STEAM ROLLER OF ALLIES HALT TO PREPARE RUSH

Lull in Fighting on Somme, According to Schedule, Say Authorities.

THE GERMAN LINES PIERCED

Teutons Regain Ground and Allies Report Slight Advances Over Night.

Paris, July 12.—The lull in the fighting on the Somme front, reported in today's official statement, was marked down in advance. The Anglo-French steam roller is halting and preparing for the next infantry rush. French authorities declared today that the offensive is proceeding with all the mathematical exactness with which it was planned.

Copied German Tactics
The allies copied from the German attack at Verdun their present tactics of smashing through German defenses with heavy artillery and trench mortars. Heavy artillery has pierced the German lines at several points, rendering possible infantry thrusts for as great a distance as eight and one-half miles, had the allies been willing to sacrifice the men. However, they refused to advance their men until they have brought up heavy artillery and cleared a path.

Germans Regain Ground.
London, July 12.—German troops regained some lost ground last night between the Manetz and Trones woods, east of Albert, but all other enemy attacks were beaten off with heavy enemy losses, General Haig reported.

Irish fusiliers penetrated a strong German position southeast of Loos last night, remained twenty minutes, killing many Germans, and retiring with slight losses.

The Seaforths raided the Hohenzollern redoubt, two miles north of Loos.

British Gain Eight Miles
General Haig reported that the Germans have been heavily reinforced.

The British gains in the ten days of the great offensive include the entire German first line of defense along a front of eight miles, General Haig reported today.

The French have advanced until they hold the dominating hills around Peronne, likely to be the scene of a determined contest. General Foch's men strengthened their positions at La Maisonnette.

19,000 Prisoners.
About 19,000 prisoners have been taken by the combined armies, of which the British forces captured 7,500. Twenty-three towns have been taken.

On the Verdun front the Germans have gained a foothold in the Damloup battery, and in the Fumin wood on the right bank of the Meuse.

Strong German reinforcements have been brought up to stop the Russian advance, now in twenty miles of Kovel, important Galician railroad center.

The Russian offensive has resulted in the capture of 271,621 prisoners, it was officially reported yesterday.

The Italians have taken additional positions from the Austrians in the Trentino.

Roswell Marrow, of Takoma, is here visiting at the home of Chas. Hebners and other relatives for a few days.

Mrs. Clayton Rosencrans came last Saturday to visit her parents Mr. and Mrs. J. G. Wunderlich.

Miss Erma Stoll of Lincoln, came of cement.

Mrs. Oren M. Pollard's father and mother, brother Alford White and wife, brother Forrest and three nieces, Helen, Margarette and Dorothy Vogt, of Lincoln, spent the Fourth with her. They all took dinner on the Fourth with M. H. Pollard and family. They returned home on Wednesday morning.

Herbert Opp, who had been suffering for some time with appendicitis, developed an acute case early last week, and was taken to the Emanuel hospital in Omaha where he was operated upon Thursday morning. Mrs. Saturday for a short visit with her brother and family, Mr. and Mrs. Fred Stoll.

Mrs. J. M. Palmer and children returned to their home after a few weeks visit with her mother at Avoca.

Mr. and Mrs. Heron Evans are enjoying a visit from Mrs. Evans' sister, Olive Prater, of Nemaha, also their cousins, Mr. and Mrs. Raymond Hurt, of Seward.

The brick and other material haying arrived on the ground, Jas. Miller and Henry Gruber commenced work on the new addition to the Nehawka Bank Monday morning. The basement and foundation is now being constructed Opp is at his bedside. The operation was successful and Herbert is reported getting along very nicely.

Link Record went to Avoca on the train last week to work for a farmer near there nothing strange about that. But the fact is that Link is 55 or 56 years old and has lived in the county for about 40 years and this was the first time he ever rode on a railroad train, is a very strange thing. Probably one reason Link never rode on a train before is the fact that he is one of the best horsemen in the county and always kept a driving horse that was faster, in his opinion, and more safe than a railroad train.

NOTICE PAST CHIEFS

The members of the Past Chiefs desiring to attend the meeting at the H. G. Van Horn home Friday afternoon, are requested to meet at the corner of Sixth and Vine streets at 1:30, where automobiles will be awaiting, to convey them to the Van Horn home. 2-t-d.

Read the Evening Journal. Only 10 cents a week.

Oil Stoves

You ought to have an Oil Stove these hot days. It will save its self in price of fuel alone.

We have in stock a full assortment of the best stoves on the market.

These are all this year's models.

BESTOR & SWATEK

TWO OF KAISER'S GUNS CAPTURED DATED 1874

London, July 12.—The Reuter correspondent at the British front reports that two German field guns bearing the date "1874" have been captured by the British. The corres-

pondent asks whether, without attaching undue importance to the incident, these guns do not indicate the straits to which the Germans are beginning to be reduced in order to find sufficient armament.

TWO MILLION PAIRS OF HERMAN'S

U.S. ARMY SHOES

Have been worn by U.S. Soldiers, Sailors, Marines and Militiamen.

Colonel Stephen C. Mills, in service in the Philippines, tramped 18 miles in a new pair the first day he ever wore Herman's U. S. Army Shoes, 15 miles the second day and long distances the next two days, through mud and water often waist deep, and over slippery, rocky hills, and his feet were neither rubbed, bruised nor abraded.

That was because U. S. Army Surgeons designed the lasts; uppers are of best calf skins; outsoles of Texas unscoured oak; insoles of superior quality leather, pliable, easy and durable; lining is specially tested drill; heels are solid whole oak lifts with hemlock top pieces; workmanship is best in the world.

HERMAN'S U. S. ARMY SHOES are built to keep the feet comfortable through the hardest service in all climates and all weathers.

Get in On this Sale of Curtain Goods!

We have taken all cut pieces of Scrims, Marquisettes, Voiles, Nets and Swiss, put them on a table and marked them in plain figures on yellow tags. In many cases prices below cost—good reason—we want to have our shelves clean for the fall lines that will come in soon. These bargains won't last long, they're too good.

Last But Not Least—Remnants, Etc.

In preparing our stock for this big event we find many remnants and short lines of piece goods that we cannot list because we haven't enough of any one item to give it space. We put them all on one big table. Remnants, odds and ends, etc., left from the season's selling. All marked in plain figures, giving the yardage of piece and priced for saving our customers real money.

Come again to-morrow and next day—still plenty bargains left.
