PRESIDENT WILSON URGING HASTE ON PREPAREDNESS

House Committee Inclined to Comply, But Not Along Lines of Secretary Garrison's Continental Army.

Washington, Feb. 9.—With President Wilson urging both democratic and republican members of the house military committee to hasten preparation of bills to carry out the army's part in the national preparedness scheme, indications tonight were that the measure might be ready for the house within two weeks. Hearings will come to a close tomorrow or next day, and it is understood the main features of the bills already have been whipped into the shape in which it is expected they will receive virtually the unanimous approval of the committee. The senate committee already has concluded its hearings on army bills and will take up the work of drafting its proposals for the senate early next week.

The bills of the two houses, it is expected, will differ radically and the final legislation will be worked out as a compromise in conference.

Progress on Navy Legislation.
Progress was made today on navy legislation, the measures paving the way for construction of battleships 43 and 44 at navy yards and providing for 300 additional midshipmen in the July class at Annapolis, being passed by the senate. They passed the house today and lack only the president's signature to become law. Speaker Clark, in line with his recent speech in the house advocating that the personnel at both Annapolis and West Point be doubled, introduced a bill to make such an increase in the number of cadets at the military academy.

Chairman Hay of the house military committee and several of his democratic colleagues discussed army plans with President Wilson during the day at the president's suggestion.

Tomorrow Representative Kahn, the ranking republican member, with others of the minority, will go to the White house on the same errand.

It was evident in later proceedings of the committee that Representative Hay had not been swayed from his opposition to Secretary Garrison's proposal for a continental army, which the president advocated during his recent preparedness campaign trip to the middle west. A witness before the committee said he was opposed to the continental plan.

"So am I," Mr. Hay interjected. "We all are."

Bill to Be Written Quickly.
Democrats and republicans of the committee agreed tonight in saying that an army bill would be written quickly, although there might be minor details which would take considerable debate to settle. The feature of the house bill, it was said, would be federalization of the national guard through a pay bill carrying limitations designed to give the war department peace time control of training and officering of the national guard.

Adjutant General Foster, of the Florida national guard, chairman of the executive committee of the National Guard association, again was in Washington tonight, and it was understood he would be further consulted in order that the bill might be made acceptable to the state troops.

This heater will burn any kind of fuel—hard or soft coal, wood chips or cobs. All the fire is entirely under water.

Bestor & Swatek

PETITION TO ALLOW COASTING ON MAIN ST.

A petition has been circulated by a number of those interested in the coasting on High School Hill for permission to allow the coasters to slide on any night of the week, and as a result all of the property owners along the route of the coasters signed the petition and there does not seem to be any serious opposition to the use of the High School Hill and Main street in the evening for coasting, although those who coast are expected to see that the intersections are guarded so as to prevent accidents from teams crossing the streets while the sleds are coming down the hill and to prevent the coasters from taking too great chances in their sport, and if this is looked after properly everything seems to give promise of being lovely and satisfactory to everyone.

L. M. L. A. Notice!

All members are urgently requested to be present at the regular meeting Thursday evening, February 10th, as there is important business to be transacted.

Old-Fashioned Spelling School.

There will be an "Old-Fashioned Spelling School" and Box Social held at the Eight Mile Grove school, District No. 25, on Saturday evening, February 12th. Everyone is cordially invited. Spelling will begin at 8 o'clock. The ladies are requested to bring boxes and the gentlemen the coin. Mae Barker, Teacher.

THE LATE MRS. MARY E. WHITE LAID AT REST

The funeral of the late Mrs. Mary E. White was held yesterday afternoon from the late home on Lincoln avenue and was attended by a large number of the friends and neighbors of the deceased lady and members of the Woodman Circle, of which she was a member. The services were in charge of Rev. H. G. McClusky of the First Presbyterian church, who spoke words of comfort to the sorrowing family and the grief-stricken friends, and at the close of the service the body was conveyed to Oak Hill cemetery, where it was laid to rest. The family of the departed lady have the deepest sympathy of the community in their loss.

Principal Eggenberger to Hospital.

Principal A. O. Eggenberger of the Plattsmouth High school, who was injured a few days ago by falling on the sidewalk near his residence, seems to have injured himself more severely than was at first supposed and his accident has brought on what seems to be a case of appendicitis, as the strain is supposed to have led to this complication. It is not known just what will be necessary in the case until after a thorough examination of the injured man is made at the hospital.

Cook with Gas—the best and cheapest at all times. Nebraska Lighting Co. will tell you about it.

OPERATION ON SKULL RESTORES MEMORY

Frank Bender of Lincoln Is Normal Mentally After Nineteen Years With Clouded Brain.

Lincoln, Feb. 9.—Frank Bender, 1311 South Eleventh street, this city, was restored to memory here yesterday, after a lapse of nineteen years, by an operation on the brain.

Nineteen years ago Bender fell against a stove and fractured his skull. Since then he has acted strangely and for a time disappeared from his home, awakening only to find himself in a strange city. His family had conducted a nation-wide search for him.

Two physicians last week operated upon Bender's skull. Yesterday at the hospital he told all about his childhood, which up until the time of the operation had been a blank. Bender's eyesight had also been impaired by the accident, but now he is able to read with comfort.

Last September Bender disappeared from his home in Lincoln for a few days and was later found by the Omaha police wandering about that city.

FIRE AT COLUMBIAN SCHOOL BUILDING THIS MORNING

This morning shortly before 7 o'clock the residents of the city were startled by the notes of the fire whistle, which aroused a great many from their slumbers to discover that the alarm was turned in from the Columbian school, but fortunately the damage did to the building was slight and the prompt work of those residing in that vicinity succeeded in getting the flames out in a short time. The fire was caused, it is thought, by a spark from the chimney alighting on the roof and causing the blaze to burst forth. It was very fortunate for the city that the blaze was discovered when it was before serious damage was done to the building.

Fred Kaffenberger Returns.

Last evening Fred Kaffenberger came home from Omaha, where he has been for the last week taking treatment at one of the hospitals for an affliction of the throat which has been giving him a great deal of trouble of late, and he will remain at home for a short time resting preparatory to having an operation performed on his throat.
