Wait! We have made up our minds to go to Chase county with you, Rosencrans.

RUPTURE EXPERT HERE

Seeley, Who Has Supplied U. S. Army and Navy, Called to Omaha.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will be at the Paxton Hotel and will remain in Omaha Monday, Tuesday and Wednesday only, August 14, 15 and 16th. Mr. Seeley says: "The Spematic Shield as supplied to the United States Government will not only retain any case of rupture perfectly, but contracts the opening in ten days on the average case. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C. for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this advertisement has been verified before the Federal and State Courts—F. H. Seeley.

LEE WATSON, Owner.
J. P. Spearman, auctioneer; W. A. C. Johnson, clerk.

The dance at the K. S. hall on Saturday evening will be one of the pleasant events of the season and every one who can should be present. The dance will be on from 8 o'clock to midnight.

J. M. THURSTON, AN EX-SENATOR, DIED YESTERDAY

Nebraska Statesman Dies in Omaha following Heat Prostration.

Had National Reputation—Close Adviser of President McKinley.

Omaha, Neb., Aug. 9—John M. Thurston, former senator from Nebraska and nationally prominent republican, died here at 4 a. m. today. He had been critically ill for four weeks, following a heat prostration, and his death had been momentarily expected for three days. Thrombophlebitis was the immediate cause of death, according to a statement by the attending physician, Dr. F. J. Schlier. Thurston was born at Montpelier, Vt., August 21, 1847. He was one of President McKinley's closest advisers and was regarded by McKinley as one of the country's ablest men.

"Cuba Must Be Free."

During his service in congress Thurston won national notice as an orator. A speech he made in the senate is claimed to have precipitated the Spanish-American war.

After finishing his term in the senate, Thurston opened offices in Washington and practiced law until 1915, when his health failed. He returned to Omaha and later resumed the practice of law, but his health handicapped him greatly.

Mr. Thurston was temporary chairman of the republican party convention in 1888, and several times served as a delegate at large to the party's conventions. He was elected to the senate in 1894. He was at one time solicitor general of the Union Pacific railroad.

On Christmas day, 1872, Thurston was married to Miss Martha Poland, daughter of Colonel Luther Poland, of Omaha. She died March 14, 1898, and in November of the next year, Thurston was married to Lola, daughter of William J. Furman, former congressman from Florida.

NEW GENERAL MANAGER AT
WESTERN MACHINE COMPANY

Mr. T. B. Peterson, electrical and mechanical engineer of Omaha, has associated himself as stockholder and general manager of the Western Machine and Foundry company of Plattsmouth now one of the best manufacturing plants west of Chicago.

Mr. Peterson is an inventor of known ability, and is also vice president of the Standard Foundry company of Omaha, who at present are acting as sales agents of the Peterson Irreversible Steering Gear for Ford cars. The Western Machine and Foundry are now equipping to manufacture a large number of accessories for automobiles.

Sales bills done quickly at the Journal.

Don't You Need a Good Engine?

Let us show you some of the good features of a Fairbanks-Morse Type Z Oil Engines. They are designed to run on kerosene and other cheaper fuels, as well as gasoline. They deliver the same power on a gallon of kerosene as on a gallon of gasoline. They have a throttle governor, built-in magneto, pump fuel feed, speed regulator, removable bushings in bearings, close speed regulation, igniter fitted by ground and tapered joint.

BESTOR & SWATEK

RESOLUTIONS OF RESPECT.

Whereas: Our Heavenly Father in his wisdom has seen it expedient to summon from our class associations our beloved brother, Charles Hiatt, therefore be it resolved: That in Brother Hiatt's passing we have lost a most useful member of our class, faithful and conscientious, and ever willing to discharge any duty placed upon him; that we shall miss his geniality and loyal services to the class and shall ever feel the presence of his influence.

Resolved: That we hereby extend to his grief stricken companion our most heart felt sympathy in this hour of her greatest anguish and we commend her for consolation to Him who doeth all things well.

Resolved: That a copy of these resolutions be spread upon the records of our Bible Class, a copy conveyed to the widow of our departed brother and that the same be published in the Plattsmouth Journal.

R. B. Windham,
Robert Patton,
J. W. Crabill,
Committee.

PLATTSMOUTH QUARTET SINGS.

Last evening the members of the Plattsmouth male quartet, composed of Messrs. F. A. Cloldt, W. G. Brooks, Jennings Seivers and Don York, with Miss Hazel Tuoy as pianist, journeyed out to the Masonic Home and for several hours entertained the aged residents of the home with their very pleasing selections, and it is needless to say that their efforts were very much appreciated by the residents of the home, as well as Superintendent W. S. Askwith and wife.

VALUE! QUALITY! SERVICE!

The World's Most Powerful Low Priced Car 31 1/2 H.P.

ANNOUNCING THE NEW SERIES

\$635 **75 B** **\$635**
f.o.b. Toledo *Overland* *f.o.b. Toledo*

This newest Overland is the world's most powerful low-priced car.

It has a 31 1/2 horsepower in-line motor that is a perfect marvel for speed, power and endurance.

By increasing the bore of the motor from 2 1/2 to 3 1/2, we are able to offer a power plant which at 1950 R.P.M. develops full 31 1/2 horse power.

Tests under every condition in all parts of the country demonstrate that it easily develops better than fifty miles per hour on the road.

Speed of course varies under different conditions, but its practicality every motorist has been getting fifty miles an hour and with ease.

We have scores of telegrams showing that eighteen to twenty-five miles per gallon of gasoline is not unusual.

The performance of this car is almost beyond belief.

Take any other low-priced car on the market. Put it against this new Overland. Compare them for speed, power, for endurance of motor, for fuel economy.

4 cylinder in-line motor 31 1/2 horse x 57" stroke 104-inch wheelbase 4-inch tires

and economy, and you'll find this car will back anything else clean off the boards.

That's a strong statement, but a fact nevertheless. Try it yourself and see.

Here are more important facts. It has four-inch tires which are more than generous for a car of this size.

Cantilever rear springs Streamline body Electric starter Electric lights

Not only has it a large and roomy body, but it has an attractive, up-to-date streamline body.

It has the latest and most improved system of ignition.

It has the cantilever springs—the latest riding springs in the world.

What's more, it's complete. Not a thing to buy. You get the finest Auto-Lite electric starting and lighting system, magnetic speedometer, one-man top, demountable rims and practically every accessory found on the highest priced cars.

From a driving standpoint, the new car is ideal. It's light, easy to handle and anyone can drive it.

Take one look and be convinced.

And mark these words—the car is destined to be regarded and referred to as one of the really great achievements of the great automobile industry.

Yet it only goes to prove how big production can cut cost and save you money. First come, first served. Place your order now.

JOHN BAUER

The Willys-Overland Company, Toledo, Ohio

Within two weeks we will also be able to show you the new large Four at \$795 f. o. b. Toledo. This Four is an enlarged and refined Model 83, of which 100,000 were sold last year, and the new light Six at \$925, which are also startling values. The Willys-Overland Company are producing 1,000 cars a day at the present and in spite of this enormous production are unable to keep up with orders.
