Bill Bone Coming to Murray.

Bill Bone, the poet-entertainer, is coming to Murray as the first number of the lecture course for the winter season, on Thursday, October 7. Bill Bone is one of the best entertainers on the lecture platform and should be given a good attendance. The Commercial club is endeavoring to give the people of Murray and vicinity a good line of entertainment, and they should make the first number a hummer.

In coming to you Mr. Bone desires to be looked upon as just human, and you will find him intensely so. He looks it, acts it and entertains in a most human way. Regardless of his testimonials there is nothing superhuman about him. He prefers to remain on a level with humanity, that they may look straight at him and not up to him—within the reach of the warm hand shake and within the sound of "Howdy, glad to see you, Bill."

As a poet, humorous lecturer or character interpreter you will find him refreshing in originality, artistic in being natural, and sufficiently dignified, without posing, to be highly respected. He carries no red fire for tableaux, and if he ever tried to strike an attitude he'd strike out in the first inning. Bill apes no man, living or dead; in fact he does not need to be a "Pocka Da Monk" for anybody's hand organ. He writes what he reads—it's part of the man. Then he reads what he writes, as few writers can.

He is humorous without being silly; poetical without being rhythmically monotonous; earnest and logical without removing his coat or collar, and intensely patriotic without ranting or waving a flag. Bill Bone has the faculty of blending his varied talents into one entertaining, uplifting, worthwhile lecture-recital program.

DAUGHTER OF MRS. W. RENNER FALLS AND CUTS HER HEAD

Last evening the little 5-year-old daughter of Mr. and Mrs. William Renner, residing west of Murray, was the victim of a very painful accident when she fell on a large oak plan and inflicted a gash of several inches on her head, which penetrated to the skull. Dr. G. H. Gilmore was called to the Renner home and dressed the injuries of the little girl, who is reported as getting along in fine shape at the present writing, although suffering a great deal from the pain of the accident.

Installs Oxygen Welding Plant.

L. H. Puls has just installed at his new garage an Oxygen welding plant that will prove of great value to the automobile owners and farmers in caring for their repairs in this line, and means a great saving to them, as the new plant will be able to take care of all kinds of welding, no matter of what nature, and he has secured the services of an expert in this line of work, who will look after the needs of the people of Murray and vicinity. Keep your old gears and have them repaired at the Puls garage and save money by this means, and the best of work and satisfaction is assured. All kinds of farm machinery will also be looked after by the firm and it will result in the saving of many dollars to those who take their repairing to the Puls garage and repair shop.

What About Electric Light Plant?

The prospects look very good at this time for an electric light plant in Murray in the near future. Louie Puls has been circulating among the people of Murray, principally the business men, seeking their aid and views upon this point, and he has met with great encouragement on every side. Murray is sure one of the thriving little cities of Cass county and the business men are becoming very progressive in the fullest sense of the meaning, and we believe that the thing that is most needed at this time is an electric light plant. Mr. Puls thoroughly understands this line of work, and is fully prepared to construct and maintain the plant and render the people of Murray excellent service. The plans at the present time are to supply the entire town with light, business houses, residences and street lights. There is not the slightest chance but what this movement will prove a success, and Mr. Puls should be encouraged by each and everyone individually and collectively, as well as for comfort and safety. He, no doubt, would install a modern Alamo plant, which is the very best in the market, and would handle the needs of Murray for many years to come. Lend all the aid you can and the result will be that you will have light before you know it.

NOTICE TO CREDITORS

Having disposed of my blacksmith shop in Murray, I am very desirous of closing up all my accounts, and in order to do so must call upon all those knowing themselves indebted to me to call and settle same at once. Your early attention to this matter will be greatly appreciated by me.

The Place to Buy Lumber.

There never was a season so favorable for building and making improvements around your farm home as this one has been, and the activity around the Murray lumber yard is an evidence of this fact. More of all grades of lumber is being sold this spring than for many seasons. The demand for good goods and the fact that it can always be found at this lumber yard at the right prices are the causes for the increased business. Mr. Kikendall is after the lumber business of this locality, not only from the fact that it is due him, but because he is ready and willing to meet all competition on the numerous grades of lumber.

To Undergo Operation.

From Wednesday's Daily. Dr. G. H. Gilmore of Murray, accompanied by Herman Reike of near Union, were in the city today for a few hours en route home from Omaha, where they placed Miss Hattie Reike in the Presbyterian hospital to undergo an operation. The young lady has not been in the best of health for some time and it is thought to secure relief from her suffering by an operation.
