting.
Britons in Thick of Fray—Hindenburg
Strikes Russians.

London, Sept. 30.—The allies' great offensive in Artois and the Champagne is still being persevered in, and according to French accounts, which, however, are contradicted by the German official reports, further progress has been made in both areas.

In Artois the French claims to have reached Hill 140, which lies directly east of Vimy and is the culminating point of the crests named after that town. The importance of the hill lies in the fact that it commands the plains to the east, the network of roads and the railway which runs from Lens southward.

So far as Champagne is concerned, the French appear at present to be making their chief effort towards the railroad junction north of Massiges, which accounts for the desperate effort of the Germans to stem the tide and for the crown prince's counterstroke in the Argonne, as this railway connects the German army in the Argonne with its base at Verdun.

British Are Attacking.

Perhaps the heaviest fighting since the offensive began now is going on, for the British are attacking the German third line of defense south of La Bassée canal, and the Germans have brought up reinforcements against both the British and the French and are making every effort to retrieve the lost ground. Belgium dispatches from Holland say, has been denuded of troops, while German detachments are even being removed from the eastern front to meet what is now known to be the greatest effort made in the west since the armies took up their present position from Belgium to Switzerland.

The Germans are trying to divert the allies by a heavy artillery bombardment north and south of Aene, but plans having been made by General Joffre, the French are striking with all the forces at their command at the points selected. It is reported that the German emperor has arrived at the western front and that he has already dismissed some of his generals for allowing their lines to be pressed back to almost the breaking point.

Hindenburg Strikes Russians.

Despite the transfer of some troops to the west, the Germans continue to strike hard at the Russians practically all along their front. Field Marshal von Hindenburg is delivering heavy strokes against Dvinsk, while his colleague on his right is pushing forward to the east of Vitebsk and Molo-deschno in an attempt to turn the Russian position and has now reached a point to the north of Minsk, to which another army is advancing on the south. Field Marshal von Mackensen and Prince Leopold of Bavaria, apparently, are inactive, owing doubtless to the marshes, which are now impassable, but General von Linsingen is still pressing hard on the Russians in Volhynia.

It is expected that the weather will soon put an end to the operations in east, as with the continued rains the rivers cannot be forded, and the Russians, wherever possible, are getting behind them.

It is reported again that an Austro-German army of 600,000 strong, is assembling for offensive against Serbia.

MEXICAN SPIES ACTIVE

Organization For Republic In South
Texas Found to Be Extensive.

Brownsville, Tex., Sept. 29.—A party in four automobiles was fired on twice near Mercedes. Captain Garrison McCaskey of the Twenty-sixth Infantry at Mercedes sent out a detachment to investigate the shooting, but they found no clues.

Evidence that Mexicans, who are said to be planning to make an independent republic of south Texas, have a more complete organization than when the outlaws began two months ago, came to the notice of army officers here. The Mexican spy service is said to have caused American troops considerable trouble, especially in the cutting of army telephone lines just before raids, and as a result, requests have been made for five or six sets of field wireless outfits.

Talk With Wireless Across Continent.

Washington, Sept. 30.—Wireless telephone communication across the continent was accomplished for the first time when experiments, extending over several months, culminated in successful transmissions of the human voice by radio from the great naval plant at Arlington, Va., to the station at Mare Island, Cal., 2,500 miles away.

Pays \$2,750,000 For Lot.

New York, Sept. 30.—Clarence Payne, a San Francisco capitalist, purchased a corner of Fifth avenue and Forty-third street at a price approximating \$2,750,000. On the lot a sixteen-story building is in process of construction. It was the third conspicuous purchase of Manhattan realty made by Payne recently.

NEW ORLEANS IS STORM-SWEPT

Ten Killed and Many Injured
as Gale Sweeps Out of Gulf.

LEVIES ARE WASHED AWAY.

Million Dollars' Worth of Property Is
Destroyed by Wind of Eighty-six Miles
an Hour, Highest Ever Known In
the Crescent City.

