## Cheapest in the Long Run

The cheapest priced wagon is the one which will save you the most money—and there is far more than the first cost to be taken into consideration with most wagons. But with "The Old Reliable Peter Schuttler" it's different. With it, the first cost is practically the only cost. It's built right and stays right. It saves repair bills; it avoids break-downs; it reduces the after purchase expense—and it wears longer than any other wagon built.

And with all its cost-reducing, time and trouble-saving features, the first cost of the "Peter Schuttler Wagon" is only slightly more than the first cost of the inferior makes. And every cent of the extra cost goes into extra quality. There's no more profit on a "Peter Schuttler Wagon" than on the so-called material makes. The difference in price is due entirely to the difference in standard and the difference in the way this material is put together. It is this difference which makes the "Peter Schuttler" by far the cheapest priced of all wagons in the long run.

The death of Mrs. Wm. Schlinker on last Tuesday noon came as a sharp ly barbed shock of pain and sorrow to her relatives and many friends. Mr. Cassel's legion of friends will be grieved anew to learn of this, and be there the thinnest thread of hope, it is still the ardent wish of all that life, so sweet to all, may be extended for him in such full measure as only a most kind Providence is able to grant.
