COPYRIGHT 1915

The Corset for Every Figure. Our Prices from \$1.00 to \$3.00

H. M. SOENNICHSEN,

The Daylight Store, : : : : : Phone 54 and 53

To the Voters of Cass county, I wish to say that in the primary election tomorrow I am a candidate for the office of Clerk of the District Court. I am asking for the suffrage of the people, fully believing that I am qualified for the position for which I am asking. Should I be nominated and elected, I shall endeavor to render the best service to the public possible. To those who may support me, I am thanking for the same. I am very truly,
M. S. Briggs.

FINE MILLINERY OFFERING FOR THE LADIES

This afternoon Mrs. Emma Pease and Miss Murphy, the trimmer at the Pease millinery store, returned from Omaha where they have been for the past few days engaged in looking after the purchase of additional lines for the big Easter millinery offering that is to be afforded the ladies of Plattsmouth. The line secured by these ladies embraces some of the latest models of the celebrated Gage Brothers' hats trimmed with all the beautiful and attractive styles of the spring season and which will be an opportunity seldom offered to the ladies of this city. All the latest designs in hats as well as trimmings have been secured for the trade here by Mrs. Pease and a trip to the store between now and Sunday will reveal the beautiful designs and models in the hat line.

NOTICE OF APPLICATION FOR LIQUOR LICENSE

In the Matter of the Application of Henry H. Weideman for Liquor License:
This is to certify that Henry H. Weideman, of the Village of Greenwood, Cass county, Nebraska, filed a petition in the office of the village clerk on April 8, 1916, as required by the statutes of the State of Nebraska and the ordinances of the Village of Greenwood, to sell malt, spirituous and vinous liquors for the coming municipal year, in the building situated on lot No. 277, fronting on Second street, in said village.
C. E. CALFEE,
Village Clerk.
April 8, 1916.

A Strong Candidate.

From Friday's Daily.
The democrats have every reason to feel proud of the fact that they have a candidate for sheriff who is amply able to fill the office and one upon whom they can rely. This is none other than J. G. Wunderlich. Mr. Wunderlich has lived in the county a good many years, made the campaign at the last election and is well known to all. You know that he will make good, that he is the man for the office of sheriff, and the democrats owe it to themselves to make him their choice of candidates before the fall election. Support Wunderlich for sheriff.—Elmwood Leader-Echo.

RESIDENCE FOR SALE

My residence and three lots on North Fifth street for sale at a bargain, if taken at once. Eight rooms and bath room. Hot water furnace, gas and electric light, hot and cold water and two large rooms in cellar with cement floors. A modern house in every respect.
Frame shingle roof garage or laundry house on premises.
This house has been recently remodeled and painted and is in good condition. This is a comfortable home for some one and only two blocks from the post office.
Inquire of Allen J. Beeson at court house or at residence.
ALLEN J. BEESON.

Spring.

Spring is looked upon by many as the most delightful season of the year but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere.

GRASS IS NOW COMING TO THE FRONT RAPIDLY

The spring rains and the warming weather conditions which have woeed back the green of the grass and the leafing trees, has also brought forth the old time dandelion which has been the pest and curse of the owner of many a well kept lawn. There are a number of spots in this city where the dandelions have practically taken over the entire lawns and only a small amount of the original grass has survived the invasion of the yellow blossoms which certainly have made the grass look sick. The best time to try and check the pest is at the commencement of the season when they first appear as if one of them goes to seed it means thousands of others will spring up to make life a burden for the householder who has been laboring to make his lawn an object of beauty and a joy to himself and his neighbors. War should be declared on the dandelion at once before this pest spreads to any greater extent that it has.

KNOCKED DOWN BY BULL, BREAKS ARM AGAINST POST

Saturday afternoon Fred Koranda, who is employed by Edward Donat as a driver, met with a rather painful accident as the result of an infuriated gentleman cow knocking him down and against a feed trough and breaking his left forearm just above the wrist. Mr. Koranda was trying to drive out some of the cattle in the feed lot at the Belehovy farm at the time and as the angry bull swept toward him he was thrown to one side and into the feed trough with the result that in an instant the arm was fractured. It was really fortunate that Mr. Koranda was not more severely injured by the cattle in the melee as he was in a very close quarters for a few minutes. After being able to get out of the feed lot safely Mr. Koranda hastened back to the city and had the injured member dressed and while it is healing will enjoy a rest from his duties at the Peerless.

