President Hayes and Registrar Overholt left Saturday for Dayne, where they are in attendance at a meeting of the state board of education.

Dean E. L. Rouse was in Lincoln the first of the week, where he attended the mid-year commencement exercises of the university. His son, Phil, is a member of the class, graduating from the engineering and agricultural courses.

A large and appreciative audience heard Peter McQueen Saturday evening in his illustrated lecture on the European war. Mr. McQueen is a member of the Royal Geographical Society and has traveled extensively. He was four months with the English army at the front during the campaign in Belgium. Mr. McQueen exhibited splendid views of the countries engaged in the war, portraying their strength, resources, equipment and achievements rather than the bloody scenes of the battlefields. His concluding statement was to the effect that this war should result in disamament of all nations in order that such a disaster would not recur. This is the last number of the lecture course, which has comprised a goodly number of splendid attractions.

Arrangements have been completed making it possible for Peru people to see "The Birth of a Nation" in Nebraska City Saturday afternoon. A special train will go from Peru, arriving in Nebraska City in time for the matinee performance and returning in the evening. About three hundred and fifty students and faculty members have asked for reservations.

Last Wednesday evening the Peru basketball team won two more games. The reserves played Nebraska City High school, and won easily by a score of 34 to 21. The second game resulted in a long anticipated victory from Kearney normal. The game was clean and fast from start to finish and was characterized by many unsuccessful attempts at goal shooting by both teams. The final score was 24 to 10. Peru has not yet lost a game this season.

Dean Mattie Cook Ellis gave a short talk on Wednesday morning at the chapel period on her impressions of the south. Miss Ellis had the novel experience of leaving Nebraska during the severest winter weather to spend four days in southern Florida amid blooming flowers and ripening fruit.

Matter is being assembled in the president's office for the annual summer school announcement and bulletin. Professor Brown, the new head of the department of rural education, is to be among the instructors.

Andrew Stohman, one of our popular young farmer friends, says that the time to enjoy life is while living it. The other day he sprung himself for a Ford and a new Hospe piano. He says he would have been able to have provided his family with these two necessities some years ago had he not been roped in on a land deal. But all things come to the Nebraska farmer who is willing to work and wait.

The large red timber squirrels are very numerous this year. They may be seen scampering around. Willard Clapp says that they are so numerous at his place that they have been making big inroads on his corn crop which is located close to the timber. He says the instinct for carrying food seems to have become overdeveloped and they seem to be at the corn all the time just to be doing something. These squirrels are fine ones and have been greatly admired.

## ROOT IS CALLED UPON TO EXPLAIN

Senator Lewis Delivers First of Attacks on Republican Keynote Address.

If by "Action He Did Not Mean War," Democrats Tell Him to Speak Out.

Washington, Feb. 20.—The first of a series of challenges to republican senator, to declare whether they favor intervention in Mexico and war with Germany, was delivered yesterday afternoon by Senator Lewis. A second will come early next week from Chairman Stone of the foreign relations committee. Senator Williams probably will make a third.

The democratic plan is to take the text of the Root speech, with its assault on President Wilson's foreign politics; accept it as the republican keynote, and challenge the republicans to state just what they would do if in power.

Lewis bore down on the argument that for the United States to have done other than write notes to Germany would have meant "war" and that "action," following notes, in Mexico, must inevitably have meant intervention.

Seek a Program. The democratic plan is to force the republicans to put up a definite program of foreign policy. Heretofore, they say, the republicans have enjoyed themselves attacking the policies of President Wilson without telling what they would do if in his place.

As the democratic orators will read the case, sixteen years of republican administration have left the army and navy of the country in such a position that it dare not appeal to arms, even if the sentiment of the country seemed for action.

Lewis' speech was made on a short notice after a talk with Senator Stone. "Hypocrisy of Statesmanship," was its theme. "Uncalled for and lacking in sympathy," he termed the Root attack on Wilson.

"He would use Mexico and Germany as steps toward republican success in the next election," he declared. "Why this change now; why this hypocrisy of statesmanship?" he asked, after reviewing Root's senatorial record, saying it showed he had previously disapproved of Mexican intervention in behalf of "fatherless children and women who will mourn."

Let Him Speak Out. "As to Germany," Lewis said, "Root said we need a president who'll appeal to something else than words. Is only war possible? Let him declare the campaign boldly. If he plans to elect a republican president under covert purposes of war against Germany, let him say so. What new campaign fund sources are opening to our republican friends? What interests have they found who want war against Germany? War now, when sixteen years of republican rule have left us with no navy, no army—when we could not defend ourselves for twenty-four hours if our republican friends are right?"

In defense of Root, Senator Smoot denied the former ever obstructed action in defense of American honor. Root must have been doubtful, however, he said, as to the advisability of persecuting Huerta.

## CULLOM SOCIAL CLUB TENDERS A FAREWELL TO THE KEIL FAMILY

The Cullom Social club surprised and gave a delightful farewell party for Henry Keil and family, who are moving to South Dakota this spring to make their future home. The merry company enjoyed themselves throughout the evening and until a late hour with music, dancing and social games, interspersed with lively conversational chat, and as to swinging on the gate, all the youngsters had to admit that the old-timers had in reserve an unusually large amount of pep and vim. To merely say that all present had a good time would be superfluous, as the occasion was a howling success from beginning to end. Varied and delightful refreshments were served from time to time and all agreed Mr. and Mrs. Keil were the best of entertainers. Those invited to be present were: A. B. Forroff and family, Julius Helficker, Louis Keil and family, W. H. Seybert and family, August Keil and family, W. J. Hicks and family, Charles Keil and family, Frank Blotzer and family, P. H.
