

New Boots for Street Wear

An important item in any woman's street costume is her footwear. It demands style that is correct. It calls no less for comfort in walking. To be both comfortable and stylish is the important consideration with the discriminating woman in selecting her footwear.

To meet these requirements we know of no boots superior to the Drew Shoe, made at Portsmouth, Ohio.

Fashionable designs, grace in every line, comfortable fitting lasts and a general tone of exclusiveness characterize these splendid boots.

We are showing latest models.

SERBS WILL FIGHT IF ALLIES WILL GIVE FOOD

Paris, Jan. 26.—The Corful correspondent of the Petit Parisien has had an interview on the island with Nikola Pashitch, the Serbian premier, and quotes him as saying:

"The retreat of our troops from Albania to Corful is far from completed. Those who suffered most will soon be sent to places where they will be cared for, reorganized and retrained. As for the others, if they are kept supplied, you may be sure they will continue the campaign in Albania with vigor. They will give the enemy some unpleasant surprises, for in Albania the roads and paths can be defended by small numbers of men, and it is simply a question of transports and supplies, and you alone, the allies, can solve the problem.

"Give us enough to eat, and we shall hold on and we shall fight. I am certain that with you and by your aid we shall triumph. I repeat that we are absolutely sure that the allies will triumph, and our one wish is to be able to contribute to the great victory."

John Beeson Takes Position.

John Beeson has just accepted a position in the office of C. E. Hartford at the Egenberger coal and feed store and will in the future be found there looking after the interests of the patrons. Mr. Beeson is a young man well qualified for the position and will undoubtedly make a valuable assistant for Mr. Hartford. Mr. Beeson succeeds W. R. Egenberger, who has resigned from the establishment of Mr. Hartford.

Mr. and Mrs. John Lynn of Union were here today attending the session of the district court, where they were called as witnesses in the Garrison estate matter for the estate.

TEUTONS NEAR WHERE ITALIANS LANDED

Rome, Jan. 26.—Austrian troops have occupied the Albanian seaport of San Giovanni di Medua and are pressing southward toward Durazzo to form a junction with the Bulgarians near El Bassan.

Parts of the Montenegrin and Albanian forces defending Scutari were captured. The Serbs retreated southward.

Italian troops landed near Durazzo several months ago. No reports of their withdrawal have been received, though the above message makes no reference to their presence at Durazzo. It is possible that a battle is imminent in which Italian troops will be engaged for the first time in the Balkan peninsula.

NOTICE:

If all parties knowing themselves indebted to me will call and settle at once they will confer a favor. All storage cars must be moved by February 1, 1916. I am closing up by reason of creditors not paying their bills. These bills must be paid.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by him.
HALL'S CATARRH CURE is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 50 cents per bottle. Sold by all druggists.
Take 10 to 15 days' trial for satisfaction.

STEEL DIVIDEND DECLARED; PROOF IN PROSPERITY

The Corporation Holds Surplus for Last Three Months of \$23,693,134.

UNFULFILLED ORDERS VERY LARGE

New York, Jan. 26.—A quarterly dividend of 1 1/4 per cent on the common and preferred stock has been declared by unanimous vote of the directors of the United States Steel corporation, thereby disposing of reports that the dividend might be passed for political effect.

Earnings for the last three months were \$51,232,788, or \$5,729,084 greater than in any previous quarter. Judge Gary announced that the corporation had about \$105,000,000 cash in banks.

The total dividend amounts to \$12,658,701, of which common stock receives \$6,353,781 and preferred \$6,304,920.

The surplus for the quarter is \$23,693,134, after deducting \$10,379,675 for sinking fund, replacement charges and depreciation, \$5,678,777 for interest on bonds and other smaller charges.

Unfilled tonnage of the steel corporation on December 31, 1915, was 7,806,220.

Wall Street Expects Another Boom. Wall street's judgment that the country is making money having been confirmed, the street expects another display of boom trading. It holds that the extent of present prosperity has hardly been realized, even by those closest to trading centers. Optimists declared that demand for American products will continue long after the war.

