Uncle John Schwartz, from down near Nehawka, has been in Cedar Creek for the past few days putting a coat of paint on all the buildings and fencing surrounding the Cedar Creek Lumber Co., which will add greatly to the appearance of the same.

Of course you have read the large ad in this issue of the Journal for the Cedar Creek Lumber Co. You could not help but see it, but we feel so proud over securing such a nice advertisement from Mr. Roberts that we cannot refrain from mentioning it in these columns.

W. C. and Louie Hennings are preparing to build large, new barns on their farms in the very near future, and the lumber for both structures was bought of the Cedar Creek Lumber company. The new barns will be of the very best in the way of convenience and for accommodating a large number of horses and feed.

While in Cedar Creek last Friday evening Uncle John Schwartz gave us a picture, a painting in water colors, painted by his little eight year old grandchild, Miss Pearl Chappel, and we must say that it was indeed a fine piece of work for one so young. The little lady is taking lessons in this line of work from Miss Evelyn Wolff, and she is certainly learning very rapidly.

IN CEDAR CREEK ONCE MORE.

It has been several months since the Journal man made a trip to the busy little berg of Cedar Creek, being housed up through the long winter months, but last Friday evening we broke loose and drove out there and spent a few moments with the rustling business men. We found them just about as busy as usual, although it was rather late in the evening. We found the village mayor and manager of the Cedar Creek Lumber company, Paul H. Roberts, just about as busy as any man would want to be, looking after his business matters, entertaining politicians and at the same time ready to spare a little time for the newspaper man. We believe that Cedar Creek can boast of one of the most conveniently arranged, best stocked and neatest lumber yards in the county. Mr. Roberts sure carries a large line of lumber and all building material, builders' hardware, paints, etc. He is enjoying a good business in all these lines and growing rapidly. Five cars of lumber were placed

in these yards during the past week. Over at the general store of Wolff & Ault we found Mr. Ault, and in his usual good natured way he gave us a few moments of his valuable time for visiting. The Wolff & Ault store is one of the busy places of Cedar Creek, always enjoying a good trade.

We also made a brief visit down at the store of Mrs. Ruth Thomsen, but found Mr. and Mrs. Thomsen at home, it being just at the supper hour. They are enjoying the usual good business that is given this store at all times.

Real Lumber Once More

'Member the kind lumber you used to get? 'Member hearing your dad tell about the kind he used to get? It stood the test of time and weather that lumber did. It didn't skrink, swell, twist, sag, crack or rot. And it fit properly even after years of exposure in closest mitres and delicate mouldings. That was because it was
