## U. S. IMMIGRATION OFFICER IN TOWN ON BUSINESS

From Wednesday's Daily. Yesterday S. L. Whitfield, inspector of the United States immigration service, was in the city and served upon Fred Detil who is confined in the county jail, a warrant for him to show cause why he should not be deported from the United States and sent back to his native land of Germany. The inspector held an examination of Detil who admitted he was a fit subject to be deported and seemed willing to return to his own country. The matter of providing a means of reaching Germany will now have to be looked up as the passenger service between this country and the German empire has been almost totally abandoned and it is with the greatest difficulty that the trans-Atlantic travelers get to and from Europe owing to blockades and restrictions laid on travel as well as the fact that the German line steamers are most all tied up in this country until after the war. As soon as it is possible, however, the young man will be shipped back across the "pond."

### NOT OPERATED UPON

From Tuesday's Daily. J. W. Johnson, who departed yesterday for Omaha with the expectation of undergoing an operation for the removal of a cataract from his left eye, returned home last evening as it was decided not to perform the operation at present until the trouble becomes more developed. ## WRIST FRACTURED AS A RESULT OF STARTING AUTO

From Wednesday's Daily. Yesterday afternoon A. T. Pitt, of the Pitt & Hitchman garage, met a very painful experience with a Ford as a result of which he is wearing his right arm in splints having had the right wrist broken as a result of the starting apparatus of the car backfiring and throwing him some distance from the machine and in falling he hit in such a manner as to break the wrist. Mr. Pitt in company with Ed Mason had started for Omaha in the machine of Mr. Mason and while running along the road on the Platte bottom they came onto another auto traveler who was having considerable difficulty in getting a new tire on his car and the two gentlemen got out and assisted him in getting the tire fixed up and ready for a start. Mr. Pitt then started to crank up the auto in which he and Mr. Mason were riding and on the first attempt the machine failed to respond to his efforts and on the second tryout it backfired and threw Mr. Pitt to one side and in falling he brought his whole weight on the right arm with the result that both bones in the wrist were broken.

## HELP ON THE PAVING HARD TO GET AND DELAYS THE WORK

From Wednesday's Daily. The paving of the side streets is being pushed along as rapidly as possible by the contractor and the force of concreteers are now at work on Third which will be paved for a block south of Main and as soon as this is completed it will be possible to go ahead with the brick laying as the concrete work on Fourth street has been complete for several days and is ready for the brick. This is an improvement that will add greatly to the appearance of the business section of the city and has afforded work for a great many men of the city during the past few weeks. The work is being looked after very carefully by the contractor, Mr. McMaken and he is endeavoring to give the city the best possible job of work and one that will be lasting. The paving will certainly remove the mud holes that formerly made these side streets almost impassible in bad weather.

## VISITED DISTRICT ENCAMPMENT OF UNIFORM RANK

From Tuesday's Daily. Yesterday W. B. Rishel was a visitor at the district encampment of the uniform rank of the Woodman of the World which is meeting at Lake Manawa this week, and which includes delegations from lodges in Nebraska, Iowa, Wisconsin and North and South Dakota. The encampment is under the command of General Fraser, the head of the order in the United States and is a most notable occasion of its kind. On Thursday there will be a monster demonstration of all Woodmen at the camp and a very large delegation from the local camp is expected to be present to take part in the festivities. There will be a number from this city in attendance all week at the encampment.
