

**PRINCE ALBERT**  
TOBACCO IS PREPARED FOR SMOKERS UNDER THE PROCESS DISCOVERED IN MAKING EXPERIMENTS TO PRODUCE THE MOST DELIGHTFUL AND WHOLESOME TOBACCO FOR CIGARETTE AND PIPE SMOKERS.  
PROCESS PATENTED JULY 30<sup>th</sup> 1907  
R. J. REYNOLDS TOBACCO COMPANY WINSTON SALEM, N. C. U. S. A.  
DOES NOT BITE THE TONGUE

**P. A. puts new joy into the sport of smoking!**

**YOU** may live to be 110 and never feel old enough to vote, but it's certain—sure you'll not know the joy and contentment of a friendly old jimmy pipe or a hand rolled cigarette unless you get on talking-terms with Prince Albert tobacco!

P. A. comes to you with a *real* reason for all the goodness and satisfaction it offers. It is made by a patented process that removes *bite and parch!* You can smoke it long and hard without a come-back! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Prince Albert affords the keenest pipe and cigarette enjoyment! And that flavor and fragrance and coolness is as good as that sounds. P. A. just answers the universal demand for tobacco without bite, parch or kick-back!

Introduction to Prince Albert isn't any harder than to walk into the nearest place that sells tobacco and ask for "a supply of P. A." You pay out a little change, to be sure, but it's the cheer-fullest investment you ever made!

**PRINCE ALBERT** *the national joy smoke*

**THE GREATEST ATHLETIC EVENT HELD IN YEARS**

Given by the Young Ladies of T. J. Sokal Society, and Attended by Many Young Ladies of Omaha.

One of the most largely attended athletic events that has been held in this city for some time was given yesterday at the T. J. Sokal hall in the west part of the city, when the young ladies of the turning society were the hostesses of a large delegation of the active turners of Omaha and the South Side, including several ladies' classes and a large number of the active men turners of the T. J. S. The greater part of the visitors arrived at 10 o'clock yesterday morning and were met at the Burlington station by a committee of the local organization and escorted to the hall on Fourteenth street, where the events were to be staged. In this delegation there were in the neighborhood of 125, and this was later added to by the arrivals at 1:15, making close to 200 from the metropolis who were present to take part in the pleasant event. The morning was spent largely in the arrangements for the drills and exhibitions, with the various teams running through their drills before the opening hour of the exhibition. The visitors had to a great extent come provided with their lunches, and enjoyed a fine picnic dinner at the hall, while for those who had not brought their dinner the ladies of the local turning society served a most pleasing dinner which was enjoyed to the utmost by everyone who took part.

The exercises in the afternoon were thoroughly enjoyable in every way and marked the recognition of the girls' class of the Sokals as a part of the Western division of active turning classes of the society. The members of the Plattsmouth girls' class were present on the stage in the main auditorium when President James Vejvoda of the local society extended the welcome of the Sokals to the visitors, and expressed their appreciation of the honor that had been tendered them. He then introduced Mayor John P. Sattler, who, in behalf of the city, welcomed the visitors and assured them of a hearty welcome to the metropolis of Cass county, and, as the mayor stated, "the best town in the United States," which statement was received with marked approval by the large crowd present.

Dr. Sedlock, one of the heads of the active turning department of the T. J. Sokal society in the United States, and who has recently returned from London, England, where he was in touch with the leaders of the athletic work in Bohemia, which has been greatly affected by the war conditions. He gave a short and very interesting address in regard to the work of the Sokals, which was received with great enthusiasm by the audience as he laid out the principles of the society. President Rokuusell of the Western division of the Sokals also spoke briefly on the athletic work of the society, and urged a greater interest in the work among the young men and women of the Bohemian nationality.

The drills and exercises which followed the speaking were all carried out in splendid shape by the different classes, and the organizations taking part deserve a great deal of praise for their skill and ability in the difficult and complicated exercises which they presented.

The dumb bell drills by the Omaha girls proved one of the most attractive of the exercises which were put on by the ladies' classes, and the members of the class proceeded to carry them out without a single bobble to mar the beauty of the exercises. The Plattsmouth girls' class also gave several very complicated and pleasing exercises, which were greeted with marked enthusiasm by the delighted audience. The active men's class of the local society gave a few exercises on the apparatus, including several which were very difficult in the extreme.

The event was one of much interest throughout and everyone in attendance felt well repaid for their time in attending and enjoying the few hours so pleasantly.

