

New Styles!

The following is an extract from one of the leading style journals:

"Fashions for Spring, while not indicative of any radical change, are extraordinarily interesting. The prevailing style features of the winter modes have been developed and improved rather than any attempt having been made to introduce changes of an unusual character.

"Taffeta, in both plain and fancy effects, is the most popular material for Spring. It is shown in stripes, plaids and in pompadour effects. The combining of silks with sheer materials is an important factor in dress fashions for immediate and future wear."

For Spring Dresses and Costumes,

our showing of Taffetas in plaids, stripes and plain colors, is all you could wish for in making a selection. These are all yard wide and are of the soft Chiffon finish. Chiffons and Georgette Crepes to match Taffetas and Silk Poppins, for the making of sleeves, vest effects and over-drapes.

The **McCALL FASHIONS** are the last word in good styles. The new Spring Quarterly, (just out) is simply filled from cover to cover with chic styles for every one.

TRY Plattsmouth First!

We are making a special effort for the 1916 Spring Season, just opening, and will greatly appreciate your visit to our sales room, whether you buy or not.

I—We are very fortunate in securing the services of Miss Murphy, of Chicago, for our Designer. Miss Murphy comes to us very highly recommended from the Gage Brothers Co. of Chicago, makers of the famous Gage Hat. We will show a complete line of Gage Hats.

II—We have been very fortunate in our buying for the new season. In the past few weeks there has been a marked advance in the price of Hat Frames, Silks, Ribbons, Trimmings, etc., as much as 33 1-3 per cent. Our orders were placed before this advance in price, and our goods will be sold at our customary low prices.

III—We have bought a much larger stock this year than usual, and will show, in addition to the Gage Hat, others equally good, such as the Knox Hat, the Edco Hat and the Edson Kieth Hat. We consider these lines the best money can buy, regardless of price.

SAYS ZEPPELINS MAY FLY TO U. S. FOR FOOD CARGO

WAR MAY LAST FIVE YEARS

Spain, Holland, Sweden and Rumania May Be Drawn Into It, Is Said.

WESTERN ARMY IS IN PERIL

Berlin, Feb. 23.—A great fleet of Zeppelins, flying to America and bringing food back to Germany, is a possibility if this war lasts several years longer, an authority on aeronautics declared today.

"Seems like a dream," he said, "but a war that has seen submarines go from Wilhelshaven to Constantinople and Zeppelins and aeroplanes play unexpected roles may see even more startling developments in three or five years.

"The fact that this possibility is being discussed is evidence of the realization here that this war between England and Germany is to be decisive, if not a battle to exhaustion. In this final fight Germany expects to win, if necessary, by bringing into play all the inventive powers that have stood her in such good stead."

Attack Through Holland Possible.

German critics are speculating on what would happen if the English threw an army into Holland and marched against Aix La Chappelle to trap the German army in Belgium. Holland has just voted new credits for the defense of her neutrality.

Rumors that Sweden plans to attack Russia if the war becomes one of exhaustion have been circulated here for months.

Reports that Spain has been buying munitions in America have also aroused public interest in Spain's ambition to conquer Gibraltar.

Rumania Favors Allies.

Rumania is the unsolved puzzle of the Balkans. At present she is controlled almost entirely by England's heavy purchases of Rumanian grain.

SUDDEN DEATH OF HENRY WALLACE

Editor of Big Farm Paper and Rural Life Leader Drops Dead in Church.

Des Moines, Ia., Feb. 23.—Henry Wallace, 80 years old, publisher of a farm journal here, and a member of the Roosevelt country life commission, dropped dead in the First Methodist church here last night while attending a meeting of the Iowa laymen's missionary movement. Death was without warning and is believed to have resulted from heart disease.

Mr. Wallace was a native of Pennsylvania. He entered the ministry in 1862 and the following year accepted a joint pastorate at Davenport and Rock Island. In 1880 ill-health forced him to retire from the ministry, and he took up farming.

In 1883 he was made editor of a farm publication here, and in 1895, with his three sons, he established the agricultural paper of which he was the head until his death.

Avoca Girls Tomorrow.

The Avoca girls' basket ball team will be here tomorrow evening to take on the Plattsmouth High school girls' team in a lively game at the Crystal Star roller skating rink. The Avoca team is a good, fast organization and one that will give our young ladies a run for their money, and the game should be a most interesting one for the lovers of the sport of basket ball. The girls have been somewhat overshadowed by the regular High school team, but deserve a good crowd and encouragement in their efforts to see that Plattsmouth schools are properly represented. Turn out and aid a good cause by being present at the game.

RUSSIANS WINNING ON EASTERN FRONT

Take Trenches at Two Points, Repulse Attacks and Explode Land Mines.

Petrograd, Feb. 23.—Slavs have won skirmishes with the Austro-Germans on nearly every sector of the front from the Baltic sea to Rumania. "Along the Riga and Divina front is German aviators dropped bombs," said the war office today. "Violent artillery actions occurred along the Divina and near Jacobstadt, Orteg and Ilukst.

"Northwest of Lawe Sventen, one of our regiments annihilated the occupants of a German trench—150 men and two officers. Our forces repulsed a counter attack and returned to their own lines, taking many prisoners.

Near Smorgen we penetrated enemy entanglements, bayoneted trench occupants and forcing other to flee.

"On the upper Strypa the Austrians were repulsed with heavy losses.

"Near Buczacz, Galicia, an enemy aeroplane dropped flaming rags without effect.

"We exploded mines successfully northeast of Czernowitz, destroying Austrian positions and occupying the mine craters."
