Installs New Light Plant.

L. H. Puls, the rustling and enterprising Murray garage and electric light plant man, has just completed the installation of the new light plant in the fine farm residence of Louis Friedrich, eight miles northwest of Murray. This is one of the largest plants made by the Alamo people, and is sure a dandy, carrying a capacity sufficient to light every portion of the residence and all the outbuildings on the farm. The Alamo is the best system on the market, having specializing this line for several years, until they have it just about as near perfect as it is possible to make it. The light is the best, it is the safest, and is without a doubt the most convenient improvement that can be added to a farm equipment today. Mr. Puls has just completed the wiring the past few days, and the new plant is now in full operation on the Friedrich farm.

Silas Patterson Visiting Here.

Silas Patterson, who for a great many years was a resident of this section of Cass county, but now and for the past sixteen years a resident of Texas, has been here for the past few days visiting with what few of the real fellows of his days that are left, all of which is indeed a great deal of pleasure to him, but he is having the real sport at the home of Mr. and Mrs. J. A. Walker, where these old-time friends have been engaged in a series of "pitch," and at the present time, from all reports that we can gather around Murray, it is very difficult to tell just which one of them is going to come out of the battle victorious, for it is said that you cannot tell by talking to either of the contestants. These excellent old gentlemen are having a good time with their game and we do not suppose they consider it any person's business who wins.

Threshing Machine for Sale.

What has been known as the Maple Grove Thresher Co. have decided to dispose of their outfit, consisting of 20 H. P. Compound Reaves engine and 42x64 New Century Aultman & Taylor thresher and water tank and truck. This machine is all in running order for the field. The only reason for selling is that half of the members have left the company and wish to dispose of their interests, and the remaining members, realizing the situation, decided to sell the outfit. For prices and particulars, phone or call on Fred Lutz, Phone No. 2214; L. H. Young or Puls & Gansemer store, Murray, Neb.

Undergoes Serious Operation.

Robert Kirkpatrick, who has been sick for some time suffering with stomach trouble, was taken to Omaha Monday evening of this week, where he was placed in the hospital and operated upon for perforations of the stomach, caused from ulcerations of the stomach. He was accompanied by Dr. G. H. Gilmore. The operation was a very serious one, and was pronounced successful, and the patient was at last reports resting very quietly, considering the conditions.

Vaudeville and Moving Pictures.

There has been a vaudeville and moving picture show company holding form at the Puls & Gansemer hall all this week. They are a good company, and while there are only four people in the company they are giving excellent satisfaction and the attendance is increasing each night. The last three nights of the admission tickets. They put on a good, clean show and are deserving of good patronage.

Moving to Pitman Farm, Near Union.

Gus Minniear and family are moving to the Pitman farm, near Union, where they will make their future home. Mr. Minniear has resided here for several years, and has been one of the progressive farmers of this community, and in moving farther south Mr. Minniear says he does not fear but what the crops, with the same conditions, will be just as good and the yield just as great for him as ever.

Combination Public Sale February 22.

Charles L. Creamer and D. A. Young were in Plattsmouth Tuesday of this week, and were callers at the Journal office looking after the advertising of their combination public sale that will be held on Tuesday, February 22. Both of these gentlemen have decided to quit farming and are offering all their personal property to the highest bidder. You will find their sale ad in another column of the Journal this week.

For Sale.

Good span mares, weight 2,900 lbs. Inquire of J. E. Tusy, or Phone No. 207-W.

A few men still treat their wives as they did before they were married. They make Valentine's Day an occasion to give her something she wants very much but hasn't bought because it wasn't absolutely necessary. Your range may not be entirely gone. Perhaps it would hold together a while longer, but isn't the comfort, convenience and pleasure of the woman who uses it to be considered? Why not make this Valentine's Day a day long to be happily remembered by giving her a

Here are some of the disagreeable things that the user of a MONARCH RANGE is freed from—

Blackening Top or Body

A MONARCH Top is polished and turned permanently blue black by the MIRCRO-PROCESS—the body is Polished Plate too.

Scouring Sooted and Blacking Crusted Pots and Kettles.

The Malleable Top of a MONARCH RANGE heats so quickly that nothing is gained by setting vessels into the top holes—Then there's no blacking to burn onto them.

Clouds of Ash Dust When Shaking the Fire.

The ash pit door and draft door fit tight.

Baking Failure through the fault of the range.

The air tight construction of the MONARCH oven and flues assures perfect work—always.

When you give her the new MONARCH you don't need to mention that it was really a saving proposition! It's the truth that a MONARCH will use so much less fuel that it will save enough to pay for itself in a year or so—all because of the Malleable Airtight Construction.
