Happy New Year!

This is assured the purchaser of a 'Studebaker" Four 40 h p. or Six 50 h. p., for Studebaker makes cars for service and service makes you happy.

There are no cars for anywhere near their price that develop 40-horse in a four cylinder car. This fact will be brought to you if you will just let us know you are "from Missouri," and want to be shown. Besides the great power plant the "Studebaker" is as quiet as a Quaker.

We have a new supply of booklets from the factory and you will be convinced of the quality in this Studebaker construction if you will call or write us for a book and arrange with us for a demonstration. We are local distributors for Cass county, and will be pleased to help you solve the problem of which car to buy.