VILLA'S DEAD BODY REPORTED TO BE FOUND

Madera and Cusihiuriachic Wire News That the Life of the Notorious Outlaw Is Ended.

NEWS VERIFIED BY OPERATORS

El Paso, Tex., April 17.—Mexican Commander Garcia announced Sunday that messages had been received from military headquarters at Madera and Cusihiuriachic, stating that the body of rancisco Villa was being brought into Cusihiuriachic and that it will be later taken to Chihuahua City.

Garcia said he had wired the military commander at Madera for confirmation. Neither telegraph operator stated in the messages where body of Villa was found.

Garcia announced he had received a message from San Antonio that a special train was being made up at that point to take the body of Villa to Chihuahua City. Garcia says the body is being brought to San Antonio by Carlos Carranza, nephew of General Carranza.

El Paso, Tex., April 17.—Francisco Villa is dead and his body, disinterred some days after his burial, is in possession of the Carranza troops, according to a series of telegraphic messages received in Juarez Sunday by the Mexican officials.

For more than a week reports that Villa had died from wounds have been current both here and in Juarez. The accounts of Sunday were the most circumstantial and apparently reliable yet received. They were accepted by American officials, including General Bell, with reserve, but the Mexican officials expressed confidence in their reliability. The messages, in the order in which they were received, were as follows:

"The dispatcher of the Mexican Northwestern railroad at Juarez reported to General Gabriel Gaviira, the Carranza commander at Juarez, that he had heard a conversation over the telegraph wires to the effect that Villa's body was in the hands of the Carranza troops.

"General Gaviira notified Consul Andres Garcia here, who rushed messages to the telegraph operators at Madera and Cusihiuriachic asking for confirmation.

"The Madera and Cusihiuriachic operators answered, confirming the report and stating that the body was being taken to Chihuahua City.

New Books For Circulation.

The Y. L. R. R. A. has just received their shipment of new books for the ensuing year, which are now ready for circulation. J. I. Case Power Driver Planter

{ No Clutch on the Drill Shaft }

The J. I. CASE POWER DRIVEN CORN PLANTER that has been making such a splendid record at demonstrations given in different parts of the country. Every farmer who has seen this implement in action speaks of its performance in the highest terms of praise.

This implement has become a great favorite with farmers for the following reasons:

1. It drops accurately.
2. It drills or checks equally well.
3. It has a quick and easy means of changing the number of grains in checking or the distance in drilling.
4. It is strong and durable.

In a recent series of tests, made with ungraded corn, (we shall be pleased to send you a circular illustrating and describing these tests in detail) this planter dropped 96 to 99 per cent accurate—surely a remarkable record. In these tests the drop was varied from 2 to 3 and 3 to 4 kernels in a hill.

NO CLUTCH ON DRILL SHAFT. There is no clutch on the drill shaft. The dropping mechanism is run by the slow-moving, main axle and is entirely idle between the hills. In other words this mechanism is in operation only when a hill is being dropped, which means about half the time, in planting 3 kernels to a hill, using 3-4" wire. The round hole plates, which are smoothly polished, insure accuracy of the drop, as is being conclusively proved in daily demonstration. The extra large plates revolve slowly, which insures the holes of being filled before reaching the dropping point. Special plates can be furnished to plant peas, beans or almost any kind of seeds.

The plates are made with small, medium, special and large holes of the round shape and medium holes of the oblong shape. To change the plates it is not necessary to remove the grain from the hopper—simply tie the hopper back and the change can be easily and quickly made.

IMPROVED CUT-OFF. An improved cut-off, which is set at an angle of 45 degrees, tends to dislodge one kernel if two are imperfectly imbedded in the cell. The light spring prevents cracking the corn and allows an offsize kernel to pass through to the dropping point. The cut-off is supplemented by an auxiliary guide finger, which lies flat on the plates and catches the kernels that have passed the cut-off and are not imbedded in the cell, and guides them back to the hopper.

The J. I. Case, Jr., Valuable Drop Lister!

THE J. I. CASE, JR., VARIABLE DROP LISTER, with variable drop from 13 to 24 inches: same drill and drop as the J. I. Case Planter above described. One of the very best on the market.

The Dodge Brothers Automobiles!

—\$785.00 f. o. b. Detroit—

The DODGE BROTHERS AUTOMOBILE is fully equipped, equal to the highest priced car in the reasonable priced class.