After the close of the athletic events, dancing was enjoyed for the rest of the afternoon and in the evening by the young people of the city and the visitors, the Holly orchestra furnishing the music, and the occasion proved very entertaining in the extreme. The visitors departed for Omaha at 7:45 last evening.

A want ad will bring what you want.

**FORMER PLATTSMOUTH CITIZEN HAS LIMB AMPUTATED**

A former Plattsmouth man, Edwin Bates, who for the past three years has been residing at Orting, Wash., since leaving this city, is at present in a hospital at Tacoma, Wash., where he was compelled to undergo the amputation of one of his lower limbs. Mr. Bates had the misfortune to cut his foot about two months ago while chopping wood. Medical assistance was called at once, and it was not thought very serious, but later blood poisoning set in and he was taken from his home to Tacoma and placed in a hospital there. He grew steadily worse in spite of all that could be done for him, and it was necessary to amputate the limb above the knee. Mr. Bates stood the operation remarkably well, considering his age and weakened condition before the operation was performed, and seems to be on the road to recovery. His many friends in this city will be relieved to learn of the misfortune of Mr. Bates and will join with his family in the hope that he will soon be well again.

**SHOE WEARERS MUST "PAY THE PRICE" NOW**

A side-effect of the far-away war that interests every man, woman and child is the announcement of the fact that shoes must this season advance in price.

The generally reported scarcity of leather and increased cost of tanning since the war, combined with an enormously increased demand for leather, all account for the advanced cost of footwear.

Millions of pairs of shoes for the European armies have been and still are being made by American shoe manufacturers. On the average, these army shoes consume one and one-half as much leather as the average American man's shoe.

Knapsacks, saddles, harnesses and other material for the armies at war and a general increase in equipment of the American army and state militia account for a still further demand on the supply of leather.

Munition plants have called for thousands of feet of leather belting and the general pigging up of business has started thousands of factories' wheels and greatly augmented the call for belting.

Autos have also made great and increasing inroads into the available leather supply for upholstering.

Leather is a by-product. The supply cannot be increased at will as crops and metals are, but is dependent on the hide supply; and cattle are not killed, primarily, for their hides.

The latest census reports show that the cattle population has decreased 29 per cent in the last ten years, and the population has increased the same percentage.

Shoes, therefore, are to be more expensive. It is said that the increase for the present will be about 20 per cent, but will likely be more by next fall.

**TWICE PROVEN**

If you suffer backache, sleepless nights, tired, dull days and distressing urinary disorders, don't experiment. Read this twice-told testimony. It's Plattsmouth evidence—doubly proven.

