and that the German vote will make Mr. Hughes president? Mr. Hughes may answer that while

all these sinister interests are for him, he is not for them. That was Mr. Heart's reply in 1906 when Mr. which they praise the wide-awake Hughes asked why he was Murphy's candidate for governor. The answer was not satisfactory ten years ago when Mr. Hearst gave it as his excuse, and it cannot be satisfactory

In Mr. Hughes' case a complete reply is doubly necessary. When he was governor of New York his stat administration was wrecked by the ame kind of inf incres that are now

as Mr. J. C. Thiessen, of Gretna, Neb., had, who found that pigs fed on corn alone would often swell in the neck. He did not believe in STANDARD HOG REGULATOR, but he made a test on three pigs. He

let them run to the Regulator in a feeder. At the end of the menth all tumors and ulcers had disappeared. He continued its use for three months and found he had made a considerable saving in feed, the pigs weighed more than the others, were in better shape and had eaten in three months, less than 5 lbs of Regulator.