Those taking this view declared that after the war the United States must supply Europe's vastly increased demand for machinery, which Germany supplied before the war.

Press Says Prosperity Is Sound. The New York Sun (independent), today said:

"The basic industry gauges the country's economic condition. The Steel dividend is a vote of confidence in the soundness and enduring quality of our prosperity."

The World (democratic), said: "The directors did not share these views of disastrous competition from nations bled white and industrially crippled."

The New York Press (progressive), said: "The story of Steel is the story of the nation, with the farm, mill, factory, lumber camp, mine, live stock range and dairy all mining money while 20,000,000 men struggle on the battle fields of Europe."

MANN SEES DANGER OF WAR WITH ENGLAND

Washington, D. C., Jan. 26.—The United States is in greater danger of war with Great Britain than with Germany, said Republican Leader Mann in the house in advocating a standing army of from 250,000 to 500,000 men, better coast defenses and a navy that could defend the country. Mann was applauded by both democrats and republicans.

Mann said that he saw no immediate danger of war, but added: "European powers, in a life-and-death struggle, pay little attention to demands of less powerful nations in the conflict."

"No one knows where aggression against our wishes will lead us. Perhaps not into this struggle, but one that is the outcome of this. I think the conflict will last many years before either side is declared finally the victor."

GET RID OF A RACKING LA GRIPPE COUGH—IT WEAKENS.

For the severe racking cough that comes with lagrippe, Foley's Honey and Tar Compound is wonderfully healing and soothing. R. G. Collins, ex-postmaster, Barnegat, N. J., says: "Foley's Honey and Tar Compound soon stopped the severe lagrippe cough that completely exhausted me. It can't be beat." Sold everywhere.

Sam Johnson of Avoca was attending to some business matters in this city yesterday, returning to his home in the afternoon. He was a pleasant caller at this office and while here had his subscription extended for another year.

TURKS DEFEAT BRITONS BUT LOSE TO RUSSIANS

Berlin, Jan. 26.—British losses of 6,000 dead and wounded near Shiek Said and Menarie and defeat of General Aymer's campaign to relieve the besieged British garrison of Kut-El-Amara in Mesopotamia are reported in official dispatches from Constantinople.

British attacks near Menarie were repulsed and later the British were driven several miles eastward, the Turkish dispatches stated. The Turks granted a request by General Aymer for a day's truce to bury his dead.

London, Jan. 26.—Russian troops have captured 4,000 Turkish troops, an enormous quantity of war munitions and many machine guns near Erzerum, according to newspaper dispatches from Petrograd.

THE JAPANESE DEMAND ON CHINA RENEWED

Note Believed to Contain Seven Matters Left Unsettled by 1915 Treaty.

HAD CAUSED TROUBLE BEFORE

London, Jan. 26.—The Japanese government has delivered to the Chinese minister at Tokio for transmission to his government a note embodying seven demands which were included in the Japanese program of last spring the Manchester Guardian learns from far eastern sources.

Original Demands.

On January 18, 1915, Japan presented to China a list of twenty-one demands arranged in five groups. The first group related to the Shantung province and to the conceding to Japan of rights and privileges previously enjoyed by Germany in Shantung as well as new prerogatives. Group 2 related to South Manchuria and to concessions there for leasing of property, trading, railroad operation and construction, the appointment of Japanese as political, financial and military advisers, and other concessions. This group also included demands for special rights to be granted to Japan regarding inner Mongolia. Group 3 referred to the Hanyeh-Ping company. Group 4, which is known as the "special group," demanded that China proclaim that hereafter she would not yield or lease any coastal territory to any power.

Group 5, known as the "general group," was the one which aroused most vigorous protests from the Chinese government. It contained seven articles, the first regarding the employment by China of Japanese as advisers; the second, the construction of Japanese hospitals, churches and schools in China; third, the employment of Japanese in the police department in the large centers; fourth, China to purchase a certain proportion of war munitions from Japan; fifth, Japan's right to construct certain railroads in China; sixth, concessions to Japan in the province of Fukien, and seventh, the right of Japanese subjects to propagate Buddhism in China.