Mobile, Ala., Sept. 30.—Wireless advices from New Orleans this morning say that ten persons were killed and 150 injured by the hurricane in New Orleans. The property damage was estimated at about \$1,000,000. The famous French market section was partially wrecked.

A gale with a velocity of eighty-six miles an hour swept the city, demolishing scores of buildings, stripping the roofs from hundreds of other structures and scattering the streets with broken glass and debris.

A rising barometer gave evidence that the storm was subsiding, the center passing to the northwest of New Orleans. The barometer at its lowest registered 28.11, and the wind velocity was the highest ever recorded there. Railroad and wire communication with the outside world had been cut off, and telephone, electric light and trolley service discontinued in the city. All railroads have cancelled trains from New Orleans.

The Mississippi river levees below New Orleans were broken, houses washed away and at least two lives have been lost in that section.

The business section of Biloxi, Miss., is under six feet of water, and train service has been abandoned because of washouts throughout a large section of Bay St. Louis.

Wind drove the water in Lake Pontchartrain above the sea wall and Milneburg and other New Orleans suburbs along the lake were partially under water.

SUES FOR \$7,500,000

Receiver of Rock Island Brings Suit
Against Former Officials.

New York, Sept. 30.—Jacob M. Dickinson, receiver of the Chicago, Rock Island and Pacific Railway company, brought suit in the supreme court to recover \$7,500,000 from the directors of the Chicago, Rock Island and Pacific Railway company.

The \$7,500,000 is alleged to have been unlawfully diverted from the funds of the railway company to the Chicago, Rock Island and Pacific Railroad company in connection with loan transactions involving stock of the "Frisco" lines.

The defendants named are Daniel G. Reid, William H. Moore, Richard A. Jackson, Francis L. Hine, William T. Graham, Ogden Mills, Edward S. Moore, Henry U. Mudge and the executors of George G. McNulty, deceased.

Receiver Dickinson asked the court that the defendants be required to account for the money expended by the railway company in connection with the loan and that "the defendants and each of them be required to pay the plaintiff the sum of \$7,500,000, with interest thereon from the first day of December, 1909."

Bulgarian Cabinet Is Divided.

Athens, Sept. 30.—The Bulgarian ministers of finance and commerce have resigned, according to a report received from a reliable source in Sofia. The reason given officially is a divergence of views on internal questions, but the real cause is the complete disagreement of these cabinet members with Premier Radoslavoff on the policy to be followed in view of the determined attitude of Greece. King Ferdinand granted an audience to former Premier Malinoff, leader of the party favorable to Russia, and asked him, it is understood, to form a new cabinet.

Hall Balks Over Crossley Warrant
Union Pacific Appeals.

Lincoln, Sept. 30.—Charles W. Bryan was named permanent chairman of the convention of the "Nebraska Dry" federation meeting on in Lincoln to map out a program to make Nebraska dry by a constitutional amendment in 1916. A thousand delegates, some from every county in the state, were present.

The three permanent secretaries were Harry E. Sackett of Beatrice and Dr. H. E. Douglas and Mrs. Frank N. Batts, both of Omaha. The meeting was called to order by Judge S. P. Davidson of Tecumseh, temporary chairman. Dr. J. D. M. Buckner of Aurora, Neb., introduced Judge Davidson.

The fight of the convention will be in regard to the form of the amendment that will be adopted to best prevent evasion of it when it becomes a part of the constitution.

The Douglas county delegation is insurgent, demanding a different form from that adopted by the committee of 100 at a meeting in Omaha a few weeks ago. They insist that the clause "for barter or gift under any pretext" be withdrawn on the ground that it would prevent the use of liquor in the home and would lose the prohibition cause a host of signers they would otherwise get. They also insist on better methods provided for the enforcement of the amendment so that it will come within the scope of constitutional officers.

Dr. Purley A. Baker of Ohio, national superintendent of the Anti-Saloon league, was present and gave an address. Delegates were present from about 400 state and local religious, civic and industrial organizations.