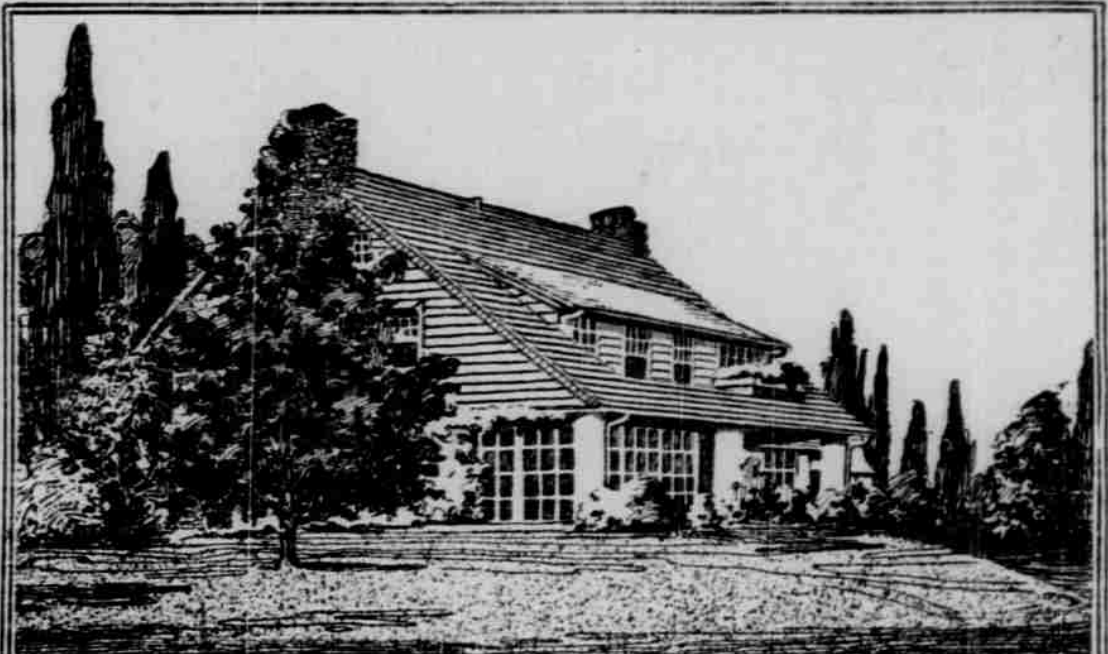

Ben Brooks, Main street, Plattsmouth, says: "As the result of a bad cold, it left me with a severe attack of kidney complaint. I had pain in my back and hips and at times it extended into my shoulder blades. I got completely past going and was laid up for two weeks. My head ached for hours at a time and I was subject to dizzy spells, during which my sight became blurred. Half a box of Doan's Kidney Pills checked these troubles, and after using two boxes, procured from Edward Rynott & Co.'s drug store, I began to regain my health." (Statement given April 10, 1912.)

On February 22, 1916, Mr. Brooks said: "I couldn't speak too highly of Doan's Kidney Pills, for it was this old, reliable medicine that fixed me up in fine shape when I was down with lumbago. I haven't had one of these attacks since."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brooks has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

**For Sale.**

My carriage and furniture wagon for sale. Can be seen at the Parmele livery barn. M. Hild.

**Home Builders**

Profit by the experience of three centuries of building in America—use for all exposed surfaces

**WHITE PINE**

King of structural woods. It does not shrink, swell, crack, twist, warp or rot. Once in place, it "stays put" after years of exposure, even in closest-fitting mitres and in delicate mouldings and carvings.

And it takes paint perfectly.

We carry at all times a complete and carefully selected stock of White Pine and all other desirable lumber. The safest way to buy building material is to visit our yards—see the stock before you pay for it—benefit by our personal service on the ground—and know you are getting full value for your money. Our reputation guarantees the quality of the goods.

Come in and talk over your building needs with us and let us assist you to satisfaction

**Cedar Creek Lumber Co.**

PAUL H. ROBERTS, Manager

LOUISVILLE. Courier.

A boy was born to Mr. and Mrs. Walter Hessenflow of Cedar Creek on Tuesday, May 16.

Gotlieb Sprieck of Stanton returned home Monday morning after a few days' visit here with relatives.

We regret to learn that Mrs. C. B. Smith is ill at her home in the south part of town, and trust that she will soon be able to be out again.

Tom Goble, who had been in a hospital at Omaha for several weeks, where he had an operation performed for the removal of a growth on his cheek, has returned home.

Mr. and Mrs. James Masters and Mrs. Henry Schoemann were Omaha visitors Monday, going up to consult a specialist, as both Mrs. Schoemann and Mrs. Masters have been in poor health for some time.

Mrs. G. E. Steele is in the Lord Lister hospital in Omaha, where she recently underwent an operation for liver trouble. She is getting along nicely and her friends hope she will soon be able to return home.

Manager Kahler of the Kahler Pottery company, accompanied by T. E. Parmele, one of the leading stockholders of the company, left last Saturday evening for Detroit to purchase additional equipment for the plant, which will increase the output.

Walter Stohlman and sister, Miss Martha Stohlman, and Mrs. S. C. Keckler left last Thursday morning for South Dakota, where they will visit Mrs. Keckler's parents, near Ipswich. Mr. Keckler will keep bachelor's hall during his wife's absence and the children will visit relatives near Manley.

Mrs. F. H. Ossenkov returned last Monday from Lincoln, where she was called two weeks ago on account of the illness of her sister, Miss Rose Rathbun. The latter underwent two serious operations for peritonitis, and for some time her recovery was doubtful, but her friends will be glad to learn that she is now on the road to recovery. She is in St. Elizabeth's hospital in Lincoln.

left for Springfield Wednesday, where they will visit before returning home.

A large petition was sent to the county commissioners this week, asking that Jesse Domingo be appointed justice of the peace to fill the vacancy caused by the resignation of R. G. Glover.

Mrs. Charles Philpot and granddaughter, Miss Alvie Philpot, left on Tuesday morning for an extended visit with relatives at Cozad, Scottsbluff and other points in the western part of the state.

Mrs. H. B. Wolcott and Miss Anna Hitchman returned Saturday evening from a three months' visit in California. They report a fine time, although Miss Anna had the misfortune of getting her arm broken in a jitney accident, which marred her pleasure to some extent.

