First Base Ball Game at the Park

Next Sunday

On next Sunday the first ball game of the season will be played at the Red Sox park with the Emil Hansons and the Sox as the contending parties.

The Red Sox will have Bob Greko back on the mound for the opening game and from all reports Bob has a splendid season in prospect as his arm is working with all its old time skill and he feels that he will be able to deliver the goods for the locals. Will Fahnestock, the fast Avoca shortstop, will be here to take part in the game, as will Huff, who will fill one of the positions in the infield. The Hanson team will be the best it has been in the last few years and should give the Sox a run for their money. If the weather continues as it has for the last few days it would be ideal base ball weather and bring out the fans to decorate the bleachers and grandstand and see the Sox start on another victorious season. All of the stars of last year's team will be in the line up and the new additions make the team look mighty strong if they play anywhere near to form. The game will commence at 3 o'clock.
