**FREDERICK LEWIS AND  
ETHEL GRAY TERRY  
IN "BOUGHT"**

**CAST:**

Horace Frambers... Frederick Lewis  
Helen Talbot... Ethel Gray Terry

Horace Frambers, an impecunious literary man, receives the following offer: Helen Talbot, daughter of a rich financier, has trusted her lover, not wisely but too well. She is about to become a mother. Her lover goes down on the "Titanic." If Frambers will marry Helen Talbot and save her name, he will receive \$10,000 and a position in Mr. Talbot's office.

Frambers marries Helen; and the child dies. Mr. Talbot gradually trusts and likes Frambers; but Helen despises her "bought" husband and intrigues with other men. So Frambers resigns his position and pays her back her \$10,000, deserts her and tells her to get a divorce.

Talbot's business is failing, and Frambers helps him recover it. Then Frambers returns to his room to die, as he thinks, but when he recovers from his illness he finds Helen by his side.

She loves him and they are made happy by a happiness that has not been "bought."

**SHE TOLD HER NEIGHBOR**

"I told a neighbor whose child had croup about Foley's Honey and Tar," writes Mrs. Rehkamp, 2404 Herman St., Covington, Ky. "When she gave it a couple doses she was so pleased with the change she didn't know what to say." This reliable remedy helps coughs, colds, croup and whooping cough. Sold everywhere.

**If you want plenty of  
POWER—economical  
power—this is the car!**

Isn't another SIX on the market at any price that begins to equal it for PERFORMANCE power. By that, we mean power that is so exactly adapted to the car, to its weight, to what it has to do on the roads that it's economical, not wasteful.

And it's that nice balance of POWER and ECONOMY that has made this new Studebaker SIX famous as the POWER Six of 1916. No other SIX within hundreds of dollars of its price gives as much power.

As a matter of fact, this new Studebaker motor is one of the most wonderful productions of the year from the efficiency side. Not a new and untried experiment—not a radical change—but simply a marvelous refinement of the Studebaker design that has been envolving for years. And it's a motor that is a pleasure to sit back of—with its flood of power flowing like liquid. Come in today and let us give a demonstration.

**IRISH LEADERS  
PUT TO DEATH  
IN LONDON**

'Provisional President' Pearse and "General" Connolly Are Two of Them.

London, May 4.—Four signatories to the republican proclamation in Ireland have been tried by court-martial, found guilty and were shot yesterday morning.

Patrick H. Pearse, the "provisional president of Ireland," was among the ones shot.

Another was James Connolly, who was styled "commandant general of the Irish republican army."

The other signatories found guilty and shot were Thomas L. Clark and Thomas McDonagh.

Three other signers of the proclamation were sentenced to three years' imprisonment.

Premier Asquith made an announcement to this effect in the house of commons yesterday afternoon.

Patrick Pearse was about 33 years old and was known in Ireland as an authority in Gaelic literature. He started in life as a barrister, but devoted most of his time to literature and educational pursuit. For some time he was editor of the Gaelic Journal in Dublin, and later founded St. Endas school, which he conducted up to the time of the Sinn Fein rebellion.

Pearse had many friends in the United States where he has lectured on Irish ideals and Gaelic literature, the proceeds of his lectures going to the support of his school.

The head of the Sinn Fein rebellion was the son of an Englishman, but was himself born and educated in Dublin. He was unmarried.

James Connolly lived for several years in New York, where he was active as a socialist leader and agitator.

**KEEPING UP TO THE MARK**

"Spring fever" is not always a joke. If you feel dull and sluggish, tired and worn out, suffer from backache or weak back, rheumatism, sore muscles, stiff joints or other indication of kidney trouble, it will pay you to investigate Foley Kidney Pills. They are highly recommended as prompt and efficient aids to health. Sold everywhere.

**Can You Afford Any but a Titan  
Kerosene Engine?**

AT present average prices for kerosene and gasoline, Titan kerosene engines save their owners about 1.1c. per horse power per hour over gasoline engines.

Figure it this way. On an 8-horse engine the saving is 8.8c. an hour, 88c. in a 10-hour day, \$88 in 100 days of work. Say that is all your engine does in a year.

It would cost you \$88 more than you need to pay, to run an 8-horse gasoline engine one year. That is more than a third of the price of the engine. Can you afford to throw away \$88 a year? Can you afford even to think of buying a gasoline engine, when you can get a Titan that uses kerosene? See the Titan dealer and talk this over. He has some interesting figures to show you.

International Harvester Company of America  
(Incorporated)

Titan kerosene engines are sold by