One of the quarry men, a stranger, received a pretty hard bump on the head Tuesday from a flying rock from a blast. The fellow was knocked down and had a gash cut on his head, but it getting along nicely.

Les Gregory and Mont Shrader left Tuesday morning for Grant, Neb., where they will run the Philpot and Gregory eight bottom breaking plow that was shipped out there the last week. The boys made the trip overland in a Maxwell roadster.

Mr. and Mrs. Charles Bates of Rexford, Kas., are visiting at the home of Mr. Bates' sister since Tuesday night and will continue their visit here until after Decoration day. Mr. and Mrs. Bates were former citizens of this community, and lived on the farm southeast of town now owned by C. E. Joyce.

For cattle and horses. Good running water. Two miles southeast of this city. Inquire of James Kennedy.

Humphrey Murphy, of Manley was an over Sunday visitor in this city with friends returning home this morning.

Office supplies at the Journal office.

**\$100 Reward, \$100**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CIBNEY & CO., Toledo, Ohio. Sold by all Druggists, 7c.

Jim Kinzie, who had been spending a week at the home of his sister, Mrs. T. J. Collister, returned to Kansas City last Tuesday.

Dr. M. U. Thomas was sporting a cane and a good-sized limp for several days on account of his foot coming in contact with a rusty nail.

Mr. and Mrs. Roe Berryman of Cozad, who had been visiting their many friends here since last week,

**SPRAYING FRUIT IS ESSENTIAL SO SAYS J. J. SMITH**

Florence Apple Grower Says All Trees Should Be Treated In Bloom.

J. J. Smith, apple grower living north of Florence, and regarded by many as the most scientific apple grower in Nebraska, has written to the fruit marketing and development committee of the Omaha Commercial club the following letter concerning the care of apple orchards:

"As the apple trees are now in full bloom, they will soon be ready for the codling moth spray. To grow sound fruit should interest every person who has one tree or many. Let us not have a repetition of last year's apple market if we can avoid it.

Get a Spray.

"If a person has just a few trees in the yard, go to the seedman and get a small hand sprayer holding three to five gallons. If the orchard

is a commercial one, secure either barrel sprayer, holding fifty gallons, or a power outfit. At any rate, use eight to ten-foot rods with a nozzle that will cast a dense spray. For the yard trees the operator may stand on a stepladder to reach the top of the trees.

"While the commercial orchardist may spray from three to five times during the season, the person with a few trees may secure 80 per cent to 85 per cent sound fruit in an average season with a good, thorough codling moth spray, which is applied just after the petals fall and before the calyx closes.

Use Lime Solution.

"The proportions are as follows: One and one-half gallons to fifty gallons of water. To this add one and one-quarter pounds of dry arsenate of lead, or two and one-half pounds paste form. The latter requires to be dissolved and strained, that there shall be no lumps to clog the nozzles. Add the lead the last thing, before you begin.

"If the solution stands over night, after being mixed, it will most likely burn the foliage; therefore, mix no more at one time than you can use. This solution is easy to apply after you know how. Dress as a man would if he were preparing to clean the cellar or do an odd job of painting; overalls, jumper, old hat, gloves,

goggles, and go to it. Put from two to four gallons to the tree. Cover every calyx."

**HANDED A "LITTLE PACKAGE" IN POLICE COURT THIS A. M.**

Everett Brookstool, giving his residence as Nebraska City, was in the police court this morning to answer to the charge of being in a state of intoxication, contrary to the peace and dignity of the state and city, and was handed a little package labeled \$5 and costs, which he settled and was allowed to proceed on his way rejoicing at the release from the clutches of the law. Everett had partaken too freely of the flowing bowl and found he could not handle the brand of firewater handled here with the ease he was accustomed to at home, and hence his downfall.

**Rheumatism.**

If you are troubled with chronic or muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere.

**Let Us Assist You in Planning Your New Residence!**

—You are no doubt in the same position that a great many others of this city and community are in. You want a new home, and if you had a little assistance in the way of plans, cost of material and a partial estimate on the cost of your new home you might build now.

—We have just received a most complete line of plans, specifications, estimate of lumber bills for each and every structure in this great volume, all of which will be of great aid to you in planning a new home, all free to you by calling at our lumber office. This volume also contains the plans of combination barns and silos, garages, outbuildings of numerous kinds, which we will be glad to show prospective building of these sort of structures.

**This is Our Line and We Will Be Glad to Help You!**

**Our Lumber and Building Line is Complete**
