SEVENTY-FOUR ARE TAKEN INTO THE METHODIST CHURCH

Yesterday was a most interesting one for the Methodist church in this city, as there were seventy-four taken into the church, sixty-nine on probation and five by letter from the former churches. A greater part of these converts comes from the work of the recent revival services conducted here by Rev. Druliner, and there are still others who will affiliate themselves with the church in the next few weeks as a result of the special work. The meetings, in addition to securing many new converts, has also stimulated the interest of those who are already members of the church and given them an inspiration to greater efforts in the cause of their church, as well as proving very beneficial to other churches of the city.

GEORGE SCHOEMAN CELEBRATES BIRTH-DAY ANNIVERSARY

The home of our old friend, George Schoeman, was the scene of a most pleasant gathering yesterday, when the relatives of the splendid old gentleman gathered to assist him in the celebration of his eightieth birthday. The occasion was one that will long be very pleasantly remembered by those who were most fortunate to be present, and the guest of honor was showered with congratulations on having reached this ripe old age. The relatives all came with well laden baskets of the good things to eat, and this was soon transformed into a feast fit for a king and to which the twenty-six members of the party did ample justice, and following the dinner the day was spent in visiting and having a general good time. At the close of the day the guests departed homeward, wishing that many more such happy occasions may be given to them to spend with this grand old gentleman. Those who were present were: John Schoeman and family, George Schoeman, jr., and family, Henry Schoeman and family, W. H. Hoover and family, Fred Krecklow and family of Louisville, and W. G. Meisinger and family and Miss Helen Meisinger. The Journal joins with the friends in wishing Mr. Schoeman many more years of happiness.

FROM PERU NORMAL.

A large number of the students attended the association in Omaha.

The largest almni banquet in the history of the normal was held in Omaha November 4, when at least 300 members of the Alumni association and many other friends of the normal met and renewed friendships. At the time the movement was launched to formulate plans for establishment of a student hospital in Peru to be known as the Eliza R. Morgan Health house.

The normal school authorities feel particularly fortunate in securing Professor L. F. Garey as head of the department of agriculture to succeed Prof. H. C. Heard, who is this week leaving to take up his work in Arkansas. Mr. Garey graduated from Peru normal in 1910. He has a B. Sci. degree from the state university and his Masters' degree from the University School of Agriculture. He has had several years' experience as High school principal and city superintendent. Prof. Garey is well and very favorably known in Peru and his success in this position is assured.

A large number of Peru students attended the football game on November 5 at Omaha, at which time Peru won from Omaha university by a score of 9 to 6. Craig starred again in a perfect drop kick from the thirty-yard line, and Ments saved the day for Peru by intercepting a lateral pass and making a ninety-yard run for a touchdown just before the blowing of the whistle.

In the game with Grand Island last Friday the luck went the other way. Grand Island played a good game and won by a score of 42 to 6. The Peru team was not in the best condition. Houston, who made most of the gains in the Tarkio game, was off the field with a sprained ankle, Ments was hurt in the first half and had to leave the field. But the boys made a plucky fight, and it is expected that they will all be back on the field by next Friday, at which time they are to meet Kearney normal.

The girls of the junior class entertained the junior boys, freshmen, specials, trainers and their class advisors at an informal Saturday evening, November 13.. The gymnasium was decorated with colors of yellow and black. Various games were played during the evening and all report a very good time.

President Hayes left Saturday night for Nashville, Tennessee, where he has been asked to address the Second National Conference for the Training of Rural Teachers. He will speak on "The Practice School in the Country."

The department of manual training has just completed the installation of a new wireless outfit which will enable the normal to receive time signals from government stations and to send out messages to High school stations, The work is being carried on in a practical course in electricity under Prof F. C. Smith.

The installation of the cement seats in the athletic field bleachers is well under way. While there are already enough seats for some 600 spectators, only half of them are in place. This is said to be one of the best natural ampitheaters in the middle west, and the advantage will be in no sense marred by the completion of these seats.

Prof. F. M. Gregg, head of the department of phychology, gave an address before the Omaha Law school last week upon the "Psychology of Parliamentary Law." Prof Gregg is the author of a widely used text book upon this subject.