Hall Declines to Act.

State Treasurer Hall has refused to issue a warrant for a claim in favor of W. F. Crossley, who is the contractor in charge of the new Kearney state normal building, for \$12,859, because his voucher was not filled out in due form. It will be brought up before the board at its next meeting in Kearney, Oct. 13. Crossley's full contract amounts to \$57,867. The disallowed claim did not have the signature of the president and secretary of the board of control in the proper place.

Refuses to Register Bonds.

The state auditor has refused to register \$12,000 of lighting bonds for the town of Seward on the ground that a town of this class is not allowed by law to incur light bonds of more than 10 per cent of the assessed valuation of its public utility property. The assessed valuation of the company is \$72,938, 10 per cent of which is \$7,293.80, while the town has sent in \$12,000 worth of bonds.

Union Pacific Appeals.

The Union Pacific railroad has appealed to the supreme court from a judgment against it in the Lancaster county district court for \$150 in favor of Charles E. Wakefield. Wakefield claims his team and wagon were injured in Lincoln when struck by a Union Pacific motor car.

Complaint of Board.

Complaint has been made to the state insurance board that the United States Fidelity and Guaranty company of Baltimore is refusing to make payments due under the workmen's compensation act to a laborer who was injured on the new Miller & Paine building ten weeks ago. The board will investigate.

Senate Journal Is Ready.

State Printing Commissioner Walrath has finished 1,000 copies of the senate journal for the 1915 legislative session at a cost to the state of \$1,135.

SUES WIFE FOR ALIMONY

Usual Order Reversed In Case on File
In District Court In Omaha.

Omaha, Sept. 30.—The first man who ever asked a court in Nebraska for an order awarding him alimony to be paid by his wife has come forward in the district court in Omaha. He is Frank Dodimead, whose wife Katherine, is suing him for divorce on grounds of cruelty and non-support. Mrs. Dodimead conducts a rooming house. Her husband alleges that ill health incapacitates him from labor.

Hearing of Dodimead's motion that his wife be required to pay him \$25 a month "for his support and maintenance" has been set for tomorrow before District Judge Sears.

Mrs. Dodimead already has been directed by Judge Sears to pay her husband \$10 out of the earnings of her rooming house.

Cleanup Campaign Urged by Governor

Lincoln, Sept. 30.—Governor Morehead issued a proclamation asking Nebraskans to join in a cleanup campaign on Oct. 9 to forward fire prevention work. He recommends that all factories and homes be cleared of rubbish and fire drills held in all schools.

TAUGHT BY THE KING.

A Lesson Given by Frederick William III. to His Steward.

King Frederick William III. of Prussia was a man of few words. What ever he had to say was always brief and to the point, as the following anecdote from a foreign journal shows:

The king, who was accustomed to interest himself in all the details of court management, ordered his steward to take special pains to see that all the carriages were amply supplied with food and drink whenever they left for a journey of a day or so, but it sometimes happened that the steward dispatched the drivers without any food, giving them a coin, perhaps, to buy what they wanted. That usually meant that the driver went hungry, as he did not have much opportunity to leave his horses and dine at a restaurant.

At length the king became aware of his steward's failure to carry out his orders and awaited the next opportunity to bring the fact to his attention. He did not long to wait. That night the king stopped his coachman as he entered the courtyard and upon inquiry found that the man had had nothing to eat since breakfast. He held out a dollar in his hand that the steward had given him to buy food with. Without a word the king took the dollar.

He went into the castle and summoned the steward. That worthy appeared immediately and made a profound bow, but as he raised himself up he was surprised to feel a coin placed against his mouth.

"Eat it!" ordered the king.
"But, your majesty, I—"

"Eat it!" the king again roared.
"Why, your majesty, I can't eat it!"

"Oh, you can't? But you expected the coachman to? Well, in the future just remember that—that people eat food, not money. Do you understand?"

The steward understood. In the future the king's coachmen were amply supplied with provisions whenever they went upon a journey.
