SMALL SIZED MEXICAN REVOLUTION RIGHT HERE IN PLATTSMOUTH

Saturday afternoon at about 5:30 a small sized Mexican revolution was staged out near the Missouri Pacific depot, where an extra gang of Mexicans are staying in their boarding car while engaged in doing work on the tracks, and for a few minutes the scene resembled life in the native land of the hot-blooded descendants of the Aztecs as one of the laborers became engaged in an altercation with the straw boss of the gang and soon the torrent of words led to more violent action and the lowly peon whipped out a knife and made a pass as if to cut out the heart of the boss, but fortunately miss his mark, and proceeded to take safety in flight as in the meantime a message had been sent to Chief Barclay to come out and quell the uprising. On the arrival of the chief there was no sign to be found of the man who had caused all the trouble and the last seen of him he was in flight. The police made a thorough search for the knife artist and rounded up the Mexicans in an effort to locate the man, but without result, as there was no one found who could be identified as the guilty party. It is hoped, however, to land the man, as he has some money coming from the railroad and will have to call to get it.

THE GIBBON HOUSE AT WEeping WATER DESTROYED BY FIRE

Yesterday morning, shortly after 5 o'clock, the Gibbon House, one of the principal buildings in Weeping Water, was destroyed by fire, which is supposed to have originated from lightning striking the building during the storm that visited there shortly before the fire. The fire department of the city was called out and made a determined effort to extinguish the flames, but without effect, as the frame structure soon was wrapped in flames and in a short time only the walls of the building were left standing as the interior was completely gutted by the flames. The Gibbon House was erected a number of years ago at a cost of \$8,000, and was one of the oldest buildings in the city. The fire spread quite rapidly, and it is also due to the work of the fire department that the flames were prevented from spreading to nearby structures as the fire boys kept three streams of water constantly in use on the burning building and the ones nearby. There was \$2,000 insurance on the hotel building.

FINDS DEMAND FOR BIG NAVY

Secretary Daniels Says the Middle West Favors a Strong Sea Force.

Chicago, June 18.—Josephus Daniels, secretary of the navy, reached Chicago from St. Louis Saturday and talked with emphasis on the need of dreadnoughts. The country, he said, demands a bigger navy and army. He had found that spirit everywhere in his present western trip.

"A navy is always as big as the public demands," said the secretary, "and right now there is a movement throughout the United States to make it the strong arm of our national defense. I find that the sentiment for preparedness is not limited to the east coast or the Pacific coast. It exists in the middle west, just as surely as near the seas."

"I have been working hard for the adoption of the new naval bill, which will give us 245 million dollars to expend on ships and add 16,000 men to the service. So far the house of representatives has not been properly impressed with the need for a strong navy, but the senate is to be depended upon to back dreadnoughts."

"I think the North sea battle has demonstrated to the country that the ideal fighting ship is the dreadnought, which can give and take blows of tremendous power."

ELECTS NATIONAL OFFICERS