Note From United States.

The United States government addressed a note to Japan with regard to the demands made upon China, querying in particular with respect to three points: The selection of foreign advisers by China, the purchase of war munitions and the question of foreign loans. The Japanese government replied to the note on March 22.

On May 25 two treaties between Japan and China, together with thirteen notes, were signed in the Chinese foreign office, covering, it was announced, the practical conclusions reached on the Japanese demands of which, however, five articles were left for ulterior argument. It was understood at the time that the articles for consideration were those of group 5. The articles in this group were originally seven in number, but it was later stated that article 3 had been eliminated and that article 6 had been displaced by pledges that China would undertake no military or naval preparations, nor authorize foreigners to undertake such preparations, on the Fukien coast in the future. It is possible that the seven demands alluded to in the Manchester Guardian's article were the original seven of group 5.

When baby suffers with eczema or some itching skin trouble, use Doan's Ointment. A little of it goes a long way and it is safe for children. 50c

IN PLATTSMOUTH FORTY YEARS AGO.

Left Plattsburgh for the southern part of the county. Cold, raw, east wind, very uncomfortable March weather. Arrived at the fine farm of Jas. A. Walker's, one of Cass county's best farmers, about 11 a. m. Found our genial county treasurer putting a force pump of the most approved pattern in Mr. Walker's well. Pump was put in good working order, to the great satisfaction of Mr. Walker. Had a pleasant talk with Mr. and Mrs. Walker, who are as nicely fixed as they need wish; large comfortable house, good farm, barn and all the conveniences for farming by the most approved method.

He, like other farmers in the county, is considerably solicitous in regards to the grasshoppers, and looks anxiously for a solution of the problem, but is by no means discouraged; has already put in fifteen acres of wheat for the grasshoppers to eat, he says. I should judge he could stand the destruction of one crop without serious financial injury. After a bountiful dinner I started out and called next at the comfortable residence of Mr. Enos Berger; had a very pleasant chat with the family. Mr. Berger does not think much of the Herald; says it has too much space devoted to advertisements, but could not well do without it, notwithstanding. When I explained that many of the ads were new, and that we had commenced our new volume with an enlarged paper, he concluded it was about right if that was so. Mr. Berger thinks with some others that there is something peculiar in the working of President Hayes' civil service reform as shown in Omaha in the removal of Mr. Yost.

We then drove to the farm of Anderson Root, Esq. Mr. Root was away so I took in the Three Groves P. O. and returned to meet him in the evening. Mr. Root was one of our most enterprising farmers; is now feeding a splendid lot of steers, thirty-five in number, contracted to our townsman, Mr. C. Parmele, and to be delivered any time before the middle of May at the discretion of Mr. Parmele. We have seen no finer, or more thrifty lot of steers in the county. Mr. Root has also a fine lot of hogs running with the cattle, mainly Berkshires. I took a walk over the farm with the proprietor to view the grasshopper eggs which lay around indiscriminately. He does not sow any wheat this season, but puts in rye, oats and barley for small grain, and a large field of corn to feed cattle and hogs if the hoppers do not need it to carry them through. He has a fine bearing orchard from which he picked upwards of 200 bushels of apples last season, and increased it by planting four acres more from his own nursery last year. He has three fine springs on different portions of his farm convenient to every part, and is well fixed for stock raising. Altogether Mr. Root is a thrifty go-ahead farmer and bound to succeed. With many thanks to my host and hostess for their kind hospitality, I start on for new fields.

Monday: Cold but pleasant. Drove out southwest—called on the gardener at Eight Mile Grove, Mr. Otto Mutz. Notwithstanding the ravages of the hoppers last year he has still a fine lot of cabbage and a barrel of kraut left for those that want. Mr. Mutz is preparing to put in vegetables again this spring undismayed by the quantities of eggs in the ground last year by the locusts.

The annual school meetings are in session at Eight Mile Grove, and Centre choosing their officers for the coming year. I brought up at Mr. R. Childs' at Centre, and could not refuse his cordial invitation to turn in.

