Farm Implements and Wagons and Harness!

With a large crop of corn to market many farmers are in need of a new wagon, extra box or harness, which we have in stock and invite your inspection before you buy. We pride ourselves in handling the "Birdsell" wagons and "Birdsell" extra boxes, built from genuine yellow poplar and hand painted with lead and oil, which insures your wagon against cracking and peeling when exposed to the elements. The "Birdsell" has many distinctive features not found in any other wagon and the boxes are the only "yellow poplar" sold in this territory. We carry a full line of Farm Machinery in our new 24x66 building and are prepared to fill your requirements for the Spring work. Call and give us a chance to demonstrate this fact to you. We'll appreciate the favor. Our Harness, Collars, Pads and Extra Parts to put your old harness in shape, "Eureka" Harness Oils, Curry Combs and Brushes are all ready for your inspection.

You are assured of results if you use Puritan Flour. Every sack guaranteed. Wolff & Ault carry it in carload lots and can sell you at a price much lower than the present market would warrant.
Wolff & Ault put out a new Birdsell wagon this week and also an extra wagon box. This firm is doing a nice business in all departments and this community should be proud to have such an institution at their command.

We feel sorry for the ladies from this village who went to Plattsmouth last Saturday and went to sleep in the depot and got left and had to go to Orestopolis on a freight to catch the train for Cedar Creek.
Wolff & Ault put up their ice supply Monday and Tuesday and a very fine crop of eleven-inch ice was secured and as clear as spring water. The farmers in this community filled their houses with the same quality taken from William Schneider's lake.
Wheat is selling higher every day. Do you realize that it will put flour up also? Better take the hunch and lay in a supply of "Puritan." Wolff & Ault are holding the price low ebb as long as consistent. Don't wait, but act at once and save yourself the raise, which is 20 cents a sack on today's market.
The Ladies' Aid Society.
The Ladies' Aid society met at Mrs. Sarah Schneider's Wednesday and a very pleasant afternoon was spent. Many members brought their fancy needlework and enjoyed a social chat with their neighbors. At an appropriate time a very nice lunch was served with coffee, and those fortunate enough to be present were fully reimbursed for the effort put forth to be present at the pleasant home of this estimable lady. The next gathering will be at the farm home of Mrs. J. G. Lohnes on February 2, and a good turnout is expected.

QUESTION—Do you bake nice bread? Solution—Use Puritan Flour and results are certain. Wolff & Ault can supply you in any desired quantity, and at the right price, too.
Gus Solberg received a very fine specimen of Duroc-Jersey sow from one of the leading herds in the state. He says the pedigree shows some of the best individuals, and is very much pleased with her showing. This will make a good one to add to the already fine herd of Durpe's Mr. Solberg has collected.
James Nedit received a coop of fine poultry Wednesday. He is sure a fine poultry man. This gives him the finest chickens, ducks and geese ever brought to these parts. He has White Plymouth Rocks and getting the White Orpingtons on Wednesday sure adds greatly to his flock. The Orpingtons are from Ohio and are the best to be had. James says nothing but the best for him. The Indian Runner ducks are sure fine birds and can't be beat anywhere. The geese are of the French imported stock of Telove geese. The whole flock cost the owner a fine piece of money, but he will be able to supply the poultry fanciers with the best without sending off for their eggs.

PRES. WILSON URGING TARIFF COMMISSION

Washington, D. C., Jan. 26.—President Wilson favors creation of an independent, non-partisan tariff commission with broad powers to investigate tariff duties, the returns between industries at home and abroad and the commercial machinery of the world, it has been officially announced.
The president has told Representative Kitchin, chairman of the house ways and means committee that he is pushing the matter because of unusual conditions due to the war and the place the United States will have in commercial adjustments after the war.

Bank Bulletin

Vol. 1 January 27, 1916 No. 4

Acquainted at the Bank.
Is there any good reason for anyone to postpone the time for becoming a regular customer at the First Security Bank? The delay means doing without the safeguards for keeping the administering money matters safely, the co-operation of the bank in business and financial affairs, and all those little helps that are so keenly valued.
The successful man usually started his bank account earlier in life than the average person, and got a good start by so doing. His bank account, his acquaintance at the Bank and the Bank's co-operation make it easier for him to succeed.
To become a patron of the First Security Bank does not signify that you must start a bank account with \$500 or \$1,000. Many successes would be greatly handicapped, if the Bank laid down such rules. We are not so much concerned about the amount of your deposit at the start, but prefer to take a man's business at the beginning as it is, and work with him from one success to another. This gives us the opportunity to make our service helpful and an important part of the success.
You can even become well acquainted at the First Security Bank, receive helpful service, without starting a bank account at all. Whenever you receive a check drawn on this or some other bank, bring it to us, we will turn it into cash for you, or you may deposit the money here for safe keeping, until you want it. Have us issue a bank draft when you wish to send money through the mails with safety. Consult with us in a confidential way on your plans for larger success. In fact, transact all of your financial business with the First Security Bank.
If at any time you have money awaiting investment have an Interest Earning Certificate issued. Many people keep their money here, in Interest Earning Certificates as a permanent investment.
There are many ways in which the First Security Bank will be useful to you, when once you have your Financial Headquarters here and start to get real well acquainted. You will come to realize that an acquaintance here is an aid to success whenever you start. However, an early start gives you a decided advantage. We are ready to serve you as your needs require.
Bank Check Defined.
A bank check is merely an order in writing drawn by a depositor, for the bank to pay a stipulated sum of money to the person whose name appears upon the face of the check, from the funds of the drawer on demand.
Can you think of any plan more convenient than a checking account with the First Security Bank, to meet obligations, pay bills and make purchases?
A checking account affords the depositor safety in money matters and systematizes his business transactions, by furnishing a complete record of money paid and deposited.

BRITON GIVES UP BLOCKADE OF NEUTRALS

London Press Is Opposed to Further Trouble With Neutral Nations.
LITTLE CHANGE IS EXPECTED
London, Jan. 26.—The British government has virtually decided to stand put on its present trade regulations and not to declare a blockade of the entire German coast, the press agreed today.
Protests by the United States and Sweden, some papers broadly hint, cooled the ardor of blockade advocates. Newspapers display warlike statements of the Swedish premier and caution the government against trouble with neutrals.
"What would be the allies' position if the United States' vast resources ceased to be at their command?" demanded the News.
"This country may be content with the present measures which, if apparently slow, are sure and have been adopted without severance of friendly relations with neutral powers. We have had experience of the consequences of over-bearing conduct," said the Telegraph.
The government has issued a statement denying that increased exports from the United States to neutral European countries are reaching the central powers.
