## Happy New Year!

This is assured the purchaser of a "Studebaker" Four 40 h. p. or Six 50 h. p., for Studebaker makes cars for service and service makes you happy.

There are no cars for anywhere near their price that develop 40-horse in a four cylinder car. This fact will be brought to you if you will just let us know you are "from Missouri," and want to be shown. Besides the great power plant the "Studebaker" is as quiet as a Quaker.

We have a new supply of booklets from the factory and you will be convinced of the quality in this Studebaker construction if you will call or write us for a book and arrange with us for a demonstration. We are local distributors for Cass county, and will be pleased to help you solve the problem of which car to buy.

This is a good time to lay in your supply of hay for the spring work, as it is coming in in very good shape and the prices are at the lowest ebb, as the past season will prove. The weather has not been the best and the market has built up to \$11.00, which would indicate no large supply, and if the weather should break it would send it up a dollar or two in a very short time. Good hay has been very scarce, hence the price is high and will continue so. Wolf & Ault will give you a car that will meet your requirements if you give them a chance.

Directors Meet.

The Farmers' Elevator Co. directors met at their office Tuesday for the regular annual meeting, for the purpose of auditing the books of the year's business and declare their dividends. This is one of the few farmers' elevator companies that pay up in the prices and never fail to declare a neat dividend, which certainly speaks very highly for the officers and directors. There is no doubt but this company has done more to promote the standing of our little village than anyone can imagine, and the old saying of "help yourself by helping others" does not miss the mark in this case. Co-operation is what makes a success of this company; the greater the co-operation, the greater the success. Let us catch the little spirit and hang on to success.

## VILLA REPORTED TO BE ON WAY TO CUBA FROM NEW ORLEANS

New Orleans, Dec. 29.—General Francisco Villa, the Mexican revolutionary leader, arrived in New Orleans last night from El Paso, was hurried across the city to the steamship docks and boarded the steamship Excelsior which later sailed for Havana, according to a story published in a local afternoon paper, and credited to a friend of the Villa family who arrived here last night from Juarez.

All efforts to confirm were unavailing. Officials of the steamship line declare that Villa's name was not on the passenger list and that no person (Mexican) resembling him had sailed as far as they knew. There were, however, several Mexicans aboard the Excelsior they said.

General Villa's wife, their two children and Mrs. Hipolito Villa, wife of the general's brother, sailed from here for Havana last Saturday.