Tuesday: January has taken a jump ahead, and is giving us more rough weather—cold south wind with snow and sleet. A few words for the Centre, one of the proposed locations for the county seat. It is near the geographical center of the county, on high, slightly rolling prairie—the principal advantage at present, being that it is about equally distant from each corner of the county. The citizens propose to give an undivided half of a quarter section of land to the county for the location, and the equal center is said to be one mile south and west of the corner, but lies in a much less desirable place for the location of a town. The good people of Centre will in all probability have an opportunity to show up their advantages next fall.

Arrived at Weeping Water about 10 o'clock, found that burgh in a state of excitement over the arrest of some four or five thieves who had been committing depredations on the good citizens of that vicinity, appropriating spring seats, chickens, etc. Two more of the rascals got away, and the officers have been following them in Iowa, but did not succeed in coming up with them, learning that they were on their

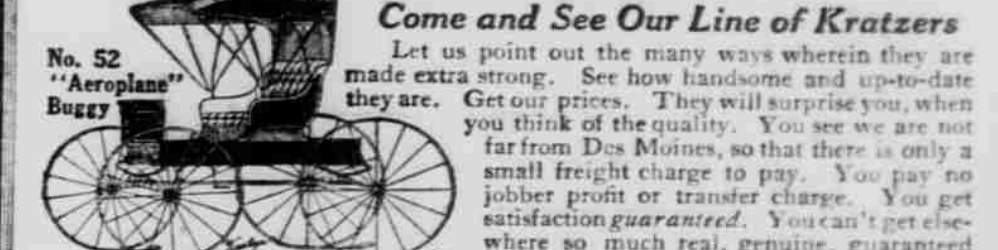

Kratzer Springs Make Rough Roads Seem Smooth

Made extra tough and extra flexible for middle west roads. ORDINARY springs aren't strong enough or flexible enough for the fierce bumps and ruts of middle west roads. Kratzer springs are made unusually strong and easy riding. It costs a lot extra to put Cambria steel into our springs. But it pays. You never hear of Kratzer Springs snapping, and they are the easiest riding of all.

Kratzer Vehicles Are Built for Western Roads

Eastern roads aren't as rough as ours. Eastern-made or cheap buggies aren't strong enough for heavy western roads and soon go to pieces. Kratzer buggies are made extra strong—by using best wood-stock and the special reinforced Kratzer construction. Many are still in use after 10, 15 and 20 years of service. They are the strongest, most comfortable and most beautiful vehicles money can buy.

G. P. EASTWOOD,

have made arrangements to secure them when they show themselves. The springs belonging to Mr. J. M. Beardsley were found. The portion of the gang caught have their trial at 1 o'clock today.

A Correct View.

Sir William Osler, the celebrated English physician, whose name often appears in public print, said the following: "The outlook in tuberculosis (consumption) depends much on the digestion. Bitter Tonics are often most satisfactory." This is, to our opinion, the most correct view and it should be the best advice to everybody to keep his digestive organs in full working order. The best bitter tonic is unquestionably Triner's American Elixir of Bitter Wine, made of California red wine and medical herbs. Treat the first symptoms, like: loss of appetite, distress after eating, constipation and its sequelae, pains in the stomach and the bowels, flatulence, nervousness, weakness, despondency. Use Triner's American Elixir of Bitter Wine. Price \$1.00. At drugstores, Jos. Triner, Manufacturer, 1336-1339 S. Ashland ave., Chicago.

Cold hands and feet are the result of poor circulation of the blood. They should be rubbed with Triner's Liniment from below upward. In rheumatism spread on gauze and apply to the seat of pain. Price 25c and 50c, postpaid 35c and 60c.

A. D. DESPAIN FILES FOR COUNTY ASSESSOR AGAIN

From Wednesday's Daily. A. D. Despain, assessor of Plattsburgh City, has filed with the county clerk his desire to try for the office of county assessor on the democratic ticket at the forthcoming primary on April 18th. Mr. Despain has been assessor here for the past few years and is a gentleman who has taken a great deal of interest in this work and should he be selected as assessor would doubtless give the people of the county good service in this office.
