ANOTHER PIO-NEER LADY PASSES AWA

Wednesday Morning at Her Daughter's Home

Yesterday morning shortly after o'clock Mrs. Rebecca Wiles Akeson, one of the few surving pioneer residents of Cass county passed away at the home her daughter, Mrs. Emma Breckenridge near Manley. Mrs. Akeson, coming to Nebraska at an early day, experienced the hardships of pioneer life and during her long and useful life she has passed through more than the usual share of joys and tom land east of the city would be sorrows but throughout maintaind visited by a dose of flood water. A that firm unfaltering Christian faith which she had made a part of her daily life.

Rebecca Wiles was born January 15, 1833, in Henry county, Indiana, BIG AUTOMOBILE where she spent a part of her childwhere she spent a part of her childhood and in 1841 was brought by her parents to Andrew county, Misscuri, where the family made their home for some time and where she was married in 1853 to William Gentry. To this union there were four children born, three living and one dying in infancy, those surviving her being Milton Gentry of Manley, Mrs. Katherine Hostetter of Union, and B. F. Gentry of Gering, Neb. Mr. Gentry died in 1854 and shortly after this the widow and little children moved to Mills county, Iowa, where they resided for some four years and where in 1867 Mrs. Gentry was married tot Mattes Akeson. About a year after their marriage, Mr. and Mrs. Akeson and family moved to Cass county and located on a farm in the central part of the county. To them three children were born, Ella, who died when 12 years of age; Thomas W. Akeson of Weeping Water, and Mrs. Breckenridge, and it was with the last named that she passed her last few years. Mr. Akeson was murdered at his home near Weeping Water in 1893, by Harry Hill and Sam Benwell and for this Hill was hung in the jail in this city, and after the tragic death of the husband Mrs. Akeson made her home with her children.

At an early age Mrs. Akeson united with the Baptist church after coming to Nebraska she affiliated with the Christian church and remained a most devout member of that church until her death and all those whom she came in contact with were at once impressed with her abiding faith in the Master whose teachings she had followed so closely. As Mrs. Akeson passed away at her home vesterday morning a friend of her lifetime, Mrs. Henry Lehnhoff who had lived only a short distance from the Akeson farm for many years, was dying and these two old friends for more than forty years were only a few hours apart in answering the call to their well earned rest and peace.

Isaac Wiles of this city is the sole surviving brother of Mrs. Akeson and out of a large family of brothers and sisters he is the sole survivor.

FACTS REGARD-AT-UNION

Lincoln, Neb., May 17, 1916.

My Dear Mr. Baker:

I received today the samples Log of the well at Union, Neb. They show that you are still drilling in the Penntainly not think of abandoning the well until I had drilled several hundred feet further. You will have no trouble with casing off shales because of the large amount of shale which you will penetrate. All wells which have been drilled in Nebraska in thus series of rock have given the drillers considerable trouble because of water, and casing shale you will probably have the same experience. I hope everything at the well is going Sincerely,

"DAMAGED GOODS" CLAIMED TO BE

The photo play presentation of "Damaged Goods" which opened a two nights engagement at the Airdome last evening certainly is all that has been claimed for it by the leading men and women of the country and from a standpoint of demonstrating the effects of one of the greatest evils of the modern times it is without a peer. The facts which the pictures bring out are the same as all reliable physicians and teachers have been trying to place forcibly in the minds of the men and women of the country but in motion pictures it brings a lesson that will always be remembered by those that see them. The pictures are not produced for amusement but for instruction and for the betterment of the human race and those who have assisted in producing these films have contributed a great deal toward relieving conditions of morals and the betterment of the physical wellfare of mankind The country over "Damaged Goods' has been endorsed by the most eminent members of the medica! pron an article a week from this com- fession, as one of the best means of ing Sunday.
