NEW YORK STATE GOING TO WILSON

President Will Surely Annex the Forty-five Electoral Empire Votes.

district in the state that has not its quota of Wilson republicans. I know of one instance in point, eleven farmers went to the postoffice to get their mail. The entire eleven said they were republicans, but nine declared that they were going to vote for the re-election of the president. In my own county, Saratoga, I have heard of similar concrete examples of the president's popularity among the residents of the rural districts.

Democrats Grow.

New York, Oct. 6.—The empire state with its forty-five electoral votes will be counted surely for President Wilson. Never at this stage of a national campaign have indications of democratic success in New York state been so positive. In a conference yesterday with National Chairman Vance McCormick, Edwin S. Harris, chairman of New York state democratic committee, went carefully into details of the state campaign and later summarized his report as follows:

"President Wilson will carry New York by more than 100,000. This estimate is based on a careful canvass made by the democratic state committee, which showed that the president has the united democratic vote behind him, together with the support of a large number of republicans. The democratic party in New York is harmonious and for the re-election of President Wilson to a man. This is a strong contrast to what is going on in the republican party."

President Wilson's strength among the republicans of New York as indicated by the state committee's canvass is one of the most significant developments of the campaign. No less than 50,000 empire state republicans have openly declared their intention of voting for the re-election of President Wilson.

"They say other republicans have told them they are going to do the same thing. There is not an election

WHEAT CROP SHORT, STATE REPORT SAYS

State Board of Agriculture Says the Yield is Worth Twenty Millions More.

CHASE COUNTY LEADS ALL

Lincoln, Oct. 8.—(Special)—According to a bulletin issued by Secretary W. R. Mellor of the State Board of Agriculture, Nebraska raised less wheat this year than last, but the crop is worth about \$20,000,000 more. This is partly due to the fact that there was an acreage of 352,574 less in 1916 than the former year, but was partly offset by an average yield of 1.6 bushels per acre more.

The total acreage this year was 3,063,756 acres and the yield 65,365,691 bushels. The total crop is valued at \$78,438,829 as compared with \$58,856,358 last year.

Clay county raised the largest crop, 2,430,417 bushels, with Adams county a close second with 2,411,803 bushels.

Douglas county raised 149,006 bushels on 6,712 acres, an average of over twenty-two bushels to the acre. The highest average yield was in Chase county, being a little over thirty-four and one-half bushels—Omaha Bee.

Chase county is the county that Mr. Rosencrans is operating in.

NOW IN CALIFORNIA.

L. C. Todd and family, who a short time ago departed by automobile for California, are now enjoying themselves in the splendid climate of California, and the trip from their home at Lincoln to Long Beach was made in twenty days and was one thoroughly enjoyed by everyone in the party. Mr. Todd and family will remain in California for some time.

FOR RENT.
