REPUBLICAN PAPERS ARE OUT FOR NEVILLE

North Platte Daily and Weekly Telegraph Commends Democratic Candidate.

Editor of Semi-Weekly Tribune Also Declares for Him, Regardless of Politics.

North Platte, Neb., March 1.—Under the heading, "A True Index," the North Platte Daily and Weekly Telegraph, published today an editorial announcing its intention to support Keith Neville for governor.

The Telegraph is a republican paper, but Editor Kelly declares his intention to break party bonds "when a man of the stamp of Mr. Neville seeks election to the highest office in the state."

J. L. Bare, editor of the Semi-Weekly Tribune, also a republican, likewise favors Neville's candidacy.

"We know Mr. Neville and we are proud of him," he said. "We know that the people of Nebraska will have reason to be proud of him if they elect him governor. I intend to support him in every way that I can."

Following is the Telegraph editorial: "The declaration of principles made public by Keith Neville, North Platte candidate for the democratic nomination for governor, will unquestionably go down in the history of the state as one of the shortest, most concise, clear-cut statements ever given by a candidate in placing his views before the voters.

"The statement offers itself as the very best possible index to the character of the man who is seeking the democratic nomination for the office of chief executive. It is short, sharp and to the point. There is no beating around the bush, no equivocation or reservation in the short, plain sentences in which he makes known his stand on the various questions confronting the state of Nebraska. And as the statement is plain spoken, so is the candidate. Mr. Neville is a man who takes a stand on a question and then is ready to go to the front and fight for his principles. What he believes is right he will do battle for until his cause is crowned by victory or has gone down to irrevocable defeat.

"Mr. Neville is not a radical, but progressive democrat. He believes in the principles propounded by the leaders of the democratic party. But he is in no sense a hidebound party man and is as ready to voice his differences—if differences there be—with the democratic platform makers as with the leaders of the opposition party. He is not a politician seeking office, but a plain, straightforward business man asking the support of his party in gaining a place where he can be of the most assistance to his fellow Nebraskans. Mr. Neville is a western man—of the west and for the west. He understands the problems that confront the farmer of western Nebraska, and if he is elected to office will unquestionably do all within his power to place upon the statute book those laws which will be of the most assistance to the western farmer, rancher and business man.

"The Telegraph has in the main believed in and advocated the principles enunciated in the doctrine of the republican party. Mr. Neville is a democrat. But when a man of the stamp of Mr. Neville seeks election to the highest office in the state, we are willing to eliminate party distinctions and bring to bear whatever influences we may exercise to obtain his nomination and election."

ALTAR SOCIETY OF ST. JOHN'S CHURCH MEETS WITH MRS. LORENZ

Yesterday afternoon the ladies of the St. John's Altar society with a number of their friends were entertained in a most hospitable manner at the beautiful home of Mrs. L. W. Lorenz by Mrs. Lorenz and Miss Teresa Hemple, and the occasion proved one of the most delightful that this society has enjoyed for some time. The ladies enjoyed the afternoon in visiting and enjoying a pleasant social time as well as in the pleasures of a program of exceptional worth. Mrs. Eugene Setz favored the ladies with several vocal and instrumental numbers as well as a reading which, given in the usual pleasing way, captivated her auditors. Miss Agnes Knoficek, the talented violinist, favored the company with a beautiful number which was much appreciated. Her sister, Miss Mary, acted as accompanist for this pleasing selection. Misses Verma Cole and Mildred Schlatter gave two very delightful piano numbers, as did Miss Alice Lorenz, and these three talented ladies in their offerings proved most delightful. Miss Genevieve Whelan added to the worth of the program with a violin number which aided in making the program one of the rarest enjoyment. During the afternoon the serving of dainty refreshments added to the pleasures of those in attendance. As a result of the entertainment the society realized the sum of \$13.15.

ALBINA LEADER CONFIDENT DEFEAT COMING TO AUSTRIANS

Rome, Feb. 28.—(Via Paris, Feb. 29.—Delayed.)—Essad Pasha, who has come to Rome on a brief visit to discuss plans for the campaign to be undertaken against the Austrian and Bulgarian forces in northern Albania, said in an interview today that he is decidedly optimistic regarding the final outcome of the struggle in Albania.

"The partial occupation of Albania by Austria should she attempt to continue it, is bound to result in military and moral disaster to her," he said. "She will have an army operating in a region which offers no resources and where that army will be constantly threatened by the Italian and Albanian forces which from the formidable base of Avlona will undertake to envelop the Austrians and to cut off the retreat of General Koewess' troops."

Essad Pasha concluded the interview by saying that the Adriatic must become an Italo-Albania sea.

ELECTRIC LIGHT AND TELEPHONE POLES IN WAY OF BEAUTIFYING STREETS

Those who have made trips along the streets where the curb and gutter work has been completed have all remarked on the possibilities that lay in making these streets an object of beauty by a little effort, such as setting out trees and planting grass plots along in the spaces between the curb and the sidewalk. This is particularly true of the High School Hill, where such a plan of decorative landscape gardening would be more effective in adding to the beauty of the city. One of the handicaps that has confronted the property owners on Main street is the fact that the electric light poles and wires run along the street in a fashion that tends to mar the evenness and general contour of the appearance of the street. Those who reside in that section of the city feel that if the poles and wires were placed in the alleyways it would add very much to the efforts of the citizensto make the street one of beauty.
