John Larsen, the new hotel man in Cedar Creek, has thoroughly renovated the entire building, placed everything in good shape, and is running an up-to-date hotel here. He is giving the best of service and is deserving of all the patronage that comes to his locality. Let everybody be a booster and we will always have a good hotel.

Threshing has been on in full force in this locality for the past few days, and the small grain is turning out in good shape. There never was a better quality of wheat grown here. There has been a greater amount to the acre, but never a better quality. There are three machines running full blast near town, and they are all running full capacity. Over at Ed. Wagner's the test is standing up to 61 pounds with an average of 27 bushels to the acre. This wheat has been sold on the Cedar Creek market, and brought 97c, which is a cent or two under the present market. At Walter Schneider's the test is just the same, with about the same average per acre. The oats crop is running good also.

On last Monday night there were about fifteen of the citizens of Cedar Creek and vicinity took the automobile route for Omaha to attend the festivities at the Ak-Sar-Ben den. It was not the night that the promoters of this trip had planned, as they figured and planned on full 100 from here going up, but the busy season on the farm kept the farmers and their help at home. As it was Cedar Creek proper was pretty well represented. There was the banker, the blacksmith, the general merchant, the grain buyer, the section boss, the doctor and a few farmers, with the promise that the lumberman and the barber would go, but the two latter failed to make connections and missed the big train. The trip was made via the auto route, and the three big cars of Cedar Creek was in the train, J. F. Wolff, with his big Studebaker, J. F. Foreman with his long Henry T. Ford and Henry Heebner with his great big seventeen-cylinder Nyberg, the speediest and mightiest of them all. The journey was a pleasant one for all the boys, with only a slight accident on the return with the fleeting Nyberg. Henry was sailing along merrily, and suddenly came upon a spot along the highway where the rain had slightly favored that section of the country and the car skidded to one side of the road, and slightly bent the front axle to the car, not even enough to mar the pleasure of the trip, and this damage was unknown to Mr. Heebner until he arrived home. This slight accident was the cause of Mr. Heebner arriving at Cedar Creek in third place, where he would of headed the train with ease.

J. R. C. Gregory made a business trip to Omaha and Lincoln last Saturday, at which time he made a trade disposing of his old steam engine that he has operated on his farm for some time for a fine new gas tractor. This big tractor will almost dispense with horse flesh on the Gregory farm in the future. When he has a car load of hogs to bring to the marketing station he can place a train of wagons behind this monster engine that will pull the whole load for him.

#### A MIGHTY GOOD MARKSMAN

From Wednesday's Daily.

One of the young men of the city who prides himself on his marksmanship with a rifle had a joke played on him the other day that he really did not relish and which a number of his relatives were in on. It seems that at this place a great many young chickens have been taken by the ground squirrels and weazels and to get rid of the pests an armed guard is maintained to kill them off and has been meeting with much success. The young man in question on returning home at noon discerned with his eagle eye a squirrel in the vicinity of the chicken yard and rushed in to secure the trusty 42-centimeter and soon the ground in the vicinity of the squirrel was riddled with bullets but there was not a movement on the part of Mr. Squirrel and it was not until a great deal of ammunition had been used up that it was found that the squirrel was one that had been dead for several days.

### "THE WHOLE TRUTH"

Says Mrs. Eads, in Writing Her Praise For Cardui.

Circleville, Ohio.—"All I have said about Cardui, the woman's tonic, is the whole truth," says Mrs. Fannie Eads, of R. F. D. No. 6, this town.

"I suffered with womanly weakness, and pains in my back and limbs for two long years. I was so bad off, I could hardly walk at all.

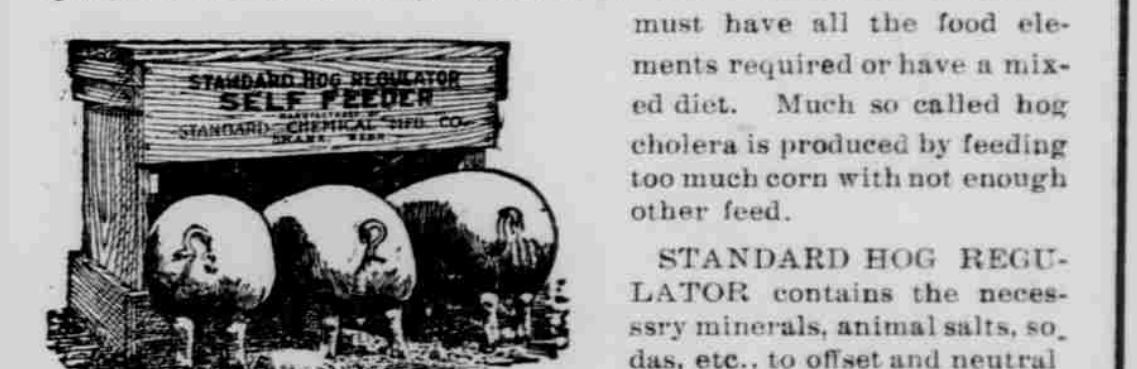

My husband advised me to try Cardui, the woman's tonic, and I concluded to follow his advice. After taking Cardui according to directions, I now feel like a new woman, and can do all of my work.

Before taking Cardui, I was a walking skeleton; now I weigh 150 pounds. I recommend Cardui to every suffering woman, for I know what it did for me. My dresser is never without a bottle of Cardui on it."

There is no reason why Cardui won't help you, just as it has Mrs. Eads, as well as hundreds of thousands of other women in the past 50 years. So if you suffer from any of the many ailments so common to women, or need a good strengthening tonic for that tired, nervous, worn-out feeling, get a bottle of Card-u-i, today. At all druggists. ## The Kidneys of the Hog

secrete the urine and other poisons. They must be in a healthy, natural active state to do this or blood poisoning may result. If not this, at least, enough local disturbance is caused to cause disease. Many an epidemic is started this way. To keep the kidneys healthful the animal must have all the food elements required or have a mixed diet. Much so called hog cholera is produced by feeding too much corn with not enough other feed.

STANDARD HOG REGULATOR contains the necessary minerals, animal salts, soda, etc., to offset and neutralize the effects of feeding too much of one kind of food or of over-feeding. Simply let the hogs run run to it in a Standard Self Feeder.
